Tuan Ibrahim Tuan Man

Siapa yang akan memimpin sebagai Menteri Alam Sekitar dan Air?

Siapa yang akan memimpin sebagai Menteri Alam Sekitar dan Air, banyak pihak berpendapat bahawa Menteri Alam Sekitar dan Air yang akan memimpin dalam kerajaan Perikatan Nasional (PN) akan menjadi Menteri Alam Sekitar dan Air. Menteri Alam Sekitar dan Air yang akan memimpin dalam kerajaan Perikatan Nasional (PN) akan menjadi Menteri Alam Sekitar dan Air.

Bukti dengan pencapaian tutup 'cakap-cakap'

Ibu alam sekitar khususnya air memberikan kesan langsung kepada kehidupan rakyat sekiranya sebarang insiden berlaku sama ada untuk jangka pendek mahupun panjang. Ini menjadikan Kementerian Alam Sekitar dan Air (KASA) bukan sahaja dipantau Perdana Menteri yang menetapkan pencapaian awal dalam tempoh 100 hari pertama, bahkan diperhatikan rakyat. **Wartawan BH, Nazura Ngah dan Rohana Izdris mewawancarai Menteri Alam Sekitar dan Air, Datuk Seri Tuan Ibrahim Tuan Man.**

Selaras dengan latar belakang agama, tidak banyak perbezaan dalam isi pengisian alam sekitar. Mengingat alam sekitar dalam kerajaan Perikatan Nasional (PN) akan menjadi Menteri Alam Sekitar dan Air, banyak pihak berpendapat bahawa Menteri Alam Sekitar dan Air yang akan memimpin dalam kerajaan Perikatan Nasional (PN) akan menjadi Menteri Alam Sekitar dan Air.

5. Bagaimana akan diperjalankan semua perisian maklumat dengan terbaru, dan ekshkursh ke negara lain. Apakah langkah Kementerian merencanakan?
 J. Menteri Alam Sekitar dan Air akan mengemudikan semua perisian maklumat dengan terbaru, dan ekshkursh ke negara lain. Beliau akan mengambil langkah-langkah yang diperlukan untuk memastikan semua perisian maklumat dengan terbaru, dan ekshkursh ke negara lain.

Lima sasaran 100 hari perkhidmatan sektor air

1. Apakah sasaran Datuk Seri untuk 100 hari perkhidmatan dalam sektor air?
 Jawapan: 100 hari perkhidmatan dalam sektor air akan menjadi fokus utama. Beliau akan memastikan semua perisian maklumat dengan terbaru, dan ekshkursh ke negara lain.

1. Adanya beberapa kawasan kita hendak kita fokus dalam 100 hari pertama. Beliau akan memastikan semua perisian maklumat dengan terbaru, dan ekshkursh ke negara lain.

Pemeriksaan Kualiti Sungai Kolombang yang dibuat bersama kumpulan dan NGO antara pihak KASA.

2. Adakah pemerolehan sistem bekalan air?
 Beliau akan memastikan semua perisian maklumat dengan terbaru, dan ekshkursh ke negara lain.

3. Bagaimana pula pentutapan LRA menyebabkan bekalan perikanan?
 Beliau akan memastikan semua perisian maklumat dengan terbaru, dan ekshkursh ke negara lain.

4. Apakah akan ditubuhkan sebuah badan untuk menguruskan sektor air?
 Beliau akan memastikan semua perisian maklumat dengan terbaru, dan ekshkursh ke negara lain.

5. Adakah akan ditubuhkan sebuah badan untuk menguruskan sektor air?
 Beliau akan memastikan semua perisian maklumat dengan terbaru, dan ekshkursh ke negara lain.

6. Bagaimana pula pentutapan LRA menyebabkan bekalan perikanan?
 Beliau akan memastikan semua perisian maklumat dengan terbaru, dan ekshkursh ke negara lain.

7. Apakah akan ditubuhkan sebuah badan untuk menguruskan sektor air?
 Beliau akan memastikan semua perisian maklumat dengan terbaru, dan ekshkursh ke negara lain.

8. Adakah akan ditubuhkan sebuah badan untuk menguruskan sektor air?
 Beliau akan memastikan semua perisian maklumat dengan terbaru, dan ekshkursh ke negara lain.

Projek sungai buatan RM300j dijangka bermula awal tahun depan

Kuala Terengganu: Projek pembinaan sungai buatan bernilai RM300 juta bagi mengurangkan risiko banjir, terutama di daerah Kemaman, dijangka mula dilaksanakan awal tahun depan.

Pengerusi Jawatankuasa Kebajikan, Pembangunan Wanita, Keluarga dan Perpaduan Nasional Terengganu, Hanafiah Mat, berkata projek sungai berjarak sembilan kilometer bagi mengurangkan banjir di beberapa kampung di bandar Chukai itu akan dilakukan selepas kerja pengambilan balik tanah penduduk selesai.

Katanya, projek bermula dari Kampung Paman ke Tasik Bungkus di Ibok, dijangka mengambil masa kira-kira enam tahun untuk disiapkan.

"Jabatan Alam Sekitar (JAS) sudah memberi kelulusan laporan Penilaian Kesan Alam Sekitar (EIA) untuk kerja melebarkan sungai buatan sejauh 250 meter dengan ketinggian dua meter. Apabila siap, projek ini dijangka dapat meminimumkan pertembungan air sungai Air Putih dan Sungai Cerul di Hulu Kemaman," katanya ketika dihubungi semalam.

Hanafiah yang juga Ahli Dewan Undangan negeri (ADUN) Chukai berkata, banjir besar yang melanda Kemaman sehingga menenggelam dan merosakkan kediaman penduduk pada tahun lalu berpunca daripada pertembungan air, terutama apabila berlaku fenomena air pasang besar.

"Ia menyebabkan beberapa kawasan di sekitar Chukai seperti Bandar Baru Bukit Mentok, Kampung Pengkalan Pandan dan Kampung Tempurung tenggelam ketika banjir tahun lalu," katanya yang juga Timbalan Pengerusi Jawatankuasa Bencana Negeri.

Katanya, Terengganu dijangka dilanda hujan lebat ketika musim Monsun Timur Laut mulai akhir bulan ini yang boleh menyebabkan banjir di kawasan rendah.

"Kita menjangkakan peningkatan taburan hujan sehingga 3,600 milimeter (mm) tahun ini berbanding hanya 3,000 (mm) tahun lalu. Jika taburan hujan antara 300 hingga 400mm sehari, banjir mungkin berlaku seperti di Gunung Jerai, Kedah, iaitu disebabkan kepala air," katanya.

Sehingga kini, katanya, taburan hujan di negeri ini adalah sebanyak 2,000mm dengan kadar taburan dalam sehari sekitar 80mm.

Kartel ulat jenazah Covid-19 sukar dibendung tanpa kerjasama waris

Jangan reda, segera buat laporan

Oleh **ABDUL RAZAK IDRIS**
 utusannews@mediamula.com.my

KLANG: Ahli keluarga waris jenazah meninggal dunia akibat Covid-19 yang merasakan mereka terpedaya dengan caj mahal oleh kartel diminta tampil membuat laporan kepada pihak berkuasa.

Mereka hanya perlu mengemukakan bukti seperti resit kepada polis, Suruhanjaya Pencegahan Rasuah Malaysia (SPRM), Jabatan Agama Islam Selangor (JAIS) atau Kementerian Kesihatan.

Ahli Dewan Undangan Negeri (ADUN) Pelabuhan Klang, Azmizam Zaman Huri berkata, sikap waris yang reda dengan perbuatan kartel pengurusan jenazah tidak dapat dibendung secara menyeluruh.

"Kegiatan tersebut telah terbukti apabila SPRM mengambil tindakan terhadap kakitangan hospital yang terlibat.

"Sepatutnya waris yang terpaksa membayar caj melampau kepada kartel pengurusan jenazah melibatkan orang dalam ini tampil membuat laporan dan menjadi saksi," katanya ketika ditemui di sini semalam.

Baru-baru ini, akhbar ini melaporkan, lima kakitangan jabatan forensik sebuah hospital di negeri ini ditahan berhubung kes rasuah pengurusan jenazah selepas dipercayai mengaut keuntungan kira-kira RM22,000 dalam tempoh dua tahun sejak tahun 2019.

Satu sumber berkata, petugas kesihatan Gred 19 hingga Gred 29 itu menerima habuan antara RM300 hingga 400 bagi setiap jenazah daripada ejen mengikut

jenis-jenis kematian.

Mengulas lanjut, Azmizam berharap lebih ramai waris yang terpaksa membayar caj melampau oleh kartel pengurusan jenazah di hospital tertentu memberi maklumat kepada SPRM agar kes tersebut dapat dibanteras.

"Saya difahamkan, waris-waris yang teraniaya hingga terpaksa membayar caj tayamum jenazah hingga empat angka mengambil sikap berdiam diri kerana mengambil prinsip tidak mahu memanjangkan perkara tersebut.

"Bagaimanapun saya menyeru mangsa-mangsa yang terlibat tidak terus berdiam diri dan membiarkan saki-baki kartel pengurusan jenazah terus bermaharajalela menganiayai waris pesakit Covid-19 dan lain-lain sebab kematian," katanya.

PENGURUSAN jenazah pesakit Covid-19 beragama Islam dilaksanakan secara berpusat oleh Jabatan Agama Islam Selangor bagi membanteras kegiatan kartel 'ulat' jenazah. - MINGGUAN / ZULFADHLI ZAKI

LUAS anjur program Pengurusan Risiko Rasuah bersama SPRM

SEBAGAI inisiatif meningkatkan integriti, Lembaga Urus Air Selangor (LUAS) mengadakan program latihan bagi meningkatkan kefahaman Pengurusan Risiko Rasuah (CRM) dengan Suruhanjaya Pencegahan Rasuah Malaysia (SPRM).

LUAS dalam satu kenyataan memberitahu, kursus tersebut dianjurkan bersama Ketua Unit Pemeriksaan dan Perundingan SPRM, Azuan Adzhar.

"Objektif kursus bertujuan untuk memberi pendedahan dan pemahaman tentang keperluan merangka CRM di LUAS. Pegawai-pegawai LUAS akan

diberi pengetahuan mengenai teknik CRM menggunakan proses penilaian," katanya.

Kursus Latihan Penyediaan CRM tersebut diadakan di LUAS selama tiga hari bermula 12 hingga 14 Oktober.

Menerusi kursus tersebut, SPRM memberi pemahaman kepada kesemua pegawai terlibat berhubung proses kawalan atau intervensi yang berbeza.

■ KAKITANGAN LUAS menjalani kursus Latihan Penyediaan Pengurusan Risiko Rasuah bersama SPRM di ibu pejabatnya di Shah Alam, Selangor.

LENTERA HADIS

USAH BUKA AIB, BERI TEGURAN SECARA TERTUTUP

Nasihat untuk seluruh umat Islam adalah bagi membimbing dan memberi tunjuk ajar kepada mereka demi kemaslahatan diri mereka juga, sama ada di dunia mahupun di akhirat

Antara kejahilan mengenai adab memberi teguran yang dikuatir makin berleluasa kini ialah membuat penjelasan tentang sesuatu kesilapan atau kesalahan dilakukan seseorang di media sosial tanpa individu terbabit mengetahui teguran disampaikan. Sedihnya, dia hanya tahu setelah video atau entri berkenaan ditonton atau dibaca oleh ribuan, malah puluhan ribu orang sedangkan maruahnyanya sudah pun jatuh dan tercalar. Adakah begini adab yang diajarkan Islam?

Niat yang ikhlas tidak memadai, jika cara digunakan hakikatnya hanya menjatuhkan, mengaibkan atau memburukkan peribadi seseorang. Sepatutnya hanya kesalahannya sahaja yang diceritakan tanpa menyebutkan namanya kerana demikianlah cara sunah yang sebenar. Rasulullah SAW apabila menegur seseorang baginda akan menyebut secara umum: "Ma balu aqawm..." (Apa kena orang ini...) **Riwayat Abu Dawud**

Menyuruh kepada kebaikan dan mencegah daripada kemungkaran serta nasihat-menasihati, berpesan-pesan dan tegur-menegur amalan yang dituntut oleh agama. Nabi SAW bersabda: "Agama itu adalah nasihat". Kami bertanya: "Untuk siapa?" Baginda menjawab: "Untuk Allah, untuk kitab-Nya, untuk Rasul-Nya, untuk pemimpin golongan Muslimin dan seluruh umat Islam." **Riwayat Muslim**

Bagaimanapun, dalam memberi nasihat perlulah dipelihara matlamat dan adabnya, apabila nasihat yang diberikan bertujuan supaya umat Islam sentiasa melaksanakan segala perintah Allah SWT dan menjauhi segala larangan-Nya, sentiasa membaca dan mengamalkan tuntutan al-Quran serta sentiasa mencintai serta mengikuti sunah Nabi SAW.

Nasihat untuk pemimpin boleh dibahagikan kepada dua, sama ada pemimpin dunia mahupun pemimpin agama (ulama). Nasihat untuk pemimpin dunia adalah bertujuan supaya mereka bersikap adil, tidak berbuat zalim serta memperjuangkan kebenaran. Nasihat untuk ulama pula adalah bertujuan supaya mereka menyampaikan ilmu, menegakkan kebenaran dan menghapuskan kebatilan. Namun, cara menasihati

APABILA teguran dilakukan secara beradab, permusuhan dapat dihindari dan mengekalkan persaudaraan.

mereka hendaklah dengan lemah lembut, penuh adab, hormat serta menjaga lidah daripada mencaci mereka.

Diceritakan, Khalifah al-Ma'mun pernah meminta seorang zahid memberikannya nasihat, lalu dia bertanya: "Bolehkah aku bercakap lantang terhadapmu?" Jawab Khalifah: "Tidak, kerana sesungguhnya Allah telah mengutuskan Musa AS, sedangkan dia lebih baik daripadamu, kepada Firaun, sedangkan dia lebih buruk daripadamu. Namun firman-Nya: Kemudian hendaklah kamu berkata kepadanya dengan kata-kata yang lemah lembut."

Surah Taha: 44

Allah SWT turut berfirman: "Serulah ke jalan Tuhanmu (wahai Muhammad) dengan hikmah (kebijaksanaan) dan nasihat pengajaran yang baik." **Surah an-Nahl: 125**

Diriwayatkan, Hisyam bin Hakim RA pernah menegur seorang gabenor, Iyadh bin Ghanm RA dengan kata-kata kasar sehingga Iyadh naik marah. Kemudian beliau membacakan kepada Hisyam hadis Nabi SAW: "Sesiapa yang hendak menasihati sultan (penguasa) tentang sesuatu perkara maka janganlah dia melaksanakannya secara terang-terangan, tetapi hendaklah dia mengambil tangannya, lalu duduk bersunyan dengannya. Jika dia menerima nasihatnya maka itulah sememangnya dan jika tidak, dia telah pun menunaikan kewajibannya terhadapnya." **Riwayat Ahmad**

Nasihat untuk seluruh umat Islam adalah bagi membimbing

Sesiapa yang hendak menasihati sultan (penguasa) tentang sesuatu perkara maka janganlah dia melaksanakannya secara terang-terangan, tetapi hendaklah dia mengambil tangannya, lalu duduk bersunyan dengannya. Jika dia menerima nasihatnya maka itulah sememangnya dan jika tidak, dia telah pun menunaikan kewajibannya terhadapnya"

Riwayat Ahmad

dan memberi tunjuk ajar kepada mereka demi kemaslahatan diri mereka juga, sama ada di dunia mahupun di akhirat. Justeru, orang yang memberi nasihat perlu menjaga maruah orang yang dinasihati dan menutup keaibannya. Elakkanlah daripada menasihatinya di depan orang ramai, tetapi nasihatlah ketika dia bersendirian atau di tempat tertutup. Imam as-Syafie berkata: "Sesiapa yang menegur saudaranya secara sembunyi-sembunyi maka dia benar-benar telah menasihatinya dan menjaga aibnya. Namun, sesiapa yang menegurnya secara terang-terangan maka sesungguhnya dia telah

memalukannya dan membuka aibnya."

Beliau turut berpesan: "Sampaikanlah nasihatmu kepada semasa aku bersendirian dan elakkanlah memberi nasihat kepadaku sewaktu orang ramai. Sesungguhnya memberi nasihat di khalayak ramai itu adalah salah satu bentuk celaan yang aku tidak reda mendengarnya. Sekiranya kamu menyalahku dan mengingkari pesanku ini maka janganlah kamu terkejut jika nasihatmu itu tidak ditaati."

Seorang ahli hadis, Mis'ar bin Kidam ditanya: "Adakah kamu suka orang yang mengkhabarkanmu tentang keaibanmu?" Lalu dijawabnya: "Sekiranya dia menasihati dalam keadaan hanya diriku dan dirinya maka jawabnya ya. Namun, sekiranya dia menegurku di khalayak ramai, jawabnya tidak."

Imam al-Ghazali dalam Ihya' Ummiddin mengulas: "Benar kata beliau kerana sesungguhnya teguran di khalayak ramai itu hanyalah perbuatan memalukannya."

Jelasnya, teguran secara *private* (tertutup) adalah cara yang paling afdal dan lebih menarik orang yang dinasihati untuk mendengar serta menerima dengan insaf. Seandainya umat Islam menghayati kefahaman sedemikian, nescaya permusuhan dan perpecahan yang berlaku dapat dielakkan.

Penulis Ketua Unit Hadis di Institut Kajian Hadis & Akidah (Inhad), Kolej Universiti Islam Antarabangsa Selangor (Kuis)

Air di KL, Klang masih terjejas

SHAH ALAM – Klang dan Kuala Lumpur merupakan dua kawasan yang masih belum pulih sepenuhnya daripada gangguan air yang berlaku sejak 13 Oktober lalu.

Dua kawasan itu telah mencapai kerja-kerja pemulihan melepasi 90 peratus setakat pukul 6 pagi semalam.

Bagaimanapun, gangguan bekalan air di enam lagi wilayah seperti Hulu Selangor, Kuala Langat, Shah Alam, Kuala Selangor, Petaling dan Gombak telah pulih sepenuhnya.

Pengurusan Air Selangor Sdn Bhd (Air Selangor) dalam satu kenyataan memaklumkan, keseluruhan pemulihan bekalan di 998 kawasan terjejas telah mencapai 98 peratus.

Bagaimanapun tambahnya, pemulihan di kawasan yang masih mengalami gangguan adalah bergantung kepada jarak lokasi premis pengguna dan tekanan air pada sistem pengagihan bekalan.

Terdahulu, Menteri Besar Selangor, Datuk Seri Amirudin Shari memaklumkan, Loji Rawatan Air Sungai Selangor Fasa 1 di Bukit Badong, Kuala Selangor perlu melalui proses penyelenggaraan dan

ORANG ramai mengangkat air selepas kawasan kediaman mengalami gangguan bekalan di sekitar Lembah Klang bermula 13 Oktober lalu.

menyebabkan gangguan berjadual bermula 13 Oktober sehingga 9 malam tadi.

Kerja penyelenggaraan itu bagaimanapun dilaporkan siap lebih awal iaitu pukul 8.15 malam pada Rabu lalu berbanding jangkaan asal pukul 11 malam.

Penyelesaian itu membolehkan bekalan mula disalurkan ke tangki imbuhan serta agihan sebelum diagihkan kepada peng-

guna di kawasan terjejas dan susulan itu Kuala Selangor dilaporkan menjadi wilayah pertama mula mendapat bekalan air.

Bagaimanapun, dalam tempoh berkenaan pengguna di kawasan terjejas masih boleh mendapatkan bekalan di Pili Awam serta Stesen Pengisian Air Komersial yang boleh disemak lokasinya di hentitugas.airselangor.com.

Gangguan bekalan air di Lembah Klang pulih sepenuhnya

KUALA LUMPUR - Gangguan bekalan air di 998 kawasan di Wilayah Petaling, Klang/Shah Alam, Gombak, Kuala Lumpur, Hulu Selangor, Kuala Langat dan Kuala Selangor telah pulih sepenuhnya pada 6 petang Sabtu.

Ketua Komunikasi Korporat Pengurusan Air Selangor Sdn Bhd (Air Selangor), Elina Baseri berkata, syarikat

itu mengucapkan ribuan terima kasih kepada pengguna di atas kesabaran dan kerjasama yang diberikan sepanjang tempoh ini.

Gangguan bekalan air itu disebabkan kerja penambahbaikan dan penyenggaraan aset kritikal di Loji Rawatan Air Sungai Selangor fasa 1 (LRA SSP1) yang dimulakan pada Rabu.

Mah: Ministry looking into Tamil school plight

THE Education Ministry will work closely with relevant stakeholders to repair a four decade old school after its roof fell off — again.

Deputy Education Minister Datuk Dr Mah Hang Soon said the ministry is waiting for reports from the district education office (PPD) and the Malaysian Public Works Department (JKR) before deciding on the next course of action to fix SJK(T) Telok Panglima Garang.

“This school is 44 years old and upon visiting it, we noticed that the roof had fallen off.

“We are still waiting for the reports to know what the issues are and what steps can be taken to repair the building soon.

“We will work closely with Kuala Langat MP Datuk Dr Xavier Jayakumar (on improving the building’s condition),” he said after visiting the school in Banting with Dr Jayakumar last Thursday.

The school has a total of 478 pupils. No one was hurt when the roof fell off on Oct 12.

SJK(T) Telok Panglima Garang parent teacher association deputy chairman

Inspection: Dr Mah inspecting the damage. (Inset) The fallen roof.

Kamalanathan Chellappan said this is not the first time the roof has fallen off.

“We have had this problem for many years, and each time, it just gets repaired.

“This time around when PPD and JKR Kuala Langat told us the same, we took a firm stand to say enough of repairing, give us a new roof.

“We suggested demolishing the building with the fallen roof, and replacing it with a

new structure; we have enough land,” he said, urging the government to use its allocation wisely for the children’s development.

“We hope Mah’s visit will accelerate the process of improving our school,” he said. —

Akhbar	:	The Star
Tajuk Berita	:	KLANG-BASED FIRM GIVES BACK TO HOMETOWN FOLK
Muka Surat	:	5

(Pics from left) Southern Realty set aside RM250,000 to deliver foodstuff to people hard hit by the pandemic; handed over an X-ray machine and other medical equipment and supplies worth RM500,000 to Hospital Tengku Ampuan Rahimah in August 2021; and, donated protective items costing RM120,000 to the Klang Municipal Council.

KLANG-BASED FIRM GIVES BACK TO HOMETOWN FOLK

KLANGITES have much to be proud of their city famed for its delectable food.

From yummy savoury delights of bak kut teh and ikan bakar to sweet treats like apple strudel and pandan layer cake, this is a township that keeps on serving.

This also holds true for Klang-based Southern Realty (Malaya) Sdn Bhd that set aside RM250,000 as part of its ongoing food aid initiative within the community since July 2021.

Southern Realty aims to reach out and deliver food boxes to households and individuals experiencing hardship during these trying times, pledging 500 boxes monthly to those in need.

Each food box contains pantry essentials such as a 5kg bag of rice, noodles, canned goods, sugar, along with a variety of sauces and condiments.

The palm oil and real estate investment company estimates

Southern Realty donates foodstuff, hospital equipment and protective items to the community

these boxes would reach some 2,500 households in the Klang region. With assistance from the police and the Klang Municipal Council, more than 1,000 families have received food boxes to date.

"As a company based in Klang, we feel it is our responsibility to provide for the community in times of need," says Southern Realty senior director Dr Nick Low.

"We will strive to continue our longstanding commitment to the community and ensure everyone is taken care of. We have witnessed the impact of the pandemic first hand, and decided to contribute over RM1mil to tide the various members of the Klang community over the Covid-19 pandemic."

Low says that many people have lost their main source of income due to the pandemic and continued lockdown measures.

"We understand that these people are in dire need of basic necessities and we want to help alleviate any burden our neighbours may be facing, and wish to contribute in any way we can," he says.

In the spirit of banding together to fight Covid-19, the company donated some RM500,000 worth of medical equipment and supplies to Hospital Tengku Ampuan Rahimah in August, 2021.

Southern Realty's contributions consist of new machines and essential equipment upgrades for the radiology, forensic and laboratory departments, as well as the Covid-19 response team.

The hospital received a brand-new mobile FDR Nano X-ray machine that is critical for evaluating Covid-19 patients, 30 mechanical hi-lo hospital beds, body racks, and a variety of laboratory test

equipment and other essentials. HTAR consultant haematologist Dr Tan Swee Looi says: "When the influx of patients overwhelmed our facility, Southern Realty's donation of GeneXpert to the pathology department and digital portable X-ray machine to the radiology department had our backs covered."

"They even looked into the welfare of our frontliners' physical and mental well being with their thoughtful gifts. My sincere gratitude to Southern Realty for the thoughtful and timely assistance."

To motivate the frontliners further, the company donated RM350,000 worth of amenities such as refrigerators and microwave ovens to staff pantries at all the wards as well as 200 vouchers of full board holidays to be used by the frontliners when the pandemic

settles. "Frontliners and healthcare workers are the community's last line of defence against Covid-19. We want to show our support and do what we can to motivate them to continue their fight."

"Their wellbeing, especially their mental health, is our priority," says Low.

Aside from hospitals within the Klang region, Southern Realty also donated essential protective items to the Klang Municipal Council.

The company contributed RM120,000 worth of protective items such as disposable PPE coveralls, Covid-19 antigen rapid tests, surgical face masks, soft nitrile gloves, disinfectant and hand sanitisers to the local authority.

Akhbar	:	The Star
Tajuk Berita	:	Strengthening our booster strategy
Muka Surat	:	5

By Dr IVANNA SIM, Dr SEAN THUM and Dr KHOR SWEE KHENG

AS we transition into an endemic Covid-19 stage, booster vaccine doses are inevitable.

For example, on Sept 22, the US Food and Drug Administration (FDA) approved a single Pfizer/BioNTech vaccine booster dose for three groups of people six months after they complete their primary vaccination series.

They are: those aged 65 years and above, those who are at high risk of severe Covid-19, and those with frequent exposure to Covid-19.

Following this, Health Minister Khairy Jamaluddin announced the rollout of booster doses in Malaysia from this month onwards for selected targeted groups.

However, the world continues to face shortages of Covid-19 vaccines.

Although vaccine shortages are worse in low-income countries, middle-income countries like Malaysia are not spared.

We have enough vaccines for approximately 110% of our population, but that number may be under-counting our actual population and boosters may deplete our supplies.

Therefore, it is crucial for Malaysia to implement an effective, nuanced and targeted booster strategy.

Here, we propose five ways to strengthen Malaysia's booster strategy and support public health outcomes.

Strengthen primary vaccination

Firstly, we need to strengthen our ongoing primary vaccination series.

The primary goal of vaccination is to confer immunity to the entire population.

Malaysia's own Real-World Evaluation of Covid-19 Vaccines under the Malaysia National Covid-19 Immunisation Program study has shown strong protection from the three main vaccines used (AstraZeneca/Oxford, Pfizer/BioNTech and Sinovac) against infection, symptomatic disease and ICU (intensive care unit) admission.

This shows that two doses of the Covid-19 vaccine are highly effective and protective against the SARS-CoV-2 virus, and likely sufficient for the general population.

Therefore, while we roll out booster doses to protect those who remain at risk, an equal focus should remain on our primary vaccination series, especially in states with low vaccination rates.

For example, on Oct 11, only 65% of the adult population of Sabah had been fully vaccinated, although the national average is now 90%.

Collect booster shot data

Secondly, we need to gather and publicize data on the need for boosters in high-risk groups.

Currently, there is limited data globally on Covid-19 vaccine booster doses, like who should receive them, when, how often and the safety profile.

Therefore, to increase public confidence in our ongoing primary vaccination series, we urge the Health Ministry to gather and publicize local data and evidence on the definition of high-risk groups

Strengthening our booster strategy

As Covid-19 booster shots appear increasingly necessary, here are five suggestions to consolidate our approach to them.

Public education and communication should be continued to improve public confidence in the Covid-19 vaccines, including the need for booster shots. — FAIHAN GHANI/The Star

Selangor state public health, unity, women and family development committee chairman Dr Siti Mariah Mahmud shows a graph on Covid-19 patient admissions to hospitals in the state for the period of Sept 1-21. Data on booster shots should be similarly gathered and publicised to help increase public understanding on the issue. — Bernama

and their indications for booster doses.

This data will hopefully increase public understanding on issues such as the increasing infection rates in states with high vaccination rates, like Sarawak.

Following this, the promised targeted booster strategy should be publicised.

Some points to cover include transparent data on vaccine supply across states and regions, detailed definitions on high-risk groups, logistics of the administration of

booster doses, and whether these booster doses are necessary or may be opted out of by targeted groups who have previously received two doses.

Continue public communication

Thirdly, we must educate and reassure the public that vaccines remain important and useful, even if we need a booster shot.

As in many aspects of health, adequate patient or public educa-

tion will create understanding and motivation, while reducing fake news.

In this education process, the differences between a third Covid-19 vaccine dose and booster doses should be clarified, as these two terms are currently used interchangeably.

Although this may now be a minute detail, it may generate public distrust in the two-dose Covid-19 vaccine regime or other vaccination initiatives.

Proper education on the differences between these two terms will increase public understanding of the reasons for booster or third Covid-19 vaccine doses, which will increase public confidence in our booster strategy.

Communication with the public needs to be simple and targeted to our unique Malaysian demographic, which includes using multiple languages, formats and media.

Making it routine

Fourthly, a booster strategy must be long-term and short-term at the same time.

We urge the government to begin laying down a sustainable foundation for an endemic Covid-19 strategy.

"Zero-Covid" strategies are slowly being abandoned worldwide because the inherent properties of the SARS-CoV-2 virus – such as high transmissibility and its capacity to evolve into new variants – make it impossible to be completely eradicated.

ble with widespread immunity achieved through vaccination.

Current data indicates decreased efficacy of Covid-19 vaccines over time, suggesting the need for repeated booster doses, and perhaps even a Covid-19 vaccine every 12-18 months for selected high-risk groups.

Therefore, our long-term strategy should include the embedding of regular booster doses into the National Immunisation Programme (NIP), unlike the current situation where boosters are being administered through the National Covid-19 Immunisation Programme (PICG).

In other words, we need to shift the Covid-19 vaccination campaigns from "campaign mode" to "routine mode".

Developing our own vaccines

Finally, we should utilise this opportunity to accelerate the development of a National Vaccine Development Strategy.

The procurement of Covid-19 vaccines for Malaysia has not been an easy feat.

Furthermore, repeated purchases can be costly.

Malaysia has long produced international award-winning scientists, suggesting that our country has the intellectual capacity to come up with our own vaccines.

We must now build the regulatory and manufacturing capacity to match our intellectual capacity.

This can be made possible by appropriately building and investing in the country's manufacturing facilities, by aligning with health policy areas of the 12th Malaysia Plan (MP12).

In addition to ensuring efficient and wise resource allocation of vaccine production, any advancement in manufacturing facilities will further strengthen Malaysia's public health and pandemic preparedness in facing future health crises.

However, the government must create the conditions for private sector investment in manufacturing, rather than act as the sole or biggest investor.

This will ensure a clear separation between government and business, increase the chances that capital will be allocated efficiently and reduce the risk of corruption.

One part of the whole

Although currently controversial, Covid-19 booster doses are being increasingly accepted as a necessity.

Nonetheless, there are still ways for us to strengthen the booster shot programme, as we have described in this column.

Above all else, we urge everyone to remember that boosters and vaccination programmes are crucial, but they are only one part of the entire universe of our public health and pandemic responses.

UPGRADING AND MAINTENANCE

Water supply recovery at 98pc

+ KUALA LUMPUR: The restoration of water supply in 998 areas in Petaling, Klang, Shah Alam, Gombak, Kuala Lumpur, Hulu Selangor, Kuala Langat and Kuala Selangor reached 98 per cent up to 6am yesterday.

Air Selangor Sdn Bhd corporate communication head Elina Baseri said that based on the percentage breakdown of water supply recovery according to region, six districts — Hulu Selangor, Kuala Langat, Shah Alam, Kuala Selangor, Petaling and Gombak — had attained full recovery.

The recovery rate in Kuala Lumpur was at 95.5 per cent and Klang at 89.4 per cent.

“The duration of the disruption and restoration of water supply in

the affected areas differed depending on the distance of the consumer’s premises and the water pressure of the distribution system,” she said yesterday.

The disruption from Oct 13 due to the shutting down of the Sungai Selangor Water Treatment Plant Phase 1 for upgrading and maintenance work was scheduled to end by 9pm yesterday.

Air Selangor hoped consumers who received their water supply would use it prudently to allow the recovery in the other areas to run smoothly.

For details, visit Air Selangor’s communication channels on Facebook, Instagram and Twitter or contact Air Selangor at 15300.

TOP GLOVE
TOP QUALITY, TOP EFFICIENCY

TOP GLOVE FOUNDATION: BUILDING BETTER COMMUNITIES

As a homegrown business entity that began operations with only one factory and a single glove production line in 1991, Top Glove has always believed in giving back to the community that has supported its growth into the world's largest manufacturer of gloves today.

As part of its community engagement and efforts, Top Glove established Top Glove Foundation (TGF) in 2009, with the aim of providing funding for charitable and educational purposes, as well as to undertake activities related to the environment and community. It soon recognised the potential to broaden its reach and significantly contribute to the country's talent development and environmental sustainability.

Today, the Company, through TGF, is pleased to provide funding for educational or talent management purposes through the disbursements of scholarships and provision of industrial training for university students; in addition to carrying out numerous community, social and environmental initiatives. As at FY2021 ended 31 August 2021, TGF has contributed a total of RM30 million to support several causes under these pillars.

Top Glove Managing Director, Dato' Lee Kim Meow, says:
 "We understand that local businesses and communities are closely linked, and that we can make a significant impact on the community as a whole. We believe in doing good, so that we may continue doing well."

LENDING MOTHER NATURE A HAND

Top Glove takes its responsibility in conserving the environment seriously, undertaking several initiatives both within the Company and the community it works in.

One of the initiatives it organised last year was its annual Recycling Day, to encourage upcycling, downcycling and recycling among Top Glove employees, while inculcating a green mindset. Its green outreach programmes for the community included efforts to preserve the Setia Alam Community Forest and clean up Pantai Morib and Pantai Kelanang in Selangor.

Top Glove Foundation organised a Bubur Lambuk programme this year at Balai Tok Penghulu Meru, where they cooked and distributed packs of porridge to residents in the community

The Foundation is proud to have supported dozens of students over the years in attaining quality education, enabling them to go on to rewarding careers

Earlier this year, Top Gloves around Malaysia visited 13 welfare homes to donate food and daily essentials and bring cheer to residents during the festive period

FIRM COMMITMENT TOWARDS BETTERING COMMUNITIES

"As a Malaysian company growing from strength to strength, Top Glove remains committed towards making a positive impact in the community. Working with the Foundation, we will continue our efforts to reduce our carbon footprint; create a Science, Technology, Engineering and Mathematics (STEM) talent pool that will power our industries in the future; and contribute towards the country's economic growth and wellbeing," adds Dato' Lee.

NURTURING THE NEXT GENERATION

With the belief that quality education is the key driver for transformation, and an integral ingredient to bettering one's self, the Foundation is proud to have supported dozens of students over the years in attaining quality education, enabling them to go on to rewarding careers.

Since its inception, the Foundation has provided scholarships worth over RM3 million to more than 100 bright, deserving students. Upon graduation, these students have the opportunity to join Top Glove, where they would be able to contribute their knowledge and skills to the Company and the industry as a whole.

DOING GOOD FOR THE COMMUNITY

Top Glove delivers aid to communities through various means, including donations in cash and kind, awareness campaigns and internship opportunities. During the pandemic and various restrictions on movement which necessitated a reduction in physical activities, Top Glove volunteers remained actively involved to do good whenever permitted.

Some of the Foundation's activities this year include donations of food and daily essentials to welfare homes, Pusat Khidmat Rakyat N42 Dun Meru and blind masseurs in Brickfields, as well as a donation of mattresses to three welfare homes for their residents.

KUALA LUMPUR, Oct 16 — Water supply in the Klang Valley have recovered by 98 per cent as at 6am today, according to Pengurusan Air Selangor Sdn Bhd (Air Selangor).

Only two out of eight districts — Kuala Lumpur and Klang — are still affected by the scheduled water cuts that started Wednesday, to enable much needed repairs and maintenance work to Sungai Selangor Phase 1 Water Treatment Plant.

In Kuala Lumpur, eight areas may still experience cuts. They are: Taman Flora Impian, Taman Prima Impian, Dutamas Taman Sri Bintang, Taman Bukit Sri Bintang, Taman Seri Bukit Segambut, Anjung Tiara and Mont Kiara.

In Klang, 12 areas are still affected. They are: Aman Perdana, Perindustrian Pulau Indah Fasa 2, Peregat, Kapar, Seme Bukit Kapar, Bantard Baru Bukit Raja, Pulau Kitam, Kampung Telok Gon, Kampung Pulau Indah, Bukit Kerayong.

Air Selangor head of corporate communications, Elna Basri said water supply has been fully restored to the other districts, namely Hulu Selangor, Kuala Langat, Shah Alam, Kuala Selangor, Petaling and Gombak.

The upgrading and maintenance works for the water treatment plant were completed on October 14, but Air Selangor said the duration of the water supply disruption and recovery in the affected areas will vary depending on the distance of consumers' premises and the water pressure at the distribution system.

Those seeking further information on the status of their water supply can refer to the Air Selangor application, Facebook, Instagram, Twitter or contact the Air Selangor Contact Centre at 15300.

Inquiries and complaints can also be submitted to the Help Centre via www.airselangor.com and the Air Selangor application.

Real-time data on the percentage of water supply recovery can also be obtained at hentiugas.airselangor.com.

The latest water disruption in the Klang Valley involving 998 areas hit during a dry spell with temperatures above 30 degrees Celsius.

KUALA LUMPUR, Oct 15 — Water supply in 998 areas in Petaling, Klang/Shah Alam, Gombak, Kuala Lumpur, Hulu Selangor, Kuala Langat and Kuala Selangor has been restored by 68 per cent as at noon today.

Air Selangor Sdn Bhd (Air Selangor) corporate communication head Elina Basri, in a statement today, said water suq in Hulu Selangor has been fully restored, while in Kuala Selangor, it was 99.4 per cent and 94.2 per cent in Shah Alam In Petaling, it was 89.8 per cent, Kuala Langat (85.7 per cent), Kuala Lumpur (38.6 per cent) and Klang (16.8 per cent).

"The duration of water supply disruption and restoration in the affected areas will vary depending on the location of consumer's premises and the water pressure on the water supply distribution system.

"Air Selangor continues to mobilise alternative water supply assistance via tanker trucks to critical premises such as hospitals, dialysis centres, Covid-19 Quarantine and Treatment Centres (PKRC) and Vaccination Centres (PPV), as well for use at funeral ceremony," she said.

Water supply was disrupted in the affected areas due to work to improve and maintain critical assets at the Sungai Selangor Water Treatment Plant Phase 1 (LRA S5P1) last Oct 13.

She advised consumers to let the taps flow for a while until the water turns clear before using the water and to use v prudently to ensure the recovery process in the affected area runs smoothly as scheduled.

The status of water supply restoration will be updated from time to time through Air Selangor's official communicati channels including its website [www.airselangor.com](#), Air Selangor application, Facebook, Twitter and Instagram.

Consumers can also call the call center at 15300. — Bernama

KUALA LUMPUR, Oct 15 — The water supply recovery rate in Kuala Lumpur and Selangor stood at 28 per cent as of 6 today, according to Air Selangor.

The water utility company said it expects the ongoing scheduled disruption to all 998 areas to end by tomorrow.

As of now, Kuala Selangor has the highest recovery rate at 75.6 per cent, Hulu Selangor (60.7 per cent), Petaling (60.4 cent), Shah Alam (40.4 per cent) and Klang (0.9 per cent).

Gombak, Kuala Lumpur and Kuala Langat are yet to receive any supply.

The list of areas which have recovered can be viewed at hentitugas.airselangor.com.

"Air Selangor hopes that consumers who have received water supply will use their water prudently to ensure that the recovery process in the other affected areas runs smoothly as scheduled," Air Selangor's head of corporate communications, Elina Baseri said.

Elina had yesterday said that the upgrading and maintenance works for critical assets on its Sungai Selangor Phase 1 Water Treatment Plant (SSP1 WTP) were completed at 5am yesterday.

The scheduled disruption is to enable upgrading and perform maintenance works on its critical assets at SSP1 WTP.

Water supply in Klang Valley restored by 85pc as of 6pm, says Air Selangor

Friday, 15 Oct 2021 10:02 PM MYT

— Pictur

K.E.Ooi
 Follow us on [Instagram](#) and subscribe to our [Telegram](#) channel for the latest updates.

KUALA LUMPUR, Oct 15 — The restoration of water supply in the affected areas in the Klang Valley has reached 85 per cent as of 6pm today, said Pengurusan Air Selangor Sdn Bhd (Air Selangor).

Water supply has been fully restored in three districts, namely Hulu Selangor, Kuala Langat and Shah Alam.

"The recovery rate in Kuala Selangor is at 99.4 per cent, Petaling (98.9 per cent), Gombak (85 per cent), Kuala Lumpur (per cent) and Klang (50.4 per cent)," Air Selangor said in a statement today.

According to Air Selangor, the duration of the disruption and restoration of water supply in the affected areas would differ depending on the distance of the consumer's premises and the water pressure of the distribution system.

Air Selangor hoped that consumers who have received their water supply would use water prudently to allow the recovery process in the other affected areas to run smoothly as scheduled.

Air Selangor had previously announced that a total of 998 areas in eight districts would be affected by scheduled water supply disruption from Oct 13 to 16 due to the shutting down of the Sungai Selangor Water Treatment Plant Phase 1 (SSP1 WTP) for upgrading and maintenance works. — Bernama

莎阿南企業家發展計劃 助商販走出經濟創傷

(莎阿南15日讯) 莎阿南市政厅将通过与雪州政府及各机构合作，推动“莎阿南企业家发展计划”，加强企业、商家及小贩的发展，协助他们走出新冠疫情所带来的经济创伤。

参与合作的机构包括雪州综合微型贷款计划 (Hijrah)、雪州农业发展机构 (PKPS)、雪兰莪综合微型贷款计划合作社 (Kohijrah) 以及雪州工业合作有限公司 (SIC)。

雪州大臣拿督斯里阿米鲁丁

指出，这项合作计划旨在协助在疫情下，失去收入的商家。

“这项合作不仅协助重组莎阿南范围内的企业发展，还会加强他们成为可持续的企业家，同时提高他们的发展业务的能力。”

阿米鲁丁昨晚见证市政厅与各政府机构签署合作备忘录仪式时，这么指出。

他说，“莎阿南企业家发展计划”是由市政厅与各政府机构合作，旨在接触企业家、商

商店沒執照 接罰單

(加影15日讯) 加影市议会执法组近期持续展开商业执照检查行动, 昨天斯里直落商业中心和加影市区检查23间商店, 发出3张罚单给违规商家。

加影市议会在面子书发文指出, 执法组在斯里直落花园 (Taman Sri Jelok) 商业中心检查12间商店, 其中5间已关闭, 6间商店有执照, 有1

间商店无执照, 市议会发两张罚单给违例商家。

發7通告信給廢車車主

执法员也在加影市区和Metro Avenue 1路和2路检查商店执照, 发现有一间商店没执照, 执法员发出一张罚单。

在无拉港杜达玛斯3路 (Jalan Dutamas 3), 也有3间店铺因没执照

而接获罚单。

此外, 执法员在首都镇第1区发出5张罚单给违例商家。

执法员也在加影和斯里沙登一带, 发出7张通告信给废车车主, 要求车主移走废车。

根据市议会贴文, 有民众投诉土毛月达昔花园 (Tmn Tasik Semenyih) 的野狗, 市议会为此发出3张罚单给狗主。

Tajuk Berita	:	Durian farm housing plan has been shelved for 16 years, and the two parties have not reached a consensus.
Muka Surat	:	12

(吉隆坡15日讯) 雪州瓜冷县摩立区榴莲果园房屋计划被搁置长达16年, 由于109名果园工人无法接受房屋售价至少翻倍调整, 至今都没有和发展商达成共识, 悬而未决。

雪州行政议员罗兹雅今日发表文告指出, Golden Hope Plantations公司于2005年同意移交10英亩土地给雪州政府, 作为果园工人裁员的赔偿配套, 其中2英亩用作兴都庙, 8英亩则兴为果园工人建房屋计划。

她说, 工人在2006年签署授权书, 委任Era Permai私人公司负责兴建房屋计划, 随后, 也签署了买卖合同。

“在109名工人签署了房屋拥有权后, 雪州政府的责任已圆满结束, 然而, 发展商却无法在期限内完成计划, 导致搁置。”

兹雅说, 州政府与发展商通过雪州房屋

 雙造未達共識**

■罗兹雅(左3)颁发证书和工具给“毕业企业家”参与者。

与地产局(LPHS)召开数次会议商讨问题, 发展商二度提出调整房屋售价。

“原价3万5000令吉的21间廉价排屋在2019年8月和9月分别修改至8万令吉和10万令吉; 33间中价排屋的价格则从6万5000令吉修改至20万, 还有55间8万令吉的中价排屋修改至25万令吉。”

她说, 州政府对修改房屋售价没有异

议, 条件是发展商必须获得109名工人的同意, 但截至最新, 双方未能就房屋售价达成协议。

“州政府的建议是, 发展商自动放弃当初签署的授权书, 但有责任承担一切费用, 又或者, 工人们取消当初委任发展商的授权书。”

■ 消防员出动灭火，避免火势蔓延。

(吉隆坡15日讯) 雪州环境局取缔1名在巴生佐汉瑟迪亚 (Johan Setia)，进行露天焚烧的农民。

环境局是利用无人机，侦察到农耕区出现浓烟，而联络消防队灭火，阻止火势蔓延。

当局怀疑上述农民是在利用刀耕火种的方式清理耕地。

燒芭清理耕地 雪環境局取締農民

环境局也提醒公众，根据1974环境素质法令，露天焚烧一旦定罪会被罚款赔偿过50万令吉，或监禁不超过5年，或两者兼施。

巴生12地區仍沒水供 議員服務中心安排派水

(八打灵再也16日讯)为配合雪兰莪河第一期滤水站展开提升工程，滤水站暂停运作，雪隆998个地区的水供因此从本月13日早上9时开始中断。尽管工程已于14日早上5时完成，并于下午5时开始分阶段重新输出水供，大部分地区也已恢复水供，但仍有一部分的地区仍受影响。截至今天中午，巴生12个地区仍未恢复水供，州议员服务中心安排派水。

雪大臣拿督斯里阿米鲁丁中文脸书专页今早也发生“小插曲”，指受影响地区100%水供已恢复，后来紧急删文纠

正为98%的地区恢复水供。

水压有差异

他指出，各地区的水供恢复过程将受地点与滤水站的距离及水源分配系统水压而有所差异，促请民众稍微等待，而州政府和雪州水务公司会一直跟进进展确保水供恢复过程顺利。

巴生新城州议员拿督邓章钦特别助理严玉梅受访时指出，根据雪州水务管理公司的消息指出，截至早上6时为止，巴生还有12个地区仍未恢复水供，不过情况一直到中午时段也未

见改善。

她披露，这12个地区包括中路、富豪苑、英达岛第二期工业区、柏乐峇、加埔、士文达、武吉加埔、武吉拉惹、吉胆岛、甘榜直落昂、甘榜英达岛及武吉克拉涌。

“因为距离较远的问题，水源从滤水站输送到富豪苑和武吉拉惹，需要比较多的时间，所以迄今仍未恢复水供。”

她说，雪州水务管理公司昨日中午和傍晚时段，已轮流到受影响的地区派水，而相关工作今日也会延续，有些民众则到公共水喉取水。

“我们会一直紧盯著情况，与雪州水务管理公司保持密切的联系，分配派水的事宜。” (BPK)
