RM27,000 untuk 6 masjid, 15 surau dalam DUN Subang Jaya

Michelle (depan, dua dari kiri) pada majlis Penyampaian Sumbangan Ramadan Kepada Masjid-Masjid Dan Surau-Surau Dalam DUN Subang Jaya yang turut dihadiri Ahli Majlis Zon 1, Chia Yew Ken; Ahli Majlis Zon 2, Mohamad Syafiq Mohamad Norizan dan wakil-wakil daripada Zon 3 dan Zon 4.

SUBANG JAYA - Sebanyak RM27,000 telah diperuntukkan kepada enam masjid dan 15 surau di dalam Dewan Undangan Negeri (DUN) Subang Jaya bagi menyambut Ramadan.

ADUN Subang Jaya, Michelle Ng berkata, setiap masjid menerima sebanyak RM2,000, manakala setiap surau pula menerima sumbangan sebanyak RM1,000.

Beliau berkata, tujuan sumbangan itu adalah untuk menyokong usaha masjid-masjid dan surau-surau bagi melaksanakan aktiviti pengimarahannya Ramadan tahun ini.

“Walaupun tahun ini tidak boleh bersama-sama dengan jemaah untuk

membuka puasa, kami masih berbesar hati kerana sekurang-kurangnya dapat berjumpa dan bertanya khabar dengan AJK masjid-masjid dan surau-surau,” katanya di sini pada Ahad.

Beliau turut mengingatkan semua jemaah kekal mematuhi prosedur operasi standard (SOP) ditetapkan bagi membendung penularan Covid-19, sepanjang tempoh berada di masjid dan surau.

“Pejabat saya akan terus berkhidmat untuk semua penduduk Subang Jaya tanpa mengira bangsa atau agama.

“Pejabat saya juga telah menggalakkan AJK masjid dan surau untuk menyertai kami dalam usaha pendaftaran vaksinasi Covid-19,” katanya.

Lauding excellence in business

SOBA 2020 celebrates the spirit of innovation and perseverance

THE nation's leading SMEs prove their mettle as they achieve another milestone to be proud of: recognition as a Star Outstanding Business Awards (SOBA) winner.

In addition to taking home the signature SOBA trophies, winning at the SOBA 2020 Gala Night also marks their entry into the ranks of successful SOBA alumni, some of which have grown by leaps and bounds since their respective wins.

Since its inception in 2010, SOBA has shone the spotlight on more than 300 deserving local non-listed companies that have demonstrated business excellence in their respective industries. Among the number includes organisations that have listed on Bursa Malaysia, such as MyNews Holdings Bhd, Serba Dinamik Bhd and Securemetric Bhd.

For SOBA 2020, emerging as the best of the best within the local non-listed business community were the Malaysian Business of the Year award winners, namely Senheng Electric (KL) Sdn Bhd for the above RM25mil annual turnover tier and Klinik Dr Chong Sdn Bhd for the up to RM25mil annual turnover tier.

Serving as inspiration

Senheng swept away the competition as it secured a total of 10 awards under the tier it was competing in, including platinum for Best in Marketing, Best Brand, Best Employer, Best Innovation, Best Use of Technology and Best in Retail, Best in Customer Service, as well as silver for Best Green Initiative.

Further, its group chairman Lim Kim Heng also won the Par Excellence Achievement under the Male Entrepreneur of the Year category (above RM25mil annual turnover).

It is not the first time the homegrown electronics retail chain has participated in SOBA, as it previously won seven awards under the same tier in SOBA 2018.

"It's not really a big surprise. We were expecting this result. Firstly, we have transformed to be fully digitalised."

"Secondly, we embarked on new business solutions and new retail, which is very different from the old retail. That gave us the confidence coming into SOBA this year."

"Besides introducing the new business solutions, we were also very innovative and many other factors, in terms of using technology," said Lim.

On advice to SMEs, which account for the bulk of Malaysia's employment, Lim stressed that smaller businesses that have yet to embrace technology must take their first steps towards digital transformation.

He cited Senheng's experience over the last 30 years as case in point, as the company has transformed six times since its inception to reach the heights of success it now enjoys.

He added, "We transformed from very traditional retail in one shop to more than 100 shops today. We have embarked on new seamless retail solutions. That makes our business model very different and we hope to inspire other companies to also transform. They must get out of their comfort zone and embark on digital transformation."

Giving back to society

Separately, Klinik Dr Chong Sdn Bhd won five awards in the up to RM25mil annual turnover tier. Aside from the Malaysian Business of the Year, it was awarded gold for Best Brand and Best Use of Technology, as well as silver for Best in Customer Service.

Its founder and director Dr Chong Tze Sheng – who previously won the Par Excellence Achievement award under the Young Entrepreneur of the Year category (up to RM25mil turnover) during SOBA 2019 – emerged as the winner of the Meritorious Achievement award under the Male Entrepreneur of the Year category (up to RM25mil annual turnover) for SOBA 2020.

"This is our second time participating in SOBA. We contested in four categories and we won in all four, and we're also lucky to be awarded the Malaysian Business of the Year for the up to RM25mil tier."

"We are very happy and the whole team is feeling very motivated (because of the) recognition of our company," said Dr Chong, relaying his thanks to his team in contributing to the company's growth.

Noting that as an entrepreneur and as a company in the healthcare sector, both him and eponymous clinic has to work hard to not only gain profit, but also contribute and give back to society.

He further said that for Klinik Dr Chong, the barometer should be measured based on how many patients the clinic has helped and how many customers it has served, instead of just focusing on the numbers and figures of the revenue it generates.

On the clinic's future plans, he said, "We hope can expand to more points in Malaysia and hopefully expand overseas one day."

Transforming with the times

Gracing the Gala Night were International Trade and Industry (MITI) Minister Datuk Seri Azmin Ali, alongside Star Media Group Bhd (SMG) director Datuk Dr Mohd Aminuddin Mohd Rouse, group chief executive officer Alex Yeow, chief content officer Esther Ng and chief business officer Lydia Wang.

Held on March 17 at One World Hotel, Petaling Jaya, the prestigious night was also attended by Digi chief business officer Eugene Teh, PKT Logistics Group Sdn Bhd group chief executive and managing director Datuk Michael Tio, RHB Bank Bhd group business and transaction banking head Jeffrey Ng, Malaysia External Trade Development Corporation (Matrade) CEO Mohd Mustafa Abdul Aziz, as well as Credit Guarantee Corp Malaysia Bhd (CGC) president and CEO Datuk Mohd Zamree Mohd Ishak.

Marking the end of the 2020 awards programme, the Gala Night saw the local business community rise to the occasion to honour the entrepreneurial spirit in support of business excellence – effectively heralding the time to come and firmly closing the door on 2020.

SOBA 2020 is organised by SMG with Digi, PKT Logistics Group and RHB as main sponsors, CGC as co-sponsor and Matrade as official trade promotion partner.

It is endorsed by MITI, supported by Bursa Malaysia and audited by BDO with dimsum, 988 and Suria as official media partners.

Floods at flyover pose safety hazard

MBPJ plans to carry out repair works on Jalan Universiti overpass by June

By SHEILA SRI PRIYA
 sheilasriprya@thestar.com.my

MOTORISTS want Petaling Jaya City Council (MBPJ) to take action to address the long-standing problem of flooding at the Jalan Universiti flyover whenever it rains heavily.

Flooding occurs every time there is a downpour, resulting in major traffic congestion as vehicles are unable to pass safely.

It also poses a safety hazard as vehicles will be trapped in floodwaters here.

During a downpour on April 13, motorist Chick Swee Hong, 59, witnessed two cars that stalled in floodwaters on the flyover.

This worsened traffic congestion along Jalan Universiti during the evening rush hour.

"The left side of the flyover was

flooded, forcing cars to move to the right side, which had less water.

"However, two cars broke down and the owners, who looked very distressed, could not move their vehicles out of the way.

"This forced other motorists to drive through the flooded side of the road. I could only hope that my car would not be trapped in the floodwater.

"We did not have much choice because of the heavy rain and if we did not move, traffic would have come to a standstill," he said, adding that the issue had been highlighted repeatedly by the media.

"This problem has been going on for several years and there seems to be no concrete solution to the matter.

"This flyover is located near two

hospitals and ambulances may be trapped in traffic.

"The authorities must not take this matter lightly," said Chick, who was caught in the congestion for over 30 minutes.

He added that widening the flyover could help address the issue.

MBPJ councillor Thayalan Krishnasamy, when contacted, said he had been urging the city council to address the matter for several years.

He said the council had agreed to call for a tender, so repair works could start by June.

As for the cause of the flooding, Thayalan said the road premix on the flyover had a recess before the drainage manhole, which was confirmed based on a survey by MBPJ.

"The council intends to resurface the road to eliminate the recess and allow excess water to

Flooding at the Jalan Universiti flyover on April 13 resulted in two cars breaking down, causing traffic congestion during the evening rush hour.

enter the existing manhole.

"I understand there is an urgent need to repair the road as it can be dangerous for vehicles that are trapped in the flood.

"In the worst-case scenario, the vehicles trapped at the flyover

could slip off the road when there was heavy water ponding.

"I will continue to keep a close watch on this matter," he said.

The flyover was built to ease traffic during rush hour and opened in 2007.

Tajuk Berita	:	Temple in Sunway set to expand following gazettement
Muka Surat	:	4

By **JADE CHAN**
 jade@thestar.com.my

GUAN Di Temple in Bandar Sunway, Petaling Jaya, hopes to expand its premises and facilities following the gazettement of a plot of land next to it for non-Islamic religious purposes.

"The extra space will allow us to accommodate the growing number of devotees who come to the temple for activities and celebrations," said Persatuan Pengurusan Rumah Berhala Guan Di chairman Koay Teng Koon.

"We hope to merge the new plot of land with the existing site, then raise funds to build a two-storey temple that we estimate will cost RM3mil. "For now, it will be used for storage and parking."

According to the association, Guan Di Temple has a history of over 40 years in Bandar Sunway.

The current temple site occupies 462sq metres.

The additional land, marked as Lot 37559, also measures 462sq m and was previously occupied by a kindergarten.

"Our temple engaged a legal firm to assist in the application for the relevant lot in September 2014.

"The application was rejected at that time because that lot was allocated for educational purposes,"

Temple in Sunway set to expand following gazettement

After a six-year wait, the plot of land (with open gate) next to Guan Di Temple (right) in Bandar Sunway has been gazetted for non-Islamic religious purposes.
 — RAJA FAISAL HISHAN/The Star

Koay says the association hopes to raise funds to build a new two-storey temple.

but the gazettement gave the temple committee the right to maintain and use the land. He said this after handing over the land title to Koay.

Also present were Michelle and Subang MP Wong Chen.

Koay said Guan Di Temple drew devotees from all over the Klang Valley and beyond.

"Before the Covid-19 pandemic, our temple would have over 2,000 visitors for major events.

"We have not organised any celebrations since the pandemic, but the temple remains open for daily prayers with a maximum of 30 people allowed inside the prayer hall at any one time," he said.

said Koay.

"We submitted our appeal in May 2016, which was verbally rejected, and again in March 2017.

"Coincidentally, the Selangor government bureau on non-Islamic religious affairs decided to recate-

gorise the lot as religious reserve land in April 2017.

"In August 2018, we approached Subang Jaya assemblyman Michelle Ng for help and in October 2020, we were informed that the state had gazetted the lot

for non-Islamic religious purposes," he added.

Selangor local government, public transportation and new village development committee chairman Ng Sze Han said the land still belonged to the state government,

By PAUL GABRIEL
 paulnews@thestar.com.my

BRITISH High Commissioner Charles Hay had his work cut out for him when he began his posting to Malaysia on a high note in March 2019.

He made elaborate preparations, even taking up Bahasa Malaysia lessons to better interact with Malaysians.

Hay's promising start was affected by the Covid-19 pandemic last year, but the father of two daughters who was a Captain in the British Army before joining the Foreign and Commonwealth Office in 1993 used his vast experience to make his presence count.

He focused his efforts on helping British businesses navigate the movement control order (MCO) restrictions imposed by the Malaysian government.

"During the first part of the MCO, we had to make a lot of representations on behalf of British businesses that were caught in an inability to manufacture. I met the International Trade and Industry Minister Datuk Seri Azmin Ali and we were able to quite quickly resolve most of the problems," he said.

He cited the example of Synthomer, a British manufacturer of nitrile latex which is used in the production of rubber gloves in Malaysia. "There were some technical issues on whether they were able to continue with their production. Initially, the ministry didn't realise that what they were producing was essential for the rubber glove industry.

"That's an example of where we were able to help. It was quite a lot of what we did during the first half of the pandemic with British businesses," he added in a wide-ranging interview with *StarBiz* at his residence recently. The following are excerpts of the interview.

Can you tell us about the UK's recently-unveiled foreign policy, and its impact on relations with Malaysia?

It's called the Integrated Review, a really groundbreaking piece of work. For the first time, in a very long time, certainly since the Cold War, we have taken a holistic look at all of our overseas activities of foreign policy, defence policy, national crime policy, cyber policy. It's all in the mix.

It's very interesting how it has come out, it's very good for this part of the world. There are strong references to the so-called tilt to the Indo Pacific and references on how this part of the world is extremely important for the UK because of the fast growing economy and opportunities.

The UK having left the European Union wants to be much more active in other parts of the world. And we saw this a year ago when Foreign Secretary Dominic Raab came here. He's very keen to come back. He has forged a good relationship with minister Datuk Seri Hishammuddin Hussein, they've been speaking to each other. I very much hope that we will see some ministerial visits once things start to ease up with the vaccine.

How is our Covid-19 related partnership and vaccine diplomacy coming along?

In September last year, the UK provided

Vaccine diplomacy at work

British envoy Charles Hay speaks on path forward for the United Kingdom and Malaysia

"I expect to see more British companies considering Malaysia as a destination for manufacturing or regional hub operations."

Charles Hay

vital support to vulnerable global communities impacted by Covid-19, investing £7.2mil (RM41.10mil) in 20 new research projects around the world. Three projects were awarded under this programme in Malaysia. The first, under the UK Global Challenges Research Fund/Newton Fund Agile Response Call. This is part of a regional study on Covid-19 enterprise resilience.

The Malaysian government's priorities lie in easing cashflow, catalysing people-centric economic growth and promoting quality investment in its bid to regenerate the economy post-Covid. We funded a study to ascertain how local businesses mitigate their risks will help policy-makers make better informed decisions on where to focus their economic stimulus planning strategy.

The project will run till April 2022. And two projects under the UK's International Programme Fund - with Ideas to promote SMEs economic resilience in Malaysia's Covid-19 Recovery Strategy.

The other was with Westminster Foundation for Democracy (WFD) to promote a more gender-sensitive policy and legislative responses in the wake of the Covid-19 pandemic. On vaccines, Malaysia is part of the purchases of AstraZeneca, which is a private company based in the UK with strong technical and innovative links with the UK government.

There are a large number of Malaysians studying and working in the UK. How many of them have been vaccinated so far?

All the vaccinations are being done by GPs so I'm not even sure they collect data by nationality of people vaccinated. It is difficult to check by nationality. But all Malaysians in the UK who fall into this category are entitled to the vaccine.

About 32 million people including Malaysians living in the UK have been vaccinated so far based on their age group. But students are unlikely to have had any vaccine yet because they tend to be younger, unless they have got underlying health conditions which will push them up the vaccine chart.

Education remains a key pillar in our ties. How are Malaysian students doing in the UK? We used to have at least 20,000 there.

It's down a bit. The latest figure is about 14,000. I guess that's what you'd expect given the Covid-19 pandemic. And given the fact that almost all universities at the moment are operating offline, virtually, to a greater or lesser extent. And the universities have been doing their best trying to make life as good as it can be for the students.

From organising some physical events where possible to finding innovative ways of working online and using tech, they have done what they can to mitigate it. There are some innovative examples of high-quality online learning being delivered by institutions across the UK.

Some universities have created virtual ward rounds with virtual patients to mimic clinical decision making for their medical students, while others have developed new ways for students to conduct fieldwork, using hi-res photos, Google Earth and drone-scans.

On travel restrictions to the UK, when do you think normality will return?

PM Boris Johnson has set out an outline plan for opening up the UK and he has given some indicative dates, and I think the indicative date he gave for the possibility of overseas travel was the middle of May - May 17. It's not confirmed yet, but I'm hoping that if all goes to plan, then come May the possibilities of travel in and out of the UK will open up again.

What will the criteria be, in terms of the approved country list?

That will depend on an assessment done by health experts in the UK government, they're constantly crunching the data that they are getting from different countries. And depending on the situation and on the appearance of new variants. Of course, we've had the South African variant, which was particularly worrisome.

Countries will go on and come off the so-called red list. For example recently, there were some new countries put on the red list, including Qatar.

That means that some people travelling from Malaysia to UK, if they've gone by Qatar, they will have to go into enforced quarantine.

We are still in a situation where people travelling from Malaysia to the UK have to quarantine, but they can do it in a hotel or in their own home.

Or if you're renting a house or if staying with friends, you can do it there. But only if you are not coming from one of the red countries. Malaysia is classified as green, so standard precautions are planned.

On the impact on bilateral trade, how are our businesses coping with the pandemic?

All things considered, bilateral trade was affected but the numbers are not too bad. Total trade in goods and services (exports plus imports) between the UK and Malaysia was £4.7bil in the four quarters to the end of Q3 of 2020, a decrease of 5.2% or £253mil from the four quarters to the end of Q3 of 2019.

What does the future hold for trade and foreign investment between the UK and Malaysia?

It will focus largely on keeping supply chains open and removing barriers to trade and investment. The Joint Committee on Bilateral Trade & Investment Cooperation will provide a framework for the UK and Malaysia to work together at the government level to create the right conditions for our companies to trade with each other.

From my own engagement with business, I understand that despite the unprecedented challenges they have faced during the pandemic, they are taking a long-term view and pressing ahead with their plans.

As British companies act on lessons learned from Covid-19 and diversify their supply chains, I expect to see more of them considering Malaysia as a destination for manufacturing or regional hub operations, particularly those that support digitisation of the country's economy.

In the reverse direction, I know that the Malaysia External Trade Development Corp is working hard to help Malaysian exporters access new opportunities post-Covid.

And in the same way that British companies operating in Malaysia take the long term view, Malaysian companies continue to seek new investment opportunities in the UK, citing the underlying strength of our economy and a favourable business environment as the reasons behind their decision.

Library in community garden

Parties work together to provide facility for residents of Taman Keramat flats

By **FARID WAHAB**
 faridwahab@thestar.com.my

LIVING in densely populated flats with limited public spaces can be difficult for children.

The local community can play a role by creating a safe area where they can socialise, and also act as a hub for learning.

A group of volunteers at a community garden set up at AU2 flats in Taman Keramat, Selangor did exactly that.

Head of the group, Halim

Mohamad Saad said they collaborated with UCSI University, which received a RM8,000 grant from the Starfish Foundation, to build a small library in the community garden for the children.

Working hand in hand with 25 students and eight lecturers from the university from Nov 23 last year, the 644sq ft library was completed on Dec 19.

"Thankfully, many parties, including Ampang Jaya Municipal Council, (MPAJ), non-governmental organisation Global Environment Centre,

Amirudin (second from left) cutting a ribbon to launch the library while looking on are (from left) Saari, Halim, Mohd Fauzi and Shukri.

private companies, local assemblymen and community members also contributed to the project," said Halim.

He highlighted that local bookstores also gave 1,000 books suitable for children and adults.

He revealed that plans were afoot to conduct free Mathematics and English tuition classes at the library, which cost RM26,000 to set up.

Rumah Pangsau AU2, more popu-

larly known as Flat Colombia among locals, occupies 3.8ha of land.

Housing over 2,300 residents, it comprises 18 blocks with 688 units measuring 470sq ft each.

Selangor Menteri Besar Datuk Seri Amirudin Shari, who launched the library, said it was a positive effort towards improving residents' quality of life.

"Libraries can play multiple roles in a community, such as a

venue to socialise and hold discussions, which are important to residents.

"The state government welcomes such efforts to create a sustainable and wholesome living environment," he said, urging residents to take good care of the new facility.

Accompanying Amirudin were MPAJ president Mohd Fauzi Mohd Yatim, Hulu Kelang assemblyman Saari Sungib and Gombak district officer Shukri Mohd Hamin.

Tajuk Berita	:	Ecrl route set to accelerate property value
Muka Surat	:	1

ECRL route set to accelerate property value

by S BIRRUNTHA

PRICES for property near the East Coast Rail Link (ECRL) Northern Alignment route are expected to increase rapidly with the booming demand for transportation infrastructure and better connectivity.

Centre for Market Education fellow and Bait Al Amanah economist Fariq Sazuki said with the latest ECRL realignment, industrial towns like Serendah and Kapar in Selangor may see a rapid increase in property value.

He said owners of logistics and industrial property such as warehouses and factory buildings will benefit from this project.

Fariq added that residential property in Selangor will also see a fast rise in value as a by-product of the infrastructure project. "The areas nearby ECRL stations, namely Kapar, Puncak Alam, Gombak (in Selangor), and even Bentong (in Pahang) may blossom to become highly demanded residential regions for those working in Port Klang and industrial areas in Selangor.

"It should be noted that property values in Selangor may rise even without the ECRL, but since it will cater to cargo freights, property values in industrial regions are expected to rise dramatically," he told *The Malaysian Reserve* (TMR).

Additionally, Fariq said the ECRL may steer away demand for housing from the Klang Valley towards other areas along the route, such as Kuantan and Temerloh in Pahang, because of the better connection to Selangor.

He said due to higher costs of living in the Klang Valley, a "living in Kuantan, working in Kuala Lumpur (KL)" phenomenon is possible in the future.

Therefore, Fariq said demand for rental houses in areas nearby ECRL stations will rise as well.

However, in terms of development for investment, Fariq concurred with Selangor Menteri Besar Datuk Seri Amirudin Shari's opinion that the Southern Alignment could have created new high-value regions, such as in Jekebu and Kuala Kelawang, Negri Sembilan.

ECRL route set to accelerate property value

FROM PT

"The ECRL could have increased the property prices significantly in those areas, while attracting developers.

"Hence, property owners on the Southern Alignment are losing from the recent ECRL update. Although their property prices are still rising, it is at a much slower pace," he added.

Apart from the property sector, Fariq said regardless of which alignment is agreed upon, among the biggest beneficiaries of the ECRL development are the logistics and transportation sectors due to its port connectivity.

Meanwhile, in terms of passenger transportation, he noted that the ECRL will be an important medium for people traversing the Klang Valley, Pahang, Terengganu and Kelantan, as it will be an alternative to the increase in traffic between the Klang Valley and the East Coast, limited highway access (especially for Kelantan) and low number of flights available (especially for Terengganu).

On a larger picture, Fariq said China is expected to be a main beneficiary, as it

aims to pursue the Belt and Road Initiative through ECRL, bypassing Singapore in the trade path.

"The ECRL development will also create a huge spillover effect, benefitting other industries related to the project, for example, the construction sector due to rising property markets nearby the ECRL stations and paths.

"Higher demand for housing and higher property values will attract developers to build residential buildings," he added.

Overall, Fariq said Selangor will benefit the most from the latest realignment because there is better connectivity within the state.

He also noted that a dense state like Selangor will always have a demand for transportation due to a rapid growth of the manufacturing and services sectors.

Besides that, he said the state can decentralise the over-concentrated economic centre by moving developments away into areas like Puncak Alam and Kapar.

Meanwhile, CCO & Associates (KL) Sdn Bhd director Chan Wai Seen also agreed that the ECRL will benefit property owners around the stations, as there is currently no train

connectivity along the Northern Alignment.

He said naturally, increases in demand and property prices are expected.

"However, I personally think that the sustainability of the prices will depend greatly on the efficiency of the ECRL after completion.

"When you look at the impact of KTM ETS (Keretapi Tanah Melayu electric train service) services, it does not really create a significant impact on the local property market," he told TMR.

Chan added that it has been envisaged that ECRL would cater mainly to cargo movement as opposed to travellers due to its connectivity to ports like Kuantan Port and Port Klang.

He suggested for the government to focus on creating more industrial developments around ECRL while ensuring the stations are well equipped to support industrial developments.

"Industrial developments will encourage population growth, increase income of the local residents and eventually stimulate the demand for local property," he said.

Selangor to step up digital adoption with Amazon, TM partnership

TM and SSDU agree to upgrade the speed connectivity up to 3Gbps linked to the state data centre

by AFIQAZIZ

SELANGOR is leveraging the disruption caused by Covid-19 crisis to accelerate digitalisation agenda amid the high demand of online operations since January last year.

Smart Selangor Delivery Unit (SSDU) MD Dr Fahmi Ngah said as a start, Selangor has already invested and cooperated with Telekom Malaysia Bhd (TM) to provide the state government with a higher Internet speed connectivity for the state agencies.

Known as Smart Selangor Gigabit Network (SeGNet), TM and SSDU have agreed to upgrade the speed connectivity up to 3Gbps, which will enable public sectors in Selangor to have seamless data processes connected to the state data centre.

The initiative, named Smart Digital Infrastructure (SDI), has four of 12 local councils subscribed to the facility so far.

Besides faster connectivity, TM will also facilitate a localised Smart Selangor Hybrid Cloud Data Centre (SSDC) with Tier-4 ready data storage facility for the state, Fahmi unveiled in his presentation about SDI last Friday.

"This is in line with the MyDigital (Malaysia Digital Economy Blueprint) plan agenda by the

To achieve the smart state agenda, Amirudin says the state govt is expected to disburse all of RM369m allocation from Smart Selangor programmes earlier than scheduled

federal government which targets 80% of cloud computing services in government agencies by 2022.

"If there is one state which is ready to achieve this, it will be Selangor," Fahmi added.

The MyDigital initiative, announced in February, is also aiming for the digital economy to contribute 22.6% to GDP and provide 500,000 jobs in the related market.

Fahmi said the agency will still have to convince other local councils, as well as other agencies to invest in the initiative.

SSDU was tasked to make Selangor the smart state in the region by 2025, per blueprint that was set in 2016.

He also said some adjustment

was made to the master plan to make sure the "smart" term used by the state will always reflect the needs of the citizens.

From a total of 12 domains in the earlier plan, he said SSDU has shifted its focus to only four domains — Smart Government, Smart Economy, Smart Community and SDI.

Among others, SSDU plans to open as much collected data as possible in the state for its residence by 2025, to prove the level of reliability and transparency of the system that can be enjoyed by the citizens through the Internet of Things.

For instance, the waste management data daily collected and managed by the SSDU command centre will be useful information

to check and keep tab the service levels provided by the waste collector.

As of now, all garbage trucks in the state are being monitored by the command centre via live GPS installed in the lorry collector.

Selangor Menteri Besar Datuk Seri Amirudin Shari said once the data sharing plan becomes live, it will make Selangor a smart state in Asean and empower its people, businesses and the public sector via the optimisation of digital technologies.

He said this justifies the need of SDI initiative which ensures good infrastructure, applications and systems are in place to reach the 2025 goals.

"The application of these SDI infrastructures into government operations can ensure faster delivery of citizen services, operations and also realise more possibilities of technology co-development between SSDU and technology giants both local and international," he said in his keynote address when launching the SDI infrastructure in Shah Alam, Selangor last Friday.

Besides the fast Internet speed through SeGNet and the SSDC cloud data centre provided by TM, Selangor also hired global cloud computing tech provider Amazon Web Services Malaysia Sdn Bhd (AWS) to manage the SSDC facility via AWS outposts — a fully managed services platform by Amazon.com Inc.

Fortune 500 firm based in California, NetApp Inc, will provide a

peer technology on the AWS Outposts in Malaysia to enable state entities to relocate their servers into SSDC and have full access to the cloud computing services run locally on AWS Outposts.

Amirudin also said the state will continue to explore all aspects of digital features provided by global firms in the world, including to leverage the growing interest of cryptocurrency and its underlying technology, blockchain.

"That is the future, some of our initiatives like Selangor Advance try to understand and get the framework of the cryptocurrency and (its systems) in some of our features like Citizen E-Payment and e-wallets.

"We have to move forward in blockchain technology, that is the future. There is a need for that, so that we get fast results and transparent management and governance. We will explore but not necessarily now (for implementation), but of course we need to explore to fulfil the whole ecosystem of the smart state," he said.

To achieve the smart state agenda, Amirudin said the state government is expected to disburse all of RM369 million allocation from Smart Selangor programmes earlier than scheduled.

The state had earlier committed to make the sum investment only by 2025.

"We saw the need after the disruption caused by the Covid-19 pandemic, so the state decided to accelerate the digitalisation agenda earlier than scheduled," he added.

抗議巫裔地區建新華小 巫統黨員和平請願

(蒲种18日讯)一批巫统的党员及支持者今早聚集在朱运兴华小的校地外,展开和平请愿,抗议该以巫裔占多的地区兴建新华小。

巫统梳邦区会主席阿曼阿兹哈今早率领一批党员及支持者,在位於蒲种金銮镇第5区的朱运兴华小校地外展开和平愿,不满该区兴建华小,并表达要求兴建国小,

以迎合各族群。

阿曼阿兹哈在会指出,有关地点之前被列为国小保留地,而该区一带以巫裔居民为主,因此希望州政府能聆听民意,兴建国小。

“我们并非要反对(华文)教育,但要的是公平教育。”

上月中,雪州行政议员黄思汉宣布,蒲种金銮镇第5区的朱运兴华小已获梳邦再也市政厅发出建校发展准证,预计2023年新学年开始招收学生。

■拉橫幅抗議興建華小,並表達要求興建国小以迎合各族群。(取自网络)

雪州行政议员兼金銮区州议员黄思汉接受本报电访时,斥责这是政治手段,刻意将华小课题政治化,并强调教育与政治不能挂钩。

他说,朱运兴华小由教育部及梳邦再也市政厅批准兴建,这是一所政府承认的华小,巫

黃思漢：政治化華小課題

统在进行纠察行动前,应该先向教育部查询。

他指出,根据教育部的报告,就读华小的非华裔生高达20%,显然华小符合我国各族

需求。

他说,蒲种区华小的非华裔生比例更高,金銮镇区内没有华小,最邻近的沙登岭华小因学生人数过多,经常造成学校

路段交通堵塞。

“一旦朱运兴华小建竣启用後,将有助於分散周围地区华小的学生人数,并解决学校爆满及交通问题。”

他劝请巫统不需要搞政治手段,且巫统的盟友马华也务必提醒,不要拿华小来开刀。

電房爆炸

(加影18日讯)加影沙再也花园B座组屋3楼的电房于5天前发生爆炸后,造成该楼层20个单位的住户连日面对断电断水之苦。

据了解,4月14日(星期三)下午5时左右,该地区闪电交加,下起狂风暴雨,3楼的电房遭“雷劈”后发生爆炸。随后,3楼走廊和住家单位即受断电影响,由于水源是通过水泵抽上高楼,连带的水供也中断。

为度过无水电供应的日子,部分居民冒险从楼下或楼上单位驳电到3楼住家,以解燃眉之急。

沙再也花园共有5座组屋,该处的组屋已有37年历史;惟去年11月开始已无联合管理机构(JMB)管理。

加影州议员许来贤接获投诉后,今日到场了解并拨款抢修,抢修工作将于今午进行,费用约为五六千令吉。

沙再也花园B座组屋3楼的电房早前发生爆炸后,导致组屋3楼断电断水。

20戶斷水電

加影亞沙再也花園B座組屋

許來賢：組屋民投訴現裂縫
 许来贤说,上述组屋已无联合管理机构管理,居民在事发后向他求救,而他给予援助。他说,居民面对断电之苦的同时,也面对断水问题,水源是通过水泵抽上去,没电源供应,水供也中断。“目前是斋戒月,居民要早起准备食物,突发生上述事故,居民难以适从。”

他指出,除了住家,3楼走廊也是没电供,入夜以后,整层漆黑一片。他表示,居民也投诉水槽出现水流倒溢、粪水溢出和建筑物结构出现裂缝等问题。

沒委任新管理公司
 许来贤说,该组屋早前是由居民管理维修工作,后来由加影市议会建筑物专员(COB)委任的公司管理,每月的管理费是44令吉。“不过,去年11月,管理工作就停止,至今也没委任新的管理公司,地方政府的建筑物专员是由房屋及地方政府部管理。”他表示,在发展洪流下,类似5层楼设备简陋的组屋已不符合现代的发展需求。他说,雪州政府推出的“我的雪兰莪房屋”计划都是3房2厕,设备较完善。

從其他樓層駁電借水

阿来甫(23歲,居民)

“断水断电后,居民唯有从其他楼层驳电,虽然这是很危险的做法,但居民也是迫于无奈。过去5天,我们都是无水电供应的环境下生活,入夜以后,3楼走廊和单位陷入漆黑中。”

断水后,我们也是向楼上或楼下单位借水,扛水到住家也很费力。”

居民向许来贤申訴断水断电之苦况。

焦點社區

巴生百家利

非法小販中心嚴重污染環境 沒裝濾油器罪加一等

報道 ▶ 張淑媚

(巴生17日訊) 巴生百家利被揭有一間非法搭建的熟食中心已營業一段時日，而且還沒在店內安裝濾油器，而是直接將油倒入溝渠內，導致當地溝渠阻塞，發出陣陣惡臭，嚴重影響周圍環境衛生！

對此，巴生市議會已對該名業者下令，要求對方在2週內到市議會按照程序申請熟食中心營業執照，確保在合法的情況下營業；還有，業者也要馬上在熟食店內安裝濾油器，否則市議會將帶隊採取行動，拆除該非法小販中心，以免不環保的陋習繼續污染該區的環境衛生。

巡視民生問題。

劉貴城（左二）在巴生百家利一帶。

百家利某熟食中心業者和小販被揭沒安裝濾油器，直接將油倒入溝渠內，造成環境污染及溝渠阻塞。

非法搭建的熟食中心，在百家利已營業一段時日。

劉貴城

非法小販中心是溝塞“禍首”

負責百家利民生問題的市議員劉貴城向《大都會》社區報記者指出，他日前接獲當地民眾投訴，指百家利一帶的溝渠阻塞，于是他在市議會相關小組的陪同下，到該區進行視察，豈料揭“罪魁禍首”是一間沒有執照的熟食中心，不斷地將用過的食油倒入溝渠內。

他表示，對方在沒有向市議會申請執照的情況下，偷偷開店將檔口出租給小販。這種舉止是不對的；惟最讓人氣憤的是，業者也沒在店內安裝濾油器，真是罪加一等。該名業者的行為，已抵觸1974年道路、溝渠及建築物法令（133號法令）。

安裝濾油器是熟食業基本條件

劉貴城說，一般上，只要是經營小販中心的業者或小販，都必須在檔口安裝濾油器或隔油網，以過濾使用過的食用油，分解油積；若沒有這種“保護膜”，油污將會造成環境污染、溝渠阻塞等。

他表示，普通常識，人人都懂要經營生意就得向地方政府申請執照；凡非法搭建的建築物，一旦被市議會發現也是會立刻下令拆除的，因此勿以身試法。

与此同时，他也促請，所有熟食中心或檔口業者，無論如何都要安裝濾油器，這是當熟食業者的最基本入門條件，以保持環境衛生，勿為了節省一丁點的開銷，而鋌而走險地對市議會的懲罰，得不償失。

網售 靈市廳設二手物交易網站 舊物 宣導環保

報道 ▶ 蘇俐嬋

(八打灵再也17日讯)八打灵再也市政厅设立“ecoReloved”二手物交易网站,在线售卖的二手物种类包罗万象,其中具有收藏价值的旧款相机、打字机、有线电话等古董物,最低只售50令吉!

“ecoReloved”二手物交易网站主要售卖的二手物品,都是民众上门送到SS8生态资源回收广场,或者由市政厅在各节庆前的大扫除活动所收集而来,包括服饰、家庭用品、乐器、家具、电器、脚踏车、甚至具有收藏价值的古董物。

许多旧物经过修理或翻新后,显得焕然一新,等待新主人带回家!

李立賢：“ecoReloved”二手物交易网站旨在提倡旧物回收、物尽其用的概念,让这些二手物品延长生命价值。

李立賢：提倡舊物回收

八打灵再也市政厅固体废物管理及公共清洁组主任李立贤指出,此二手物交易网站主要是提倡旧物回收、物尽其用的概念,让这些旧物延长生命价值。

李立贤表示,市政厅每年都会通过市民的大扫除活动,收集到许多仍可使用,甚至完好无缺的旧物,部分物品虽然陈旧,但经过修理或翻新,依然可以延长旧物的生命。

因此市政厅今年开始设立二手物交易网站 (<https://ecorelived.mbpj.gov.my>),把这些收集而来的旧物,通过线上售卖。

“市政厅是根据不同的节日收集大

扫除的旧物,例如华人农历新年前、开斋节之前。5月中就是开斋节,所以我们3月、4月就开始收集民众大扫除后所送出的旧物。”

回收广场料6月重开

李立贤接受《大都会》社区报记者采访时说,灵市政厅位于SS8/7路的生态资源回收广场目前因进行电线提升工程,因此现阶段没有对外开放,但民众依然可以把回收物送到该中心。

他披露,SS8资源回收广场预计今年6月份重新开放,届时将会现场摆卖二手物品,同时达到线上线下进行二手物交易的目标。

车开进来，挡住洞口。一些小贩表示，在摆摊时，就将自己的面包车开进来，挡住了洞口。

沙亚南太子园夜市客源多为华裔和外籍劳工。

僅前端有看守 民眾隨意出入

焦點社區

沙亞南太子園

報道 張淑媚

(巴生17日讯) 冠病疫情反复，沙亚南太子园夜市被指防疫现“漏洞”，出入口未落实严格管制之外，夜市的中间部分也没把关，任人随意进出，防疫人力分配不足，让人担心形成防疫的一道缺口。

马华哥打拉惹区会妇女组管理主席柯素春向《大都會》社区记者揭露，该夜市的防疫措施存有漏洞和不足之处。其一，该夜市仅有前端路口有警员看守，其他地方都没人看管，导致民众可随意穿梭在夜市的各个缝隙自由出入，甚至有人没到入口处登记My Sejahtera签到，无形中让小贩和其他遵守防疫SOP三部曲的民众，暴露在染疫的危险之中。

选购物品应戴手套

“其二，消费者在摊位上还能自己挑选物品，一件件物品摸来摸去，很不卫生。因此，我促请民众逛夜市选购物品时，最好戴上手套，保护自己。毕竟，夜市人车来往，不懂谁是带菌者，十分危险。”

她表示，如今疫情又变严重了，每日确诊数目再度上升；这边厢夜市防疫措施却做得不足，稍有不慎，随时爆发夜市感染群。

“夜市小贩好不容易苦尽甘来，可以开档营业维持生计，民众也渐渐地恢复以往生活，逛夜市采购物品；若因防疫做得不足而连累小贩没得开档，就真的太冤枉了。”

夜市防疫現“漏洞”

柯素春：希望沙亚南市政厅能关注沙亚南太子园夜市防疫措施问题。

人群從各縫隙出入

记者在柯素春带领下，走访沙亚南25区太子园夜市，从前端走至尾端，一路上随处可见人群从旁边洞口钻进来也没扫描My Sejahtera登记，让人傻眼。记者也观察到，顾客习惯性地拿物品端详，几次拿起又放下，有欠卫生。柯素春呼吁，沙亚南市政厅一定要严格看顾该区夜市，以保护大家的安全。

柯素春：应围起警戒线

她补充，驻守警员也要提高警惕，确保每个人进入夜市前，都要测量体温、使用消毒手套及扫描二维码签到。她建议，地方政府可将该夜市以警戒线围起来，防止有人从旁边随意进出。

3名印裔人士透过夜市中间“缝隙”进来夜市采购。

由于夜市中端部分有许多“缝隙”，民众可随意进出，无需经过前端有警员看守处，形成防疫漏洞。

小販 障礙物堵洞口防人進入

此外，受访小贩则表示，该夜市共有逾百个档口，以目前防疫措施而言，或是不足，只能自己做好防疫。

有些顾客不从夜市前端进来，而是从旁边缝隙穿入；为阻止他们从旁进来，我们在摆档时，也将障碍物堵在洞口，比如用面包车档住等。他们说，从缝隙进来的人，就是没测温和签到的，相当危险。

“来光顾夜市的都是华裔及外籍人士较多，从下午5时就开始营业至晚上9或10时。”

江世榮 小販應自律做好防疫

针对此事，沙亚南议员江世荣表示，他确有听闻该夜市防疫措施不够严谨，因此他也呼吁小贩要有警觉性及自律，做好防疫措施，监督好自己的档口。

对于斋戒月市集防疫措施，他也说，斋戒月市集并不全是市政厅所管辖的，有些是由警方及卫生部（KKM）共同监督，因为他们可以援引相关法令对付违法小贩，包括开罚单惩罚；地方政府暂时没设援引相关法令执法。

巴生市會突檢80工廠 通通防疫不達標!

(巴生17日讯)巴生市议会执法队突击检查区内80间工厂，结果发现全数防疫不达标!

据知，上述工厂中，有70间接获警告信；另外10间则被勒令立刻关闭。

市议会于1月1日至3月31日之间，联合其他政府单位突击检查这80间的工厂和1459间商业单位，岂知80间工厂基本上都不符合防疫指南；但所幸商业单位的情况还令人满意，当中91%单位都符合标准。

巴生市议会过去3个月突击检查区内80间工厂，结果70间接获警告信；另10间被勒令关闭。

商業單位防疫措施做得較好

巴生市议员兼卫生小组委员李富豪指出，10间被勒令关闭的工厂，都是在1988年传染病预防及控制法令（第342条文）下被对付，分别于1月关闭6间、2月3间及3月1间。

他说，无论是商业单位或工厂都得做好防疫工作，否则只要出现纰漏，就会被执法单位开出警告信，尤其工厂。

“工厂内最常发生的就是员工没保持人身距离、没扫描二维码或在登记簿签到、员工宿舍防疫差和员工未接受冠病筛检等。”

他说，比起工厂情况，商业单位防疫措施比较让人满意，只有9%单位无法达标，其中7间被勒令关闭、1间被开罚单、131间被充公物品，以及122间被发出警告信。

员工宿舍最容易散播冠病病毒，所以一直都是巴生市议会所关注的地方之一。

李富豪：將推行POIS阻斷傳播鏈

李富豪也指出，随着雪州政府推行“预防和早期发现热点的爆发措施”（简称POIS）后，巴生市议会和巴生县卫生局亦会一起推行此项计划，以阻断冠病传播链。

“在检查过程中，执法人员也将着重各项风险评估，如职场与宿舍的冠病传播风险、员工自我控制的实践能力，以及公司面对员工染疫后所采取的应对程序等。”

他指出，为了更有效地推行上述措施，市议会将为管辖区内的厂商业者办3次说明会。

工厂内的餐厅桌位，必须保持人身距离，以免过分群聚而引发感染群。

(八打灵再也17日讯) 管得了外面, 管不到里面?

灵市圣淘沙17/27路巴刹自我国于2020年落实行管令以来, 一直都有遵照国家安全理事会及卫生部发布的防疫标准作业程序去执行, 小贩及民众也都有乖乖遵守, 让该巴刹不曾传出冠病确诊病例。

虽然如此, 部分民众认为, 大部分公共场所, 包括灵市圣淘沙17/27路巴刹都只是出入口有严格执行防疫标准作业程序, 但走入里面却发现许多人没有保持人身距离。

随着政府早前逐步放宽防疫标准作业程序, 在过去数周, 国内陆续爆发感染群, 近日的确诊数据也在飙升, 尤其近来国内许多大大小小的斋戒月市集也出现大量人潮, 让许多人担心会加剧疫情, 呼吁政府重新检讨收紧标准作业程序。

民众已习惯遵守SOP

《大都會》社区报记者今早走访灵市圣淘沙17/27路巴刹, 发现该巴刹一如既往, 灵市17/27路巴刹小贩公会安排人手驻守在出入口, 严格监督民众必须戴上口罩、扫描MySejahtera、测量体温后, 才可进入巴刹范围内。

记者也发现, 经过一年的时间, 民众早已习惯遵守防疫标准作业程序, 即便无人提醒, 在采购的时候, 民众也会不自觉地与他人保持人身距离。

受访小贩表示, 该巴刹的小贩及民众都有遵守标准作业程序, 只是偶尔会有些民众“不听话”, 大约占了5%。但在小贩的规劝下, 那些民众也会乖乖遵守, 因此该巴刹并未面对执行防疫措施的问题。

民众吁重新检讨收紧SOP

灵市圣淘沙17/27路巴刹每日都会安排一名小贩及志愿警卫驻守在出入口, 监督民众遵守标准作业程序。

巴刹嚴格執行SOP

任雪梅 (56歲, 小販)

“灵市圣淘沙17/27路巴刹一直都严格执行标准作业程序, 民众也都遵守, 只有约5%民众不合作, 但只要经过劝说, 并告知不遵守标准作业程序的严重性, 他们也会乖乖听话。一些民众很抗拒在测温机器前测量额头的温度, 担心经常这么做会危害健康, 但他们却可接受我们使用测温枪为他们量体温。无论如何, 只要他们能够接受测量额头的体温, 不管使用什么器材, 我们也会尽量配合。”

大部分民众都很自律

劉俊富 (靈市17/27路巴刹小販公會主席)

“政府放宽防疫标准作业程序后, 斋戒月市集也出现大量人潮, 甚至冠病确诊病例也不断在飙升, 让大家都很担心。在政府放宽标准作业程序及斋戒月开始前, 小贩公会曾向八打灵再也市政厅要求让所有档口恢复每日营业, 但当局所提出的条件太严苛, 包括限制进入巴刹的人数与时间, 每个档口之间都需要置放分隔板等等, 因此我们也放弃了。”

然我们也曾想要稍稍放松一些标准作业程序, 但是在冠病确诊病例不断增加后, 我们就打消了这个念头。

在政府放宽标准作业程序及斋戒月开始前, 小贩公会曾向八打灵再也市政厅要求让所有档口恢复每日营业, 但当局所提出的条件太严苛, 包括限制进入巴刹的人数与时间, 每个档口之间都需要置放分隔板等等, 因此我们也放弃了。”

民众到灵市圣淘沙17/27路巴刹的熟食档打包食物, 在等待的当儿, 大家都会保持人身距离。

排队購物沒守身距

曾先生 (民衆)

“我每个星期都会到灵市圣淘沙17/27路巴刹, 但我发现巴刹只有出入口的标准作业程序有严格执行, 进入巴刹范围内却发现很多人并没有保持好人身距离, 尤其是排队购物的时候。”

或许是这个巴刹的范围比较小, 小贩有足够的空间可以执行好标准作业程序, 但我认为他们还可以再改善及有进步的空间, 提醒民众与他人时刻保持距离。”

台大杯程式设计赛推介 欢迎全国中学生参与

(莎阿南 17 日讯) 台湾大学马来西亚校友会今日为“台大杯 2021-全国中学生程式设计竞赛”举行推介礼, 欢迎全国中学生, 尤其是独中与华中生参与。

这项推介礼在莎阿南顶级手套大厦举行, 也是台大校友会近年来, 首次筹办的全国性大型活动。联办单位有拉曼大

学, 指导单位台湾大学电机资讯学院, 合作单位雪州资讯科技与电子商务理事会 (SITEC)。

该校友会会长朱运铁指出, 这项活动属于数字相关系列的工作坊, 以培养当代中学生的创新思维和利用电脑分析和解决问题的能力, 以增强学

生的综合素质, 也给拥有程式设计方面专长的学生提供展示平台。

“校友会也希望此竞赛能成为顶级学术交流平台, 同时可为国家发掘人才。”

他说, 校友会作为在地的文教团体, 除了例常联谊性活动外, 策划一个具有实质意义和学术性的常年活动以凝聚会员及吸引年轻人参与, 同时加强与母校联系及互动, 提升校友会在马来西亚的社会地位和塑造广泛的影响力。

“工作坊将于 5 月杪至 9 月的学校假期期间以线上方式进行, 若晋级队伍众多就需要安排初赛, 决赛暂定 10 月 30 日 (星期六) 与台大之夜同日举行。”

顶级手套签合作意向书

顶级手套与台大马来西亚校友会, 今日也签署合作意向书, 并由顶级手套集团副总经理林锦峰、人力资源总经理陆健民、朱运铁、署理会长朱志清等, 见证签署。

双方签署合约, 协议双方

将互相帮助和支持共同确定的各种合作项目, 如奖助学金、招揽人才、实习培训、招聘就业以及赞助与研究项目等。

出席者有雪州行政议员拿督邓章钦、拉曼大学校长尤芳达、雪州资讯科技与电子商务理事会首席执行官杨凯斌、留台联总会会长洪进兴、雪隆留台同学会会长林朝聘、驻马来西亚台北经济文化办事处侨务组组长林清德、筹委会主席赵健强等。

朝科技国迈进

邓章钦指出, 在科技爆炸的年代, 我们不能永远成为科技消费者, 仅是使用别人的科技。

“我们不要只是成为科技消费国, 也要把目标朝向科技大国迈进, 而这有赖于做好基础工作。”

他说, 若要先由教育部注入科技新元素, 可能还要很长时间, 因此由民间团体率先引导非常重要, 雪州政府有在财务有限的情况下, 这些年来也努力朝科技领域发展。

众嘉宾为“台大杯 2021-全国中学生程式设计竞赛”主持推介礼; 左起为赵健强、朱志清、杨凯斌、朱运铁、邓章钦、尤芳达及林清德。

查80厂防疫无一合格

10关闭70接警告信

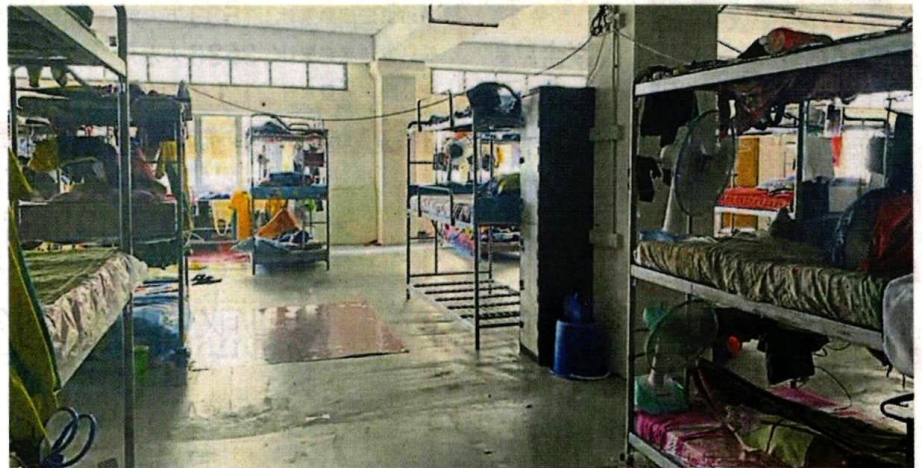

(巴生 17 日讯) 巴生 80 家工厂防疫检查，竟然没有一家合格！

巴生工业区防疫工作仍无法达至令人满意程度，在 80 家被突击检查的工厂中竟无一过关，除了 10 家直接被勒令关闭之外，其余 70 家也因各种防疫纰漏而接警告信。

相比之下，商业建筑的防疫措施做得较为完善，在 1459 家被突击检查单位中，有 91% 符合当局的防疫要求的。

巴生市议会卫生小组委员李富豪向媒体指出，市议会在防疫工作上毫不松懈，从今年 1 月 1 日起至 3 月 31 日，共检查了 80 家工厂及 1459 间商业单位。

“如上统计所见，工厂区仍无法全面达至防疫规定要求，在短短三个月的检查中，就有 10 家工厂在 1988 年传染病预防及控制法令（第 342 条文）下被勒令关闭，当中 1 月期间最为严重，共有 6 家被

员工宿舍环境是市议会在检查中，较为关注的项目。

勒令关闭，2 月和 3 月则分别有 3 家和 1 家。”

他说，厂商在防疫措施上仍有待改善，因为他们就算没有被勒令关闭，也会因为各种细节而遭当局开出警告信。

多没做好身距安排

“当中，厂商最常见错误是工厂没有做好人身距离安排、员工宿舍存在防疫疏漏、

没有做好出入登记，以及尚未给员工检测冠病等。”

他也指出，相对，商业建筑的防疫措施较令人满意，从 1 月至 3 月期间，在 1459 间被检查商业建筑中，只有 9% 业者无法达标，当中 7 间被勒令关闭、1 间被开出罚单、131 间被充公物品，以及 122 间接警告信。

李富豪：三方合作阻断传播链

李富豪指出，为了阻断工业区的冠病传播链，雪州政府已指示地方政府采取预防和早期发现热点的爆发措施（简称 POIS），检查工厂及商业建筑。

他说，有关措施由雪州冠病专案小组提出，建议通过三方合作，分别是政府、雇主和非政府组织的配合，在焦点地区为工厂及雇员检测，巴生市议会将与巴生县卫生局携手推

行上述检查工作，阻断冠病传播链。

“根据检查，执法人员也将着重各项风险评估，比如职场与宿舍的冠病传播风险、环境与人的现象、员工自我控制

的实践能力、公司面对员工感染所采取的应对程序等。”

他指出，为了有效推行上述措施，市议会也在本身的管辖区内，为厂商业者提供了 3 次的说明会。
