# Pencemaran Sungai Kim Kim terus berlaku, tiada penyelesaian

Oleh MUHAMAD AIMY AHMAD  
 aimy.ahmad@mesdarmula.com.my

**JOHOR BAHRU:** Pencemaran Sungai Kim Kim dan anak-anak sungai yang bersambungan tidak mustahil terus berlaku selagi punca-punca yang menyumbang kepada keadaan itu tidak diuruskan dengan baik.

Pakar Kualiti Air dan Permodelan, Dr. Zaki Zainuddin berkata, risiko pencemaran sungai terus wujud, tambahan pula Sungai Kim Kim dipengaruhi oleh fenomena air pasang surut yang menjadikannya lebih sensitif kepada pencemaran.

"Pertama sekali, saya amat sedih apabila mendengar insiden pencemaran berlaku di Sungai Kim Kim sekali lagi. Ia telah mendapat perhatian seluruh negara, malah, pelbagai inisiatif penjagaan sungai dimulakan oleh pihak berwajib, namun, insiden-insiden pencemaran masih berlaku.

"Seperti diketahui, pelepasan pelepasan bahan pencemar ke Sungai Kim Kim berkait rapat dengan pembangunan atau guna tanah di dalam dan sekitar lembangan sungai.

"Ini bukan sahaja merujuk kepada pembangunan industri, tetapi sumber pencemaran domestik dan komersial seperti

**KAKITANGAN JAS** melakukan pemantauan di Sungai Kim Kim selepas menerima aduan bau busuk daripada penduduk berhampiran Kampung Bukit Pulai di Pasir Gudang, Johor.

sisa kumbahan dan sebagainya," katanya kepada *Utusan Malaysia* di sini, semalam.

Rabu lalu, sungai yang terletak di kawasan perindustrian

Pasir Gudang itu sekali lagi menjadi tumpuan apabila penduduk melaporkan perubahan air berwarna hitam disusuli bau busuk berhampiran Kampung

Bukit Pulai.

Meskipun bukan pencemaran sisa toksik seperti yang berlaku pada Mac 2019 yang membabitkan 6,000 mangsa, penduduk

tetap trauma dan fobia dengan sebarang kejadian pencemaran di Sungai Kim Kim sejak insiden besar tersebut.

Jabatan Alam Sekitar (JAS) negeri melaporkan, pencemaran terbaharu itu disebabkan terdapat premis sedang menjalankan kerja-kerja penyelenggaraan sehingga menyebabkan berlakunya pelepasan air sisa buangan tanpa dirawat mengalir memasuki sungai berhampiran.

Sementara itu, Zaki berkata, bukan setakat Sungai Kim Kim sahaja yang dipengaruhi fenomena air pasang surut, tetapi sungai-sungai lain di sekitar Pasir Gudang seperti Sungai Perembi, Sungai Buluh, Sungai Latoh, Sungai Tukang Batu dan Sungai Kopok turut berdepan situasi sama.

"Awal bulan lalu juga terdapat insiden pencemaran di Sungai Kopok, iaitu lembangan sungai yang terletak bersebelahan Sungai Kim Kim. Kesemua sungai ini sebenarnya tercemar atau pernah mengalami pencemaran serius.

"Saya khuatir jika pembangunan di kawasan berkenaan tidak dirancang dengan bijak, lebih banyak sungai berdekatan akan mengalami pencemaran serius pada masa hadapan," ujarnya.

### Shah Alam

**P**engurusan jenazah pesakit Covid-19 beragama Islam di tiga hospital di Selangor kini tidak melebihi tempoh 24 jam susulan pelaksanaan inisiatif pengurusan jenazah dilaksanakan kerajaan negeri.

Menteri Besar, Datuk Seri Amirudin Shari berkata, pihaknya juga dalam perbincangan dengan pengendali mayat pesakit Covid-19 bukan Islam bagi proses pengurusan yang sebelum ini memakan masa sehingga empat hari.

"Alhamdulillah, suka saya maklumkan bahawa tiada lagi 'limpahan' jenazah pesakit Covid-19 di Hospital Tengku Ampuan Rahimah

# Urus jenazah kurang 24 jam

*Inisiatif kerajaan Selangor berjaya kurangkan masa pengurusan di tiga hospital*

(HTAR) seperti dilaporkan sebelum ini.

"Ia selepas beberapa inisiatif yang kita laksanakan termasuk menjadikan tiga hospital iaitu HTAR, Hospital Shah Alam dan Hospital Sungai Buloh sebagai pusat pengurusan jenazah Covid-19.

"Kini, Setiausaha Kerajaan Negeri (SUK) berbincang dengan pengendali bagi mempercepatkan proses pengur-

saan mayat bukan Islam," katanya ketika ditemui selepas sesi lawatan di Pusat Pemberian Vaksin (PPV) Institut Pengajian Tinggi (IPT) di Universiti Teknologi Mara (UiTM) di sini, semalam.

Dalam pada itu Amirudin memaklumkan, 30 peratus individu di negeri ini sudah menerima dua dos vaksin Covid-19 sehingga kelmarin.

"Dalam tempoh 20 hari lagi kita capai 50 peratus. Maknanya sehingga akhir Ogos, kita mungkin hampir mencapai 60 peratus.

"Bagaimanapun, kita tidak boleh berpuas hati dengan angka ini justeru pelbagai inisiatif akan dilaksanakan termasuk menumpukan suntikan vaksin kepada warga asing sama ada yang berdokumen atau tidak," katanya.

**4 August 2021**

Akhbar	:	Harian Metro
Tajuk Berita	:	De Murga kembali kebalkan TFC
Muka Surat	:	45

**Kuala Terengganu:** Benteng Terengganu FC (TFC) kembali kebal dengan kehadiran kapten, Carli De Murga apabila pasukan itu bertemu Petaling Jaya City FC (PJ City FC) di Stadium Majlis Bandaraya Petaling Jaya, malam ini.

Pemain kacukan Filipina-Sepanyol berusia 33 tahun itu yang menyertai TFC awal musim ini hanya sempat beraksi 25 minit ketika pasukannya tumpas kepada Melaka United FC (MUFC) minggu lalu sebelum terlepas aksi bertemu Sabah FC pada Ahad.

Pengendali TFC, Nafuzi Zain berkata, kehadiran semula De Murga daripada kecederaan begitu diharapkan bagi memperkukuhkan benteng pertahanan dalam misi memburu tiga mata.

Malah katanya, lebih menceriaikan kem skuad Penny apabila beliau boleh menurunkan kembali lima tonggak import berbanding empat ketika bertemu Sabah FC.

“Ketika menentang Sabah FC, pemain kebangsaan Mali, Makan Konate dikorbankan kerana kami membawa masuk pertahanan skuad Terengganu FC II (TFC II), Argzim Redzovic bagi menggantikan tempat De Murga yang tidak dapat diturunkan akibat kecederaan.

“Kepulangan semula pertahanan dari Filipina itu te-

pat pada masanya sekali gus membolehkan kami menurunkan lima pemain import, ini bermakna TFC kembali dengan kesebelasan terbaik berdepan PJ City dalam misi mendapatkan mata penuh,” katanya.

Ketika ditanya mengenai pemain pinjaman dari Sri Pahang, Lee Tuck, beliau akui bekas kapten pasukan TFC musim lalu itu masih belum cergas sepenuhnya daripada kecederaan dan kini dalam proses pemulihan.

“Saya jangka aksi bertemu PJ City FC belum sesuai lagi buat Tuck yang masih dalam proses pemulihan daripada kecederaan sebelum liga disambung semula pada Julai lalu,” katanya.

TFC yang kini mengahuni di tangga kedua liga tewas 0-2 bertemu MUFC dan terikat 0-0 dengan Sabah FC Ahad lalu.

Keluarga mangsa Covid-19 kesal 'ustaz' caj tinggi

## RM800 kos tayamum

Oleh MOHD. YUNUS YAKKUB

**SHAH ALAM** - Pengurusan jenazah Covid-19 di Selangor dipercayai digunakan pihak tertentu untuk mengaut keuntungan apabila sebuah keluarga di Jeram, Kuala Selangor dekat sini menjadi mangsa mereka baru-baru ini.

Kejadian dikatakan berlaku pada 30 Julai lalu apabila seorang individu dengan gaya alim ulama mengenakan caj sehingga RM800 dalam proses pengurusan tayamum jenazah.

Mangsa tersebut dikenali Nurain, 28, berkata, mereka telah didekati seorang lelaki dengan perwatakan seperti ustaz menawarkan perkhidmatan pengurusan jenazah Covid-19 dengan menyatakan hanya untuk proses tayamum di Hospital Tanjong Karang.

Katanya, lelaki tersebut mengenakan caj sehingga RM800 dengan memberikan resit pembayaran seperti digunakan di kedai runcit dengan menyatakan tujuan resit untuk mengurus memandikan dan mengkafkan jenazah.

KERATAN Kosmo/ 22 Julai 2021.

"Arwah ayah berusia 75 tahun disahkan meninggal dunia akibat Covid-19 pada 28 Julai lalu sebelum dibenarkan untuk proses pengebumian pada Jumaat lalu.

"Kami kemudian membayar pengurusan tersebut hasil perkongsian wang sesama ahli keluarga sebelum diberikan resit sebegini," katanya ketika dihubungi Kosmo/ di sini semalam.

Bercerita lanjut, Nurain berkata, selepas proses pengebumian tersebut salah seorang individu telah menanyakan kos dan terkejut bahawa dikenakan sehingga RM800 sedangkan proses tayamum tersebut adalah percuma.

Ujarnya, perkara itu me-

nyebabkan mereka terkilan kerana sebelum ini hanya mendengar tular berkenaan penipuan kos tayamum sebelum menjadi mangsa.

Sementara itu, Pengerusi dan Pengasas Unit Khas Van Jenazah (UKVJ) yang dikenali Wan Cai berkata, Jabatan Agama Islam Selangor (JAIS) harus melakukan pemantauan lebih kerap terhadap mana-mana pihak yang mengenakan caj tayamum ini.

Kosmo/ sebelum ini melaporkan kadar kematian yang tinggi akibat jangkitan Covid-19 khususnya di Selangor menyebabkan ada pihak yang didakwa cuba mengaut keuntungan dengan mengenakan caj yang tinggi untuk menguruskan jenazah.

Perkara itu dipercayai berlaku kepada si mati yang beragama Islam dengan kewujudan kartel-kartel tertentu yang mengenakan caj tayamum sehingga RM730 bagi jenazah perempuan dan RM680 bagi jenazah lelaki walaupun proses itu hanya mengambil masa kurang seminit dan menggunakan debu tayamum berharga RM5.

RESIT pembayaran pengurusan jenazah Covid-19 yang dibayar keluarga Nurain yang tular di Facebook baru-baru ini.

Tajuk Berita	:	1,500 kilang laksana pois kawal penularan Covid-19
Muka Surat	:	22

Inisiatif oleh STFC itu mampu bendung kes positif bagi membolehkan kilang terus beroperasi

Oleh MOHD IZZATUL IZUAN  
 TAHIR

**SHAH ALAM**

**K**ira-kira 1,500 kilang di Selangor sudah melaksanakan Sistem Pencegahan Penularan di Kawasan Titik Panas (POIS) bagi mengawal penularan Covid-19 dalam sektor industri di negeri ini.

Menteri Besar Selangor, Datuk Seri Amirudin Shari berkata, inisiatif yang dilaksanakan pada 29 Januari lalu itu berjaya mengawal pandemik dengan lebih berkesan dan mengurangkan kluster di tempat kerja yang boleh mencecah sehingga 50 peratus.

Menurut beliau, POIS merupakan sistem saringan

yang tersusun untuk Kilang dan tempat kerja berikutan sektor itu berpotensi mewujudkan kluster Covid-19.

"Syarikat berperanan aktif melaksanakan inisiatif saringan ini dengan kerjasama Jabatan Kesihatan Negeri Selangor (JKNS), Selgate Corporation Sdn Bhd, semua pihak berkuasa tempatan (PBT) dan Federation of Malaysian Manufacturers (FMM)," katanya yang memuat naik status dan infografik di Facebook beliau pada Selasa.

Inisiatif oleh Pasukan Petugas Pencegahan Covid-19 Selangor (STFC) itu dapat membendung kes positif bagi membolehkan kilang atau pejabat terus beroperasi.

Menerusi sistem itu, majikan yang mendaftar hanya perlu menubuhkan jawatan-

kuasa untuk mengenal pasti lokasi dan aktiviti berisiko tinggi.

Dalam perkembangan sama, Amirudin berkata, selain inisiatif POIS, kerajaan negeri turut melaksanakan Program Vaksin Selangor (SelVax) industri yang merupakan program penawaran vaksin Covid-19 kepada syarikat berminat bagi memastikan imuniti kelompok dalam kalangan pekerja.

"Majikan akan membeli dos vaksin untuk diberikan kepada pekerja mereka dengan syarat tidak mengenakan sebarang kos," jelas beliau.

Beliau memberitahu, kedua-dua program utama itu adalah khusus untuk memanfaatkan industri ekonomi di Selangor.

"Ini sebahagian daripada usaha di bawah bidang kuasa kerajaan negeri bagi meminimumkan penularan Covid-19 di tempat kerja," tegasnya.

# 1,500 kilang laksana POIS kawal penularan Covid-19

## SelVax Komuniti mula dibuka untuk pendaftaran

**SHAH ALAM** - Program Vaksin Selangor (SelVax) kini dibuka bagi prapendaftaran untuk meningkatkan lagi pemberian vaksinasi kepada seluruh rakyat di negeri ini.

Exco Kesihatan Awam, Perpaduan, Pembangunan Wanita dan Keluarga, Dr Siti Mariah Mahmud berkata, pendaftaran itu mula dibuka selama 10 hari bermula pada Selasa hingga 13 Ogos ini.

"Orang ramai boleh menggunakan kod baucar tertera di poster bagi mendapatkan vaksin di PPV berhampiran bermula jam 9 pagi hingga 6 petang," katanya yang memuat naik status dan infografik di Facebook beliau pada Selasa.

Siti Mariah berkata, orang ramai diingatkan memuat naik aplikasi SeLangkah untuk membuat pendaftaran.

"Program SelVax percuma kepada penduduk Selangor berusia 18 tahun ke

atas," jelas beliau.

Menurut beliau, sebanyak lima slot vaksinasi bagi program SelVax kepada penduduk warganegara.

"Lima slot itu ialah di Tropicana Garden Mall, Kota Damansara, Evo Mall, Bandar Baru Bangi, Hotel De Palma, Shah Alam dan Aurora Place, Bukit Jalil.

"Bagi slot vaksinasi bukan warganegara pula diadakan di Kompleks Sukan PKNS, Kelana Jaya yang hanya bermula pada 10 hingga 13 Ogos," katanya.

Katanya, orang ramai juga boleh mengikuti laman sosial Selgate atau SeLangkah bagi pengumuman kod baucar di dewan komuniti.

"Slot vaksinasi di dewan khas komuniti telah ditetapkan Ahli Dewan Undangan Negeri (ADUN) atau Penyelaras Dewan Undangan Negeri (DUN) mengikut jadual yang telah ditetapkan," katanya.

# JAIS teliti semula penglibatan NGO urus jenazah Covid-19

Ketetapan itu dibuat berikutan kes jenazah mengambil masa lama untuk diuruskan

Oleh ENGGU SHARIFUL AZNI

SHAH ALAM

MOHD SHAHZIHAN

Jabatan Agama Islam Selangor (JAIS) mengambil keputusan untuk meneliti, menilai dan menstruktur semula peranan serta penglibatan badan bukan kerajaan (NGO) Islam dalam pengurusan jenazah Covid-19 di negeri ini.

Pengarahnya, Datuk Mohd Shahzihan Ahmad berkata, ketetapan itu dibuat setelah beberapa isu berbangkit melibatkan NGO berikutan kes jenazah yang mengambil masa lama untuk diuruskan di beberapa hospital di Selangor.

Beliau memberitahu, JAIS sememangnya mengakui penglibatan NGO memberi sumbangan besar dalam pengurusan jenazah Covid-19.

"Bagaimanapun, penglibatan pihak berkenaan tetap perlu

diselaras, dipantau dan dibantu sesuai dengan tanggungjawab JAIS sebagai agensi yang mengurus hal ehwal Islam di Selangor," katanya dalam satu kenyataan pada Selasa.

Justeru, tegas beliau, mana-mana NGO yang berhasrat untuk bersama JAIS adalah dipelawa untuk bersama-sama rakan NGO sedia ada untuk menunaikan tuntutan fardu kifayah dengan syarat sanggup mematuhi syarat dan kod etika yang ditetapkan JAIS.

"NGO yang diiktiraf hendaklah melaksanakan tanggungjawabnya berdasarkan prinsip hukum syarak, khidmat bakti dan mengutamakan kepentingan umum.

"JAIS komited dan tidak akan berkompromi dengan mana-mana pihak atau individu

yang mengeneipkan kepentingan umum dan mengeksploitasi keadaan genting ini untuk kepentingan lainnya," katanya.

*Sinar Harian* pada Isnin melaporkan mengenai penjelasan JAIS berhubung beberapa dakwaan dibangkitkan oleh NGO berkaitan ketetapan baharu pengurusan jenazah Covid-19 di Selangor.

Kenyataan yang dikeluarkan oleh sebuah NGO dikenali sebagai Unit Kenderaan Van Jenazah (UKVJ) yang menggunakan akaun nama Facebook, Mr Wan Cai Official pada Sabtu mendakwa JAIS tidak lagi membenarkan mana-mana NGO menguruskan jenazah Covid-19 di semua hospital di Selangor.

Mohd Shahzihan berkata, beberapa pihak 'menyerang'

JAIS di media sosial sebelum ini boleh menimbulkan perspektif buruk terhadap dasar baharu itu yang telah dikuatkuasakan sejak 28 Julai lalu.

"JAIS menjalin kerjasama berterusan dengan lebih lapan NGO dengan kekuatan lebih 130 sukarelawan yang terlibat secara langsung dan menghargai sumbangan pihak tersebut yang mengendalikan pengurusan sebanyak 2,071 jenazah Covid-19 dengan baik sejak Januari 2021.

"Sebarang ketetapan, pendekatan yang dilaksanakan oleh JAIS adalah demi kepentingan umat Islam seluruhnya dan semua pihak termasuk pihak hospital, para petugas, sukarelawan, keluarga atau waris, agensi serta pihak-pihak yang terlibat secara langsung atau tidak langsung," katanya.

# Pengurusan jenazah Covid-19 di Selangor tidak lebih 24 jam

**SHAH ALAM** - Pengurusan jenazah pesakit Covid-19 yang beragama Islam di tiga hospital di Selangor kini tidak melebihi tempoh 24 jam susulan pelaksanaan inisiatif pengurusan jenazah yang dilaksanakan kerajaan negeri.

Menteri Besar Selangor, Datuk Seri Amirudin Shari berkata, pihaknya sedang berbincang dengan pengendali mayat pesakit Covid-19 bukan Islam bagi mempercepat proses pengurusan yang sebelum ini memakan masa sehingga empat hari.

"Alhamdulillah, suka saya maklumkan bahawa tiada lagi 'limpahan' jenazah pesakit Covid-19 di hospital seperti yang dilaporkan sebelum ini selepas inisiatif Pengurusan Jenazah Covid-19 Berpusat dijalankan di Hospital Tengku Ampuan Rahimah (HTAR) Klang, Hospital Shah Alam dan Hospital Sungai Buloh.

"Setiausaha Kerajaan Negeri Datuk Nor Azmie Diron sedang berbincang dengan pengendali bagi mempercepat proses pengurusan mayat bukan Islam," katanya pada pemberita selepas melawat pusat pemberian vaksin (PPV) di Universiti Teknologi MARA Shah Alam pada Selasa.

Beliau juga berkata, sehingga semalam kadar individu dewasa di Selangor yang melengkapkan dua dos vaksinasi telah mencecah 30 peratus dan dijangka mencapai lebih 50 peratus pada akhir bulan ini.

"Bagaimanapun, kita tidak boleh ber-

puas hati dengan angka ini justeru pelbagai inisiatif akan dilaksanakan termasuk menumpukan suntikan vaksin kepada warga asing sama ada yang berdokumen atau tidak," katanya.

Amirudin berkata, sesi janji temu dos kedua kepada penerima vaksin secara *walk-in* atau jumpa terus dalam program Vaksin Selangor (SeLVAX) akan dimaklumkan menerusi aplikasi SeLangkah bagi mengelakkan berlaku kesesakan di PPV.

Beliau berkata demikian ketika mengulas dakwaan berlakunya kesesakan di PPV SeLVAX yang mula menerima individu secara *walk-in* semalam.

Akhbar	:	The Star
Tajuk Berita	:	More plastic waste at two recycling centres in Selangor
Muka Surat	:	3

KDEBWM's recycling centre in Bandar Bukit Puchong, Selangor, has seen an increase in plastic waste such as food containers and packaging materials from online shopping.

## More plastic waste at two recycling centres in Selangor

THE first six months of this year has seen an average of 60 tonnes of recyclable plastic waste sent to two recycling centres operated by KDEB Waste Management (KDEBWM) in Selangor.

This is more than twice what it used to receive pre-pandemic. Some 8,941 tonnes of recyclable plastic waste were collected and sent to two of its recycling centres between January and June this year.

In comparison, about 4,521 tonnes of waste were collected throughout 2020 and 7,536 tonnes in 2019.

The significantly lower figure for 2020 was due to the movement control order where recycling centres were not allowed to operate.

KDEBWM managing director Ramli Mohd Tahir said although there were no exact numbers for plastic wastes being disposed of in landfills, KDEBWM had observed an upward trend.

"Our primary activities are collecting and transporting waste to the landfill.

"However, we have seen that plastic wastes such as food containers and packaging materials from online shopping have increased, especially in urban areas.

Ramli says ideally, there should be a recycling facility under each local council.

"By looking at the data of recyclable plastic waste collected and sent to our recycling centres in Klang from 2019 to June 2021, the quantity is increasing every year," he told *StarMetro*.

Plastic bottles, bags and food containers make up the bulk of items sent to the recycling facilities.

Ramli said the data was only from two recycling centres operated by KDEBWM.

The recycling centres are located in Bandar Bukit Puchong in

Puchong and Meru in Klang.

After being deposited at the centres, the wastes including aluminium, paper and scrap metal are sorted by type before being compacted into bales.

The bales are then sold to ready buyers who process the materials into other by-products.

"Materials that are not sent to our recycling centres end up in landfills," said Ramli.

"There are currently three landfills operating in Selangor, namely Jeram, Tanjung Dua Belas and Bukit Tagar.

"They have at most another 10 years before they reach full capacity.

"With over six million people living in Selangor, there is greater urgency to manage our wastes."

He said in an ideal situation, there would be at least one recycling facility in each municipality or city.

"Currently, we manage the waste for 12 local authorities in Selangor.

"Recyclable waste from only a few areas around the existing facilities are sent for processing while the rest end up in landfills.

"We hope to set up two or three new recycling facilities in the next two years," he said.

Recyclable materials dropped off at KDEBWM's recycling centre in Meru, Klang, are sorted and compacted into bales.

**Selangor**

Environmental monitoring equipment found in Section 5, Petaling Jaya part of preliminary work for MRT3 project >4

By **SHEILA SRI PRIYA**  
 sheilasripriya@thestar.com.my

THE sight of surveyors and equipment in Section 5, Petaling Jaya last week has left residents wondering what project is set to start that involved their neighbourhood. Photos of surveying tools placed there were being circulated among residents.

Section 5 Residents Association president Alwyn Alfred told *StarMetro* that they were in the dark and had not been engaged over any upcoming project.

"We would like to have information on any proposed plan that would impact the residents.

"We are not at a stage to oppose the project but we want more information," said Alfred.

Petaling Jaya city councillor Derek Fernandez, when contacted, said any major public transportation or road infrastructure project developer must refer to Petaling Jaya City Council's (MBPJ) planning and development policies before making any proposal.

He said so far, there had been no engagement, discussion or presentation to MBPJ on any project in Section 5.

In addition, he noted that any proposal must comply with MBPJ's policies such as impact assessment reports for sustainable development.

"All mega infrastructure projects require planning approval and public consultation in addition to complying with the relevant local plan as well as integration with transport hub and transit-oriented development policies.

"Applicants must ensure there is consultation and planning done in advance," said Fernandez.

This was especially critical in

# PJ Section 5 residents wonder about survey work

Activities part of environmental monitoring, says MRT3 developer

An environmental monitoring device placed in Section 5, Petaling Jaya. Mass Rapid Transit Corporation Sdn Bhd has confirmed that it is related to the MRT3 Circle Line project.

brownfield infrastructure development where there may be acquisition of land or impact on open spaces and property in some cases, he explained.

"There may be cases whereby,

given the city's present policies, certain types of infrastructure may no longer be suitable for a compact and dense city such as Petaling Jaya.

"Certain infrastructure will not

be able to meet the city's sustainable development goals or prioritisation of land use for other types of infrastructure," he added.

A Mass Rapid Transit Corporation Sdn Bhd strategic

communications and stakeholder relations spokesperson confirmed that the survey and environmental monitoring activities were related to the MRT3 Circle Line project in the Section 5 neighbourhood.

The statement said the activities were part of preliminary work to enable possible alignment options to be considered for the project.

"Consultation with the community and the public will certainly be carried out once preferred options are identified.

"The people will also be engaged and have the chance to provide feedback during a three-month public inspection exercise, which is required for all proposed railway projects under the Land Public Transport Act 2010," it said.

It was earlier reported that a third MRT line would play a crucial role in cutting short the distance for those who need to transfer between MRT lines (Kajang and the upcoming Putrajaya) and the LRT lines (Kelana Jaya and Ampang/Sri Petaling) as well as KTM Komuter.

In April, it was announced that the project would commence in the second half of the year following the government's approval of Mass Rapid Transit Corporation as project owner of the national infrastructure.

Akhbar	:	The Star
Tajuk Berita	:	THE VALUE FOR EVERY DROP OF WATER YOU CONSUME
Muka Surat	:	5

# THE VALUE FOR EVERY DROP OF WATER YOU CONSUME

Since we entered another round of the Movement Control Order (MCO) in Selangor, Kuala Lumpur, and Putrajaya, we saw a sharp spike in complaints of high-water bill. The big question is - what is the root cause of it?

Have we ever wondered that the long showers we take, the tap we leave open while brushing our teeth or the amount of water we use to wash our cars and water our plants can actually contributed to the increase in our monthly water bill? However, in some cases, an unusual water bill may also be caused by an internal pipe leakage.

It is crucial to shed light and provide clarity on the matter as we debunk this ongoing confusion surrounding our monthly water consumption bill. All of which will put a shock to the consumers upon receiving their bills. But fret not, every problem has its solution.

## Understanding Your Monthly Water Bills

One may wonder, how exactly is your monthly water bill calculated? Monthly billing calculation for every customer account is made based on the actual meter reading taken by meter readers at the customers' premises. As a customer, it is imperative that we also learn how to read the water meter. The meter counter at your premise displays your total water consumption which is measured in cubic metres (m<sup>3</sup>).

## Detecting High Water Consumption: The Role of Consumers

Higher water bills may also affect

**How to check your internal leaking?**

According to Air Selangor's record, one of the main causes for high water bills is due to internal pipe leakage. Consumers are advised to always check the condition of your internal pipes located after the premise's water meter by following the simple steps below:

- Turn off all the water taps in your house.
- Monitor for movement in your water meter.
- If there is movement in your water meter, there could be a leakage involved. Contact a certified plumber for further inspection.
- Check your toilet bowl.
- Place some dye into the toilet tank.
- If coloured water flows into the toilet bowl when it is not being used, this could indicate a leakage. Contact a certified plumber for further inspection.

those who live in homes that were built before the year 2000. Why you ask? The original plumbing system may not be replaced and as such, customers would have to deal with ageing pipes issues which may lead to internal leakages. A lot of these homes are facing such problems as more durable and sturdy materials were not available back then.

Did you also know that a home can lose up to 20,000 gallons (75,708

litres) of water per year through either direct or indirect leakage, including problems in faucets, showers, and in serious cases, water pipes on ceilings and in the walls? Once your toilet or faucet has a leak or continuously running water, it will indirectly increase the water consumption which can cause an extreme spike in your water bill.

In the case of an internal pipe leak, it is the responsibility of the customer, as stated in the Water Services Industry Act 2006. When you notice any water leakage in your homes, be sure to book a certified plumber to fix the leak immediately. It is recommended for customers to have their regular pipes checked and fixed as it can allow them to save on unexpected repair expenses and high-water bills in the future.

## Challenges faced by Air Selangor as water operator

Monthly billing calculation for every customer account is made based on the actual reading taken by meter readers at the customers' premises. However, there are situations where the customer's meter is obstructed or located inside the premise and cannot be accessed directly.

Given such predicaments, Air Selangor has established a meter relocation programme, an initiative undertaken to ensure that the water meters are easily accessible for readings to be taken. As of July 2021, 3,657 (45.7%), over 7,227 water meters have been relocated.

According to the Water Services Industry Act 2006, water meters at customers' premises remain as the property of the water operator. This gives the water operator the right to determine the installation position of the meter to facilitate daily operations. If the meter is in an unreadable or inaccessible position, the water operator may change or shift the position of the meter or even install a new meter.

Error in meter reading could be contributed by old and faulty meters. Hence, replacing the old and faulty meters is crucial in ensuring that correct reading of your water consumption can be recorded. To that end, the cost of relocating or replacing the water meters will be borne by Air Selangor.

Alternatively, for consumers who are still experiencing high water bill after the change of new water meter by Air Selangor, please lodge your complaints by calling 15300 or reach out to the Help Centre. By doing so, this will allow Air Selangor to investigate on the cases expeditiously to avoid the issue from prolonging.

## Tips To Maintain a Reasonable Monthly Water Consumption

As a customer, be sure to monitor any spike in your monthly water bill as this may be caused by uncontrollable water consumption. With family members spending all day at home during the pandemic period and consuming more water from an average of 180 litres per day as targeted by Suruhanjaya Perkhidmatan Air Negara (SPAN), your water consumption trend may increase.

As the regulator of the country's water industry, SPAN has recommended that the water consumption for some of our daily activities are as follows:

1. Showering: to use about 30 litres of water which is equivalent to a 5 minute shower. When showering, always ensure you turn the tap off in between when you are using the soap or shampooing your hair.
2. Brushing teeth: to use about 0.5 litres of water. When you brush your teeth do not leave the tap running after wetting your toothbrush.
3. Toilet pumps: to use about 4.5 litres of water. Dual flush toilet is a great way to help consumers save water. Simply use the half flush for liquid waste and the regular flush for solid waste.
4. Washing the dishes: to use about 25 litres of water.
5. Laundry: to use about 130 litres of water.

## Towards a Sustainable Future for Water Industry

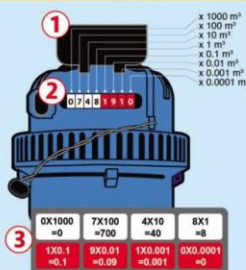

Despite the challenges faced, Air Selangor is committed to exploring the measures in ensuring that clean and safe water supply can be continuously distributed to the consumers.

As a water operator, Air Selangor is always planning and exploring the construction of new water treatment plants to continue serving the growing number of consumers. However, such development will require a large cost and would have an impact on the environment in the long run.

As a consumer, let us play our part in using water prudently to avoid any surprises when we get our monthly water bill while we continue to help our water operators in protecting our water sources.

## How to calculate your water bill?

- 1 Lift the meter counter cover to see the reading.
- 2 The meter displays an 8-digit number with 4 decimal points. The first 4 digits in black with white background before the 4 decimal points in white with red background on the meter reading signifies the water consumption amount in cubic metres. The meter reading captured (referring to the digit in black) must be deducted with previous month's reading. The difference will indicate the total consumption for the month.
- 3 As such, if the reading difference is 40m<sup>3</sup>, hence, this captured amount will be billed for the month.

The calculation for customers' water bills will be recorded based on a full 30-day period. However, the water tariff rate is determined by the Water Services Industry Act 2006 (Act 655), as advised by Suruhanjaya Perkhidmatan Air Negara (SPAN).

Billing Period : 30 days/30 days (1 month) = 1.00 month  
 Consumption : 40 m<sup>3</sup>

Water charges for the first 20 m <sup>3</sup> x 30 days / 30 days	= 20 m <sup>3</sup> x RM0.57	RM11.40
Water charges for the following 15 m <sup>3</sup> x 30 days / 30 days	= 15 m <sup>3</sup> x RM1.03	RM15.45
Water charges for the remaining usage m <sup>3</sup>	= 5 m <sup>3</sup> x RM2.00	RM10.00
<b>Total bill</b>		<b>RM36.85</b>

## KERATAN AKHBAR 4 August 2021

Akhbar	:	New Straits Times
Tajuk Berita	:	TROPICANA CELEBRATES 25 YEARS OF SUCCESSFUL PARTNERSHIPS
Muka Surat	:	29

**Quote from PKNS on Tropicana Gardens, Tropicana Indah Hajah Siti Zubaidah Abd Jabar (S.M.S, P.P.T), CEO**

Tropicana Gardens is truly a remarkable project and we have confidence in our partnership with Tropicana. The launch of its first residential block, Arnica Residences was sold out in two days. The rest of the 3 residential towers followed suit and sold out, too. Tropicana Gardens Mall, the largest neighbourhood mall in its region has achieved 68 per cent take-up with 50 per cent of tenants open for trade as of today.

**Quote from W Kuala Lumpur Hotel, KLCC Christian Metzner, General Manager**

W Kuala Lumpur first opened its doors in 2018. This marked the iconic brand's first-ever hotel in Malaysia and the first 5-star hotel developed by the Tropicana Group. This bold and innovative hotel has since become the choice location for local and international events alike. W Kuala Lumpur is also famous for its WET(R) Deck pool bar with breathtaking views of the Petronas Twin Towers as its stunning backdrop, lavish Retox Sunday Brunches, and legendary Cantonese dim sum. Like W, Tropicana has a passion for embracing what's new and next while still maintaining its cultural roots – a natural fit for a successful partnership.

**Quote from Temokin Development Sdn Bhd on Tropicana Miyu, Petaling Jaya Jeremiah Tan Chien Yih, Director**

When Tropicana Miyu was launched in September 2020, amid the challenging market environment, we were very encouraged by the response and to-date it has recorded over 95 per cent take-up. The Tropicana and Temokin brand name plus its ability to launch the right product at the right location is a testament to the strength of its joint venture partnership complemented by the wealth of expertise in the industry.

Landowners who are keen to unlock their landbank or partner with us to develop ours are warmly invited to call us at 016 299 2114 or write to us at [bizdev@tropicanaacorp.com](mailto:bizdev@tropicanaacorp.com). [my](http://my.tropicanaacorp.com) or submit your info on [www.tropicanaacorp.com](http://www.tropicanaacorp.my/collaboration).

**IN** a strategic move to expand its foothold across Malaysia, property developer Tropicana Corporation Berhad (Tropicana) is ready to welcome and take on more joint venture projects. Established in 1979, Tropicana has become a household name that is synonymous with community builders and value investments. In 1992, Tropicana introduced the first resort-themed development and since then, it has completed many successful projects across Malaysia and unlocked more than 607ha of landbank. Guided by its successful record, Tropicana was also privileged to partner with 11 reputable corporations over 25 years.

Tan Sri Tan Chee Sing, Founder and Group Executive Vice-Chairman of Tropicana, spoke of his confidence in his team's capability and shared his timely vision to drive the Group forward.

"For 25 years, we have witnessed and celebrated many milestones and achievements with our valued partners.

Together, we have successfully developed luxurious residences, commercial lots, mixed townships, shopping mall, five-star hotels, and international schools. We are humbled and grateful for their confidence, trust, and support in us. Backed by my capable management team and committed workforce, I believe we are ready to take a big step forward and welcome more partners to join our Smart Partnership Programme.

"We are also the proud owner of over 849ha of strategic landbank worth over RM77 billion GDV across Malaysia, namely in Klang Valley, Genting Highlands, Langkawi, and Johor. To boost our business resilience and scale up our expansion plan, we invite landowners to join us, leverage on our expertise, and unlock their landbank or we welcome corporations to partner with us to jointly develop our strategic landbank," he said.

Tropicana Smart Partnership Programme began in 1996 when Tropicana entered into a strategic partnership with Perbadanan Kemajuan Negeri Selangor ("PKNS") to develop a 163-hectare township at Tropicana Indah Resort Homes. In 2010, the Group partnered with Iskandar Waterfront Sdn Bhd to build

a 14ha mixed development known as Tropicana Danga Bay, Johor. After celebrating many successful projects, Tropicana was then invited to form alliances with many reputable local and international corporations such as Ivory Properties Group, Marriott International, HK-listed Agile Property Holdings Ltd, GEMS Education, MBI Incorporated, Tenby Schools, and Temokin Development Sdn Bhd. To date, the Group has joined forces with 11 corporations, completed over 45 successful joint venture projects ranging from integrated mixed developments, townships, luxurious residences, international schools, shopping mall, and world-class hotels with a total GDV of over RM13 billion over the course of 25 years.

**Quote from Iskandar Waterfront Sdn Bhd on Tropicana Danga Cove, Johor**

Tropicana Danga Cove freehold integrated development stretches over 91ha offering commercial shop offices and low-rise landed residential properties. Most of the units were sold recording over 95 per cent take-up. With such promising take-up, we are confident this township will be the next vibrant hub of Johor.

## 巴生市會清潔工人篩檢

# 垃圾回收工作

(巴生3日讯) 达鲁益山垃圾管理公司 (KDEBWM) 安排巴生市议会管辖区内14个住宅区的清洁工人, 进行集体新冠肺炎筛检, 因此涉及地区的日常垃圾回收工作可能受到短暂影响。

达鲁益山垃圾管理公司今日发出文告指出, 该公司会委派后援队, 按时间表到上述地区, 进行日常的固体废料收集及公共卫生工作, 减低影响。

### 可撥電詢問

民众若有任何关于收集垃圾问题, 可拨电达鲁益山垃圾管理巴生分公司询问 (03-3362 5000), 总指挥中心电话为 019-375 9592、019-375 3980或whatsapp:019-274 2824。

该公司承诺, 将尽力为雪州居民, 提供最好的固体废料管理服务, 并为此事所引发的不便, 向民众致歉。

根据文告, 该公司安排当地的工人进行冠病筛检, 并为所有的固体废料交通与机械进行消毒。

### 14受影响地区

1. 富豪苑
2. 武吉拉惹镇
3. 武吉加埔
4. 甘榜高阳苑
5. 池龙花园
6. 班达马兰新村
8. 甘榜依达曼
9. 班达马兰再也
10. 巴生港口
11. 哥打本达玛花园
12. 南海峡花园
13. 八打灵英达花园
14. 南方镇

■14个地区的清洁工人 进行集体新冠肺炎筛检, 日常垃圾回收工作可能受到影响。

## 雪搭Grab接种车资折扣 逾万人申请 开放至 9.30

(莎阿南 3 日讯) 雪兰莪州政府与大马 Grab 公司合作推出的接种疫苗交通回扣计划，至今共收到 1 万 1223 份申请，其中 8239 份或 6 万 8400 令

吉已获批，目前申请仍开放至 9 月 30 日为止。

雪州大臣拿督阿米鲁丁指出，上述数据是截至 8 月 1 日，居民可通过有关福利取得 20 令吉搭 Grab 前往疫苗接种中心。

他在面簿专页贴文说，有关福利仍开放给州民参与，以方便他们前往疫苗接

种中心。

凡在境内疫苗接种中心接种的民众，可接获预约后，便可通过网站申请。

为协助因行动管控令而影响的人民，雪州政府在 6 月 9 日宣布拨款 5 亿 5156 万令吉推行“我们的雪州 2.0”援助配套，当中通过 3 大策略推出 25 个援助方案，以帮助至少 160 万人民渡过难关。

上述援助计划则是通过雪州大臣机构与大马 Grab 公司合作，为乘搭 Grab 电召车服务前往疫苗接种中心 (PPV) 的民众提供 20 令吉车资折扣，以为交通不便的民众提供福利。

搭 Grab 去接种获车资折扣，为交通不便的民众提供福利。

4 August 2021

Akhbar	:	Guang Ming Daily
Tajuk Berita	:	Kajang Market reopens, only 40% of the stalls are operate
Muka Surat	:	4

(加影3日讯) 加影巴刹早前爆发严重疫情，被加影市议会指示关闭两星期后，今天正式重开，但营业的贩档只有40%，部份小贩受到批发市场关闭影响无货源，惟有暂停营业。

与此同时，该巴刹确诊小贩和员工有45人，其中3人病情严重送去医院治疗，有两人已出院，仍在医院就医的小贩则刚刚失去丈夫和儿子。其他曾染疫的小贩陆续结束隔离期。

### 消费者少六七成

雪州行政议员兼加影州议员许来贤与加影市议员王声宾今早巡视重开的加影巴刹，前往采购消费者比平时少了六七成，相信巴刹关闭多天，消费者不知道今天重开，预计再过几天会好转。

许来贤说，导致巴刹爆发疫情，怀疑源头是来自榴槤贩。

他表示，现时疫情严峻，小贩公会必须严厉防疫，尤其是人多的时候，需要管控进入巴刹里面的人数。

# 加影巴刹重開 僅四成販檔營業

■加影巴刹今重开，许来贤（左二）到场巡视，与小贩进行交流。

此外，许来贤说，一旦雪州进入国家复苏计划第二阶段，州政府将会争取早市及夜市复业，解决路边非法小贩混乱情况。

他不否认越来越多非法小贩及早夜市小贩，为了生计迫不得已在路边摆摊，可是这对疫情带来风险，以及其他民课题，让早夜市复业的目的，是

要减少路边摊。

另外，他指出，雪州接种率非常高，因此离国家复苏计划第二阶段并不远，州政府有信心在8月底之前可以达到80%接种率。

“州内确诊病例逐渐下跌，单日确诊人数慢慢减少，在9月前有信心把确诊数据降到两三千宗。”（TSI）

Akhbar	:	Guang Ming Daily
Tajuk Berita	:	Amirudin: More than 1,500 factories in Selangor implemented POIS, to help prevent workplace infections
Muka Surat	:	6

## 阿米鲁丁：助防职场感染 雪逾1500工厂实行POIS

（沙亚南3日讯）雪州大臣拿督斯里阿米鲁丁说，“POIS”是针对有潜能爆发感染群的工厂和职场所构思的一套有系统性筛检措施，至今州内逾1500间工厂已实行“POIS”措施，并且有效地管控工业领域的冠病疫情。

他说，上述措施从今年1月29日开始实施以来，成功控制工业领域的疫情，而且也助减50%的职场感染群。

他在脸书上贴文说，参与实行此措施的公司，积极地与雪州卫生局、雪州子公司Selgate、地方政府及马来西亚厂商联合会（FMM）配合。

“这项由雪州抗疫特工队（STFC）倡议的措施，足以遏制疫情和降低冠病确诊病例，以使工厂或办公室能继续运作。通过这项措施，有登记的雇主只需成立一个委员会，来负责确认冠病高风险区和活动。”

阿米鲁丁补充，除了“POIS”措施，雪州政府也同步启动雪州工业疫苗计划（SelVax Industri），让有兴趣的公司订购疫苗，为员工安排施打，以达到员工免疫目标。

不过，他强调，雇主不得向员工征收任何费用，需由公司承担。

他披露，上述两项措施与计划的同时进行，主要为了惠及雪州的经济；而且也是雪州政府能力范围内所能做的事情，以降低职场上的感染链。
