Kementerian digesa cari kaedah sesuai

Kuala Lumpur: Pengajaran dan pembelajaran Sains dan Matematik dalam Bahasa Inggeris tidak sepertutnya dilaksanakan semula, kata bekas Ketua Pengarah Dewan Bahasa dan Pustaka (DBP), Prof Datuk Dr Awang Sariyan.

Awang yang juga Penasihat Persekitaran Linguistik Malaysia itu sebaliknya menggesa Kementerian Pendidikan mencari kaedah bersesuaian untuk meningkatkan tahap penguasaan bahasa Inggeris dalam kalangan pengajar dan pelajar.

Beliau menegaskan, pengajaran dan pembelajaran Sains dan Matematik dalam bahasa Inggeris bukan program pemuliharaan atau peningkatan penguasaan bahasa Inggeris kerana kajian empirikal menunjukkan penguasaan bahasa itu tidak meningkat, malah pencapaian pelajar dalam dua subjek terbabit juga merudum dalam menerusi pelaksanaannya.

"Penguasaan bahasa Inggeris hendaklah ditingkatkan melalui mata pelajaran itu sendiri, latihan perguruan, penyediaan bahan pengajaran dan pembelajaran dan penyusunan sukanan pelajaran berkesan."

"Pengajaran dan pembelajaran Sains dan Matematik dalam bahasa Inggeris disahkan program yang salah dari segi dasar matlamat dan pelaksanaannya. Kajian DBP, Universiti Kebangsaan Malaysia (UKM), Permuafakatan Badan Ilmiah Nasional (PEMBINA) dan kementerian juga mengesahkan kesilapan serta kegagalan

"Malah Kementerian Pendidikan memansuhkannya pada 2012. Adakah kerajaan hendak mengulang kesilapan kali kedua dan hendak mengurangkan peranan bahasa Melayu sebagai bahasa ilmu, terutama dalam bidang sains dan teknologi," katanya kepada BH di sini, semalam.

Sementara itu, Ketua Setiausaha Pengelola PKR, Nik Nazmi Nik Ahmad dalam hantarnannya di akaun Twitter menyertai kerajaan mempertimbangkan semula pengumuman Perdana Menteri yang berhasrat memperkenalkan semula pengajaran dan pembela-

juran Sains dan Matematik dalam bahasa Inggeris.

"Kita mestilah mengimbang semula mengapa PPSMI dimansuhkan pada 2012. Penggunaan bahasa Inggeris dalam subjek Matematik dan Sains menyebabkan pelajar yang rendah penguasaan bahasa itu sukar memahami dua subjek penting berkenaan.

"Kita juga berhadapan dengan isu guru Sains dan Matematik yang lemah penguasaan bahasa Inggeris yang tidak boleh dilahirkan segera atau digantikan dengan mudah.

"Jika kita benar-benar mahu memperkasakan bahasa Inggeris pelajar, kita harus memperkenas mutu dan silibus subjek terbabit.

Ini pendekatan lebih berkesan berbanding menambah pengajaran bahasa Inggeris dalam subjek lain. Tambahan lagi, kita ada Program Dwibahasa (DLP) sejak 2016," katanya.

Nik Nazmi menambah, Kementerian Pendidikan seharusnya mengelak perubahan dasar pendidikan yang terlalu keras kerana ia akan memberi kesan secara langsung kepada guru dan pelajar.

"Apa yang kita patut fokus adalah memastikan semua rakyat mempunyai akses kepada pendidikan dan menambah pelaburan dalam sektor pendidikan.

"Usaha untuk memperkasakan Pendidikan Teknikal dan Latihan

Dalam perkembangan sama, bekas Menteri Pendidikan, Datuk Seri Dr Mahdzir Khalid pula menggesa kerajaan memperkasaan Program Dwibahasa yang dipperkenalkan pada 2016 sebelum memperkenalkan semula PPSMI.

'Elak lawak berlebihan'

Pelawak dan pengacara, Nabil Ahmad (**gambar**) mengajak rakan pelawak yang lain supaya sentiasa berhati-hati dalam melakukan sebarang aksi komedi memandangkan ia bersifat subjektif.

Nabil berkata, walaupun golongan pelawak mempunyai hak untuk menggunakan sebarang ilham, namun setiap idea ada implikasi.

"Sebagai pelawak, masing-masing ada pilihan untuk cakap sesuatu dan gunakan apa saju idea dalam melakukan aksi komedi dan ia bersifat subjektif.

"Bahkan, jika mendatangkan kebaikan maka, maknunya ia adalah idea atau kenyataan yang baik.

"Justeru, setiap yang dilakukan atau tuturkan ada implikasinya. Kalau lawak itu menjadi, maka akan jadilah.

"Namun, kalau sebaliknya pasti ada pihak yang akan rasa ia sebagai sesuatu yang salah," katanya.

Mengulas juga mengenai isu pelawak, Ilya Buang yang dikatakan digam oleh Majlis Bandaraya Shah Alam (MBSA) dan tidak dapat membuat persembahan dalam satu program TV baru-baru ini, Nabil berharap ia dapat diselesaikan dengan baik.

"Saya akui, saya sendiri sebagai pelawak pun terkesan dengan insiden itu. Saya mengenali Pak Ya (Ilya) dan saya tahu bahawa dia adalah penghidap diabetes. Dia bekerja untuk menampung kos perubatannya.

"Oleh itu, saya berharap semoga isi ini dipermuadahkan dan dapat diselesaikan dengan baik," katanya.

Nabil yang juga pengacara program MeleTop akan mengacarakan Anugerah MeleTop Era 2020 bersama Jihan Muse.

"Kali ini, saya berganding dengan Jihan. Ini adalah kali pertama rakan pengacara sebelum ini iaitu Neelofa tidak bersama kami.

"Apapun, saya mengharapkan dia (Neelofa) dapat buat kejutan sebagai kemunculan khas di acara itu nanti," katanya.

Get familiar with the term personal mobility devices as they may soon populate city streets in Klang Valley, starting with Shah Alam this month, to enhance connectivity. MUCH has been said and written about our cities' vehicle-choked streets and numerous campaigns to encourage the public to use mass transportation.

But one of the valid complaints from commuters is the particular lack of point-to-point connectivity.

Perhaps this is where personal mobility devices (PMD) can play a role in helping take more vehicles off the road, as PMDs not only help connect that last mile for public transport users but are also handy for short distance commute.

To this end, Urbanice Malaysia is established to look into this aspect of transportation in detail and formulate a framework for PMDs which include e-scooters and even bike-sharing services.

The entity was set up by Housing and Local Government Ministry in June 2016 to implement projects as well as programmes that offer solutions for urban challenges, conduct incubation programmes for smart urban solutions and provide advisory services on urban planning and development.

Its objective is to promote sustainable and climate-responsive urban development through knowledge-sharing, partnership programmes and multi-stakeholder engagements.

Mobility is one of its projects. Previously, Urbanice had helped to facilitate two community hubs as well as organised the World Urban Forum in Kuala Lumpur in 2018.

Rules required

Urbanice will be working with the relevant authorities in drawing up a guideline to regulate the use of personal mobility devices in Malaysia, Urbanice Malaysia chief executive officer Norliza Hashim said.

"We will be organising a workshop in the second quarter of 2020 to address the bigger picture on how active mobility will be for Malaysia, including regulations and usage."

"They include whether PMDs should be used on the left or right side of the road, permitted locations if dedicated bike lanes are not available and travel speed."

"This workshop is primarily targeted at local authorities in Penang, Kuala Lumpur and Shah Alam, Road Transport Department (JPJ), the police and selected existing PMD users, to get their feedback."

The three cities are where PMD vehicles are being used on a trial run.

Norliza said Urbanice would base Malaysia's guidelines on

Singapore's model, as the road traffic rules and cultures of both countries were similar.

"The Singaporean government is very strict on regulations, particularly after several PMD-related accidents last year."

"It is estimated that there are about 300,000 micro-mobility units being used on the streets of Singapore."

"At its peak, there were 17 providers of e-scooter and bike-sharing services in Singapore. Now, only three have been approved to operate in the island republic," she pointed out.

Norliza believes that bicycles and e-scooters offer low-carbon mobility solutions and sustainable alternatives for first- and last-mile commute in cities, in addition to providing savings to local authorities in terms of infrastructure maintenance.

"They offer a way for people to travel within cities, or short distances such as from train station to office," she said.

"The infrastructure maintenance for bicycles and e-scooters is also less than cars, as larger vehicles will cause more wear and tear on roads."

Norliza: "A solution for first- and last-mile commute has to be convenient, accessible and workable."

Trial time

Urbanice Malaysia is working on several pilot projects with Anywheel, one of the active mobility sharing operators from Singapore.

"For the 7th Asia-Pacific Urban Forum held in October 2019 in Penang, Anywheel brought in between 150 and 200 e-scooters for delegates to commute to the convention centre that was the event venue," said Norliza.

"The initial results have not been encouraging as the 1.5km radius test area is too small."

"Before the six-month trial period is up, we are hoping to get Penang Island City Council's permission to expand the test area to get more people to use the e-scooters," she disclosed.

In Kuala Lumpur, Anywheel has provided 20 e-scooters and 10 dockless bicycles that are used by Urbanice staff for short commutes.

The programme will soon be expanded to the Bukit Damansara community.

"The next stage is Shah Alam."

"A dockless bicycle service will be launched in the first quarter of 2020 in Shah Alam's city centre, where many government agencies and commercial buildings are located," said Norliza.

"Shah Alam will be a good test ground as the commercial and residential areas are nearby and there is a strong low-carbon movement by the city council (MBSA)."

Singapore's guidelines for e-scooter riders

- A theory test is required for e-scooter users, prior to being able to ride on public paths.
- All e-scooter owners have to register with the Land Transport Authority (LTA) and have identification stickers pasted prominently on their devices.
- Owners have to ensure that their e-scooter does not exceed 20kg in weight, is not wider than 70cm and adheres to UL2272 fire safety standard.
- The maximum speed limit for e-scooters is 25km/h on shared paths, bike lanes and park connectors.
- e-scooters are not allowed on footpaths, pedestrian-only paths and roads.
- Handphone usage is disallowed when riding an active mobility device on public paths, unless the phone is mounted or used in a hands-free manner.
- Food delivery companies and other businesses that use e-scooter riders have to buy third-party liability insurance for the riders.
- The Active Mobility Act provides a set of rules and code of conduct to enable safer sharing of public paths among various users such as e-scooters and bicycles.
- Those found failing to observe the rules can be fined up to between \$51,000 (RM3,000) and \$55,000 (RM15,000) and/or jailed between three to 12 months, depending on the type and number of offence(s).

She also said that Anywheel might introduce e-scooters and electric bicycles later on.

She highlighted that the collaboration between Urbanice and Anywheel would explore the possibility of creating an ecosystem to expand the service to other cities and towns.

"We cannot scale up active mobility sharing services in Malaysia until there is some form of regulation and awareness campaign," she stressed.

"A solution for first- and last-mile commute has to be convenient, accessible and workable."

"Ideally, we hope that bicycles and e-scooters can share the same road as cars, so that some space can be reclaimed for pedestrians," she added.

Selangor starts

The active mobility project will kick off in Shah Alam with a bike-sharing service in Section 14 this month.

Selangor local government, public transportation and new village development committee chairman Ng Sze Han said the state was working with Anywheel to introduce the

dockless bicycle service in Shah Alam.

"It will start in the city centre as there is an existing bike lane there. The service is aimed at those working or needing to head to government and commercial buildings such as the state Secretariat building, Wisma MBSA, SACC Mall and PKNS Complex."

He said the state government was keen on having active mobility services in Selangor to serve as an alternative mode of transport for first- and last-mile connectivity, which in turn would lessen the use of fuel-based vehicles and lower carbon emissions.

"For example, some of the employees at the state Secretariat will drive out to the nearby shops or malls to pack their meals.

"Providing a mobility sharing service will hopefully encourage them to use bicycles or e-scooters instead," he added.

Ng said the geofencing technology employed by Anywheel for their two-wheeler would address the problems faced by previous bike-sharing services, such as indiscriminate parking and dumping of bicycles.

"Users will be required to park

used on the road or pedestrian walkway.

"And we do not want the situation to turn out like oBike, where in the early stages it was alright but it became a problem for the city later," he said.

The oBike service was an on-demand and dockless bike-sharing platform introduced in 2017.

While it was popular during its introduction period, things fell apart when the problem of uncollected bicycles and complaints of obstruction started cropping up.

DBKL's Enforcement Department had to confiscate oBike bicycles that were abandoned in the city as they obstructed pedestrian walkways and streets.

At the moment, Beam is the only operator for shared e-scooter rental in Kuala Lumpur.

However, Ibrahim said DBKL had sent a letter to Beam to stop its operations until the company received clearance from the relevant agencies.

"We have not allowed Beam to operate in Kuala Lumpur and we have taken enforcement action on e-scooters that are scattered around the city."

"We have confiscated more than 100 e-scooters that obstructed vehicular traffic or pedestrian walkways, because they were an eyesore and caused public inconvenience," he said.

Projection for shared mobility users

The Draft Kuala Lumpur Structure Plan 2040 by Kuala Lumpur City Hall (DBKL) projects that the percentage of shared mobility users in Kuala Lumpur will be as follows. Shared mobility refers to shared transport systems such as public transport, ride-sharing, bike-sharing and scooter-sharing.

	Shared mobility (including public transport)	Private vehicles

2030	60%	40%

the bicycles in designated areas and scan a QR code there to end their ride.

"They will face a penalty if they fail to do so, including additional fees and deducted points," he said and elaborated that enforcement would be jointly handled by the service operator and local council.

"Selangor will take the lead in drawing up guidelines for what can and cannot be done by active mobility service operators in the state."

"However, regulation of e-scooters will come under Transport Ministry or JPJ's jurisdiction, including the maximum speed limit and whether safety equipment is mandatory."

"There is also potential for expanding the active mobility service to other areas in Selangor, such as Bandar Sunway, Puchong Jaya, Ampang Jaya, Subang Jaya and SS2."

"For these areas, e-scooters and bicycles will be used for getting around within a township or running errands, rather than connecting city to city," he said, adding that the expansion could happen by late 2020, depending on the project's success in Shah Alam.

In areas where there were no dedicated bicycle lanes, Ng said the

local councils could consider opening up back alleys for bicycles and e-scooters.

He added that doing so would simultaneously address the issue of riders' safety and cleanliness of back lanes.

KL on hold

Kuala Lumpur City Hall (DBKL) executive director (Socioeconomic Development) Datuk Ibrahim Yusoff said discussions on the use of e-scooters in Kuala Lumpur were still in early stages.

"Our Civil Engineering and Urban Transportation Departments are still analysing with the police the feasibility of using e-scooters in this city."

"E-scooters are still not allowed in Kuala Lumpur because without proper guidelines, they are dangerous when

Anywheel's users have to scan a QR code to unlock the urban mobility devices, such as e-scooters and bicycles, and to end their ride.

Tribute to Toh Puan Uma

SHE was always sought out for her views on the nation's pulse, memories of the past, and the way forward.

Fittingly so.

Toh Puan Uma Sambanthan, who died on Jan 31 aged 90, was much beloved by many and a friend to every Prime Minister in the last six decades.

She was one of the torchbearers when history was made in 1957. On Aug 31, 1957, a young Uma stood with the founding fathers of Malaya – the first Prime Minister, Tunku Abdul Rahman, Tun VT Sambanthan, and Tun Tan Cheng Lok – when independence was declared. In the last 63 years, she never lost her passion for this country.

Uma was a natural storyteller. She talked about a Malaya that we would love to have been a part of, a Malaya where racial harmony came naturally. She had a distinctively precise memory of the nation's history, from its British rule, the Japanese Occupation, Merdeka and other major events like the separation of Singapore and the formation of Malaysia.

And while in conversation she could checkmate any one of us with detailed facts. For instance, she corrected documented history: "Merdeka did not happen at the stroke of midnight, as it has been reported, but a little later. This was because Tunku was delayed by ardent supporters who wanted to bestow him with a title."

Her understanding of the Merdeka event had a depth of multidimensional levels.

"When the Union Jack was lowered and our flag was raised, I thought how ironic it was that our independence ceremony was held in Dataran Merdeka, next to the Selangor Club where ONLY the British were allowed.

"Throughout the event, I was very thrilled that we were finally free to think for ourselves and free to lead our own country with a system that didn't oppress people. Till today, when the national anthem is played, I get nostalgic over being liberated from the colonial regime."

Uma was born in Beruas, Perak. Her father, OM Subramaniam, was a senior officer with the Public Works Department and her mother, Jayalakshmi Swaminathan Sastrigal, was a homemaker. Both were very supportive of Uma's edu-

cation. In 1941, Uma attended the Anglo-Chinese School in Sungai Siput, Perak, where she won the Best Indian Student of the Year scholarship for 1942. However, her education was interrupted by the Japanese Occupation from 1942 to 1945.

After the Occupation, she graduated with a first class BSC degree in Chemistry from the Madras University in India and was awarded a scholarship to study for a Masters degree at the Presidency College in Chennai, India.

On returning home to Muar, Johor, she taught Science at the Princess Alexandra School in Singapore while waiting to continue a postgraduate research degree in Germany. She was applying for a scholarship for which a reference was needed. Sambanthan was Labour Minister in Kuala Lumpur at the time.

"His family and my parents were close friends. My father suggested that I ask him for the reference. That is how I met my husband in February 1956, during the Chinese New Year season.

"He did not give me the reference. Instead, he sent a proposal for marriage. We were married in May, three months later, at our home in Muar.

"From being someone who had been practically married to my chemistry laboratory, I now had to

learn to work with people. Our home was open to MIC members and people from my husband's constituency all the time.

"The women had to be mobilised to play their role in nation-building. My husband emphasised that I should do voluntary work with multiracial women's groups. He gave me great support and guidance in my activities.

"I improved my Malay language skills. In my work, I tried to bridge the gap between the races and the urban and rural divide."

From the last quarter of 1956 till the 1970s, Uma worked with the National Association of Women's Institute, organising proper nutrition and healthcare for kampung babies, reviving local recipes, and on income generation in general.

Uma was also the chairman and director of the National Land Finance Co-operative Society, which was set up by her husband in 1960 to mitigate the fragmentation of foreign-owned plantations and loss of employment then.

Uma spoke fondly of Tunku Abdul Rahman as a leader who truly believed that Malaysia belonged to each and every Malaysian irrespective of race or religion.

"On the 10th anniversary of Merdeka, that is, midnight of Aug 30, 1967, the Merdeka celebration was re-enacted.

"Dataran Merdeka was filled with people of all races in colourful clothes – like a beautiful garden," she recounted.

"The programme went on till late, past 2am, and when it was over, we saw Tunku to his car and left for our home. Early the next morning, we went to Tunku's residence to give our felicitations for the occasion. We were met by his wife, Puan Sharifah Rodziah, affectionately called 'Ma Ungku', smiling her welcome. When Tunku came down and after wishing him, my husband asked him whether he managed to get any rest after such a late night.

"The Tunku replied, 'How to rest, Sambanthan? I saw all those wonderful people gathered there, and came back and prayed for them.'

Like her husband – who died of heart disease in 1979, aged 59 – who was well-known for his interest in educating the people, Uma was also active in the area, organising the infrastructure for the first government girls' school in Jalan Ampang, Kuala Lumpur, and the first government primary school in Selayang Baru, Selangor, using facilities available from the government.

The Sambanthans' daughter, Kunjari, recalls that the principal feature common to both her parents was their commitment to self-improvement.

"My consistent image throughout my life was of them reading – books, magazines, not novels – relating to subjects ranging from science, astronomy, philosophy and the works of great thinkers to spiritual texts from Hinduism, Sufi thoughts, etc."

My memory of Uma will always be of an image of her surrounded by stacks and stacks of books on almost every topic. The last time I saw her in her home, she was reading the Bengali version of the gospel of Paramahansa Ramakrishna.

The passing of Toh Puan Uma Sambanthan marks the end of an era. She leaves behind in the rest of us women a sense of pride that we knew her.

他今日发文告说，若疫情持续很长时间将打击中国经济，我国经济也将受影响，因为中国是我国重要贸易夥伴国。

他说，政府也将采取数项措施，确保国家做好准备应对疫情，以符合世界卫生组织宣布全球公共卫生紧急状态。

预计受疫情影响的领域，包括旅游、航空、运输、教育、制造及建筑业。

去年我国接待近2600万名游客，

超过300万人是中国人，旅游业占生产总值15%，若中国延长企业复工期或增加封城防疫，依赖中国的制造业及建筑业将受影响。

感激各方前線抗疫

阿兹敏说，政府将与国际机构及私人界根据最新信息及情况，采取积极应对措施，以降低疫情对我国经济造成负面影响。

他补充，政府将加强所有人了解防疫所需的卫生措施，并劝请人民

从卫生部等可靠管道获取最新疫情消息。

他也感激各方，尤其是专家、医生、卫生部人员及安全部队在前线努力抗疫，并希望国人健康不受疫情影响。

雪邦市议员兼哥打华丽山居民协商委员会主席颜志辉说，活动吸引了近200居民参与吃便饭唠嗑话家常，同时邀请印度同胞一起同欢共乐，分享和了解“天公诞”的故事。

他指出，该次活动也听取居民意见，特地找了和小时候喜欢吃的“辣死你妈”椰浆饭作为主食；再配上烧猪肉，另许多沙叻与临近居民回忆起儿时的味道。

晨運者垃圾丟湖

清理一趟載滿三四輛車

(班丹2日讯)班丹柏蘭嶺湖邊公園垃圾問題嚴重，清理一趟湖內和公園範圍的垃圾，出动了3、4輛的垃圾車！

安邦再也市议员莫根说，公园最大的问题是卫生，包括垃圾桶不够，许多晨运者都把垃圾丢进湖内。

他说，加上之前由发展商处理垃圾管理时，也没有有效管理卫生问题，包括每日的垃圾清理、打扫等。

“市议会曾在5月，在湖边公园范围展开大扫除，当时，出动了3、4辆的垃圾车，才把湖内和公园范围的垃圾截走，我们甚至也在湖内发现大树本身，还有很多的枯枝。”

要求測試湖水水質

他日前带领《中国报》记者巡视当地的卫生环境时，这麼

指出。莫根说，基于发展商管理不当，在两个月前，市议会接管了公园范围的垃圾管理，交由达鲁益山垃圾管理有限公司（KDEWM）负责每日清理及收取垃圾的工作。

“该公司每天早上都会到公园清理及收取垃圾，包括周末。”

他说，为了确保公园的环境卫生，他要求安邦再也市议会配合环境局到湖边公园测试湖水的水质，有必要时要进行湖水清理工作。

“我计划是在明年第一季度进行，在测验水质的期间，湖边公园不会受到的影响，依旧开放给民众使用。”

■莫根巡视承包商清理公园。

“美化后，我们可以展开一连串活动，邀请居民参与。”

他说，他也计划美化湖边公园，包括种植更多的树木，同时，与其安装街灯，我建议在树木安装灯饰，照亮整个湖边公园，让公园在夜晚也展现得耀眼亮丽。

莫根说，为了解决当地的垃圾问题，市议会置放了许多垃圾桶，鼓励民众不要随地乱丢垃圾，把垃圾丢进垃

▶ 雪政府新春大團拜

雪大臣：盼成領先州 放眼2030年KDNK達30%

(八打灵再也2日讯)雪兰莪州务大臣阿米鲁丁说，雪兰莪目前的国内生产总值(KDNK)为23%，并有望于2030年前为国内生产总值作出30%的贡献，而他也希望雪兰莪能够成为国内居最领先地位的州属，同时提供60%的机会与最高技能的劳动力。

他昨晚在州政府主办的“2020年雪兰莪州新春大团拜”致词时说，雪兰莪州的制造业于2019年1月至9月获得164亿令吉投资，总投资额超过州政府所设下的100亿令吉的目标，从而位居各州之首。

他认为，这经证明雪兰莪州政治与行政的稳定，而州政府对投资者的友好政策及高质量的基础设施，则是吸引投资者选择雪兰莪州为投资目的地的因素之一。

雪兰莪州新春大团拜由雪兰莪州投资、工商及中小型企业事务和雪兰莪投资促进机构联办，协办单位包括获雪兰

阿米鲁丁在致词时也说，雪兰莪州政府的所有计划与措施都已列入2020年财政预算案，这些最全面且具包容性的措施，涵盖实现雪兰莪州于2025年成为最佳精明州以及2030年国家共享繁荣宏愿。他表示，2020年财政预算案将通过司法和改革，在朝著实现雪兰莪州成为最佳精明州的努力，与可持续社会发展之间取得平衡。”(LMY)

■八打灵再也公教中学舞龙队呈献的夜光龙表演，赢得掌声如雷。

雪兰莪州行政议员邓章钦说，新春大团拜自2009年开始主办以来，雪兰莪州政府每年都与民同庆农历新年，这也体现了雪兰莪州子民之间的团结与谅解精神。

他说，各族人民的参与新春大团拜活动，象征著传统、文化、宗教及和谐关系，同时也拉近人民与雪兰莪州领袖之间的关系。

“在雪兰莪州苏丹殿下主导、雪兰莪州务大臣领导下的雪兰莪州政府，一直致力于将雪兰莪州打造成为一个和平繁荣的州属，以落实更好的发展，让子民能够享受更好的生活环境与经济。”

他说，雪兰莪州于2019年仍是我国排名第一的投资目的地，马来

西亚投资发展局公布的统计数据显示，雪兰莪州去年截至9月，成功于9个月内取得164亿令吉的投资，相比2018年同期的83亿令吉，增长近2倍。

“凭借如此高的投资价值，雪兰莪州继续成为来自各种族与文化的熟练技术工人和半熟练技术工人，寻找就业与居住机会的主要目的地。雪兰莪州也意识到来自人文与文化的独特性和多样性，具有自身的人力资本实力。”

邓章钦相信，在各族人民之间的密切联系与坚定的合作精神，雪兰莪州将会更繁荣、安全与稳定，以面对未来的经济挑战。

孤儿入学无执照经营租约届满 慈云关怀之家面临搬迁

（槟城2日讯）大山脚慈云能贤关怀之家面对孤儿入学问题及无执照经营儿童看顾中心等情况，如今该院会所租赁合约租期将在今年7月届满，更面临搬迁问题，已令该院不知所措。

慈云能贤关怀之家院长许彩萍周六受邀出席由惹兰登雅中元理事会庆祝大伯公诞致词时，提起该院所面对的上述问题。

许彩萍：每月开销达2万5000

许彩萍受访时表示，慈云能贤关怀之家成立至今已11年，目前已收留33名年龄介于13岁至20岁的孤儿，其中13名为无国籍孤儿，每月生活开销达2万5000令吉。

“该院曾在2016年被卷入一连串风波，包括没有注册被检举、被控虐待、丈夫被控性侵一名女孩等等风波，导致该院被勒令暂时关闭。”

她说，经过警方及医院检验调查证实无孤儿被虐待或性侵后，该院于2017年获得威省市政厅发出为期3年的临时执照。

她续说，目前该院地段是农业地，还没转换土地用途，如今地主欲收回该院地段，所以该院需另觅他处搬迁。

她指出，该院所收留的是遭到遗弃孤儿，基于有些孤儿是外劳所生，因此有者更是沦为无国籍孤儿。

“虽然我国政府让每位儿童有权接受正规教育，但因为孤儿没有身份证件，导致在申请入学时，没有相关文件而被拒于门外。”

询及该院是否开放让善心人士领养孤儿时，许彩萍表示，该院早前曾让善心人士申请领养孤儿，惟手续过于冗长且费时，导致不少人在申请途中放弃。

出席者包括农业与农基工业部副部长兼峇央峇鲁区国会议员沈志勤及惹兰登雅中元理事会主席陈海生。

沈志勤：向教育部跟进孤儿入学问题

沈志勤获知慈云能贤关怀之家面临各种问题后表示，将向槟州教育局、州政府等各相关部门跟进及了解情况后作出协调。

他解释，慈云能贤关怀之家面临的问题牵涉到很多部门，如孤儿公民权、土地问题、执照问题及孤儿入学等问题，需跟很多部门协调。

他举例，孤儿入学问题将向槟州教育局跟进，若无法解决，将会晤教育部副部长张念群协助解决。至于孤儿福利则会晤妇女及家庭发展部副部长杨巧双。

此外，他也宣布透过国会选区拨款5000令吉予该院作为日常经费。#

回教徒市场倍增 看好清真产品输出

(东京2日讯)在马来西亚清真工业发展机构(HDC)与AcrosX Japan Inc的合作推动下，大马对日本的清真产品出口今年有望录得正面增长。

经济事务部长拿督斯里阿兹敏阿里说，鉴于该地区的友善回教徒市场成倍增长，这合作将让更多日本企业进军清真领域，并以此作为新收入来源。

2 机构合作创商机

“大马清真工业发展机构与AcrosX Japan Inc的合作将为大马中小企业创造新机会，以打入日本清真市场，并探索出口大马清真产品到日本的新市场机会。”

阿兹敏阿里昨日在上述两造签署了解备忘录时这么说。双方同时推介“友善回教徒标准”。大马驻日本大使拿督肯尼迪也见证这签署仪式。

该备忘录将让上述两造通过咨询、能力建设及技术援

助，为两个机构之间的策略合作开发及建立框架，为日本回教徒消费群体创造可持续发展的商业环境。

阿兹敏阿里提到，2018年大马共出口25亿令吉的清真产品到日本，当中90%是清真食品及清真食材，全球清真业在2018年估计达到惊人的3.23兆美元，年增长率预计为7.49%。”

他指对大马企业而言，该了解备忘录是增加双边贸易的宝贵机会，尤其是通过供应全球需求量很大的清真食材与半加工产品。

“这项合作可看作是日本经济发展新领域的开始，借着大马在清真食品的专业知识及日本的工业优势，在这些领域实现强大的协同作用，从而为两国释放新的经济潜力。”

阿兹敏指随着东京将举办2020年夏季奥运会，这合作将让各行业能迎合预计会大量涌入的回教徒。

着重服务业领域

大马清真工业发展机构主席拿督马目阿巴斯说，“友善回教徒标准”将注重在以服务为基础的公司，如酒店、餐馆、旅游景点及医院。

他指该机构与AcrosX将通

过“友善回教徒标准”，进一步加强本地清真生态系统。

“新标准将在日本清真培训部分实施。该培训是日本卫生部、劳动与社会保障单位在清真培训专家委员会发起。”

林福山：政策再好也没用 劳动力不足难吸引外资

（巴生2日讯）大马福联会总会长丹斯里林福山说，我国虽有良好基本面，但是也需要有好的政策配合，其中一个政府应正视及解决的问题是劳动力不足。

“就算国家推出再多的优惠政策吸引外资，但他们却选择到东南亚其他国家，主要原因是因为我国劳力不足造成。”

他今日出席巴生福建会馆2020年庚子年新春大团拜活动致词时，呼吁政府务必仔细研

究劳动力不足的原因，以便找出解决方法，因为这是影响经济发展的其中一个根本因素。

另外，他也赞扬巴生福建会馆选择年初九主办团拜活动，因为年初九拜天公是福建人独有的庆典。

“马来西亚是一个多元文化的熔炉，如今拜天公更发展

为我国华人重要的节日之一，无论是什么籍贯都会参与拜天公。”

他指出，华人农历新年也是我国人普天同庆佳节，尽管各族人民有着不同的背景和文化，但随着时代的进步，在彼此互相宽容、尊重和谅解的基础上，让这种多元的文化得以

延续下去，也让我们孩子的未来明亮。

吁送暖到武汉

林福山呼吁福建乡亲，积极响应福联会已成立的工作小组，捐献物资援助面对武汉新型冠状病毒疫情严重的中国。

他说，有关小组已筹募经费购买物资送往中国，本身率先捐献10万令吉，作为活动发起人，署理总会长陈康益也捐献3万令吉。

“第一批20万个手套将于下周三送去中国，其他社团也有买口罩捐出给中国。”

他也提醒，目前中国肺炎疫情严重，虽然我国确诊病例不多，但必须严加提防。

盼政府更关注经济发展

巴生福建会馆会长苏学民呼吁政府今年应更注重经济发展，推出益民利商政策，让人民在庚子年能更幸福，百业能更兴旺！

他深感荣幸今日活动获副

首相，以及各友族同胞出席，这也代表着政府及全民在拉近各族关系，促进国民和谐的真诚努力。
