Pemilik tanah bakar kebun sawit disiasat

PUTRAJAYA: Tindakan tidak bertanggungjawab pemilik tanah yang membakar kebun sawit di Sepang, Selangor mengundang padah apabila bakal disiasat Jabatan Alam Sekitar (JAS).

Menerusi kenyataan agensi itu, suspek dipercayai sengaja melakukan pembakaran terbuka di kawasan terbiar berkenaan untuk dibersihkan bagi tanaman semula kelapa sawit baharu.

“Siasatan aduan insiden ini yang berlaku di Jalan Sijangkang Utama, Kebun Baru semalam di jalankan setelah menerima aduan kes daripada pihak bomba sendiri,” katanya.

Proses penyiasatan lanjut ke atas pemilik tanah kebun tersebut dilaksanakan JAS cawangan Sepang berdasarkan peruntukan Seksyen 29 (A) Akta

Kualiti Alam Sekeliling 1974, jika disabitkan kesalahan boleh dihukum denda tidak lebih daripada RM500,000 atau penjara sehingga maksimum lima tahun atau kedua-duanya sekali.

Di samping itu, JAS memberi amaran tegas bahawa pelaku aktiviti pembakaran terbuka seumpamanya boleh dikenakan kompaun maksimum RM2,000 bagi setiap kesalahan dibuat.

Kenyataan itu menambah, pihak JAS berharap agar orang awam jika mendapati ada kes pencemaran tersebut segera melaporkan kepada agensi berkenaan untuk tindakan susulan melalui talian bebas tol 1-800-88-2727 atau e-mel terus kepada eaduan@doe.gov.my atau melaporkan kes pembakaran terbuka itu kepada bomba.

Skuad muda negara menang lagi

Kuala Lumpur: Skuad bawah 23 (B-23) tahun negara menghantar isyarat buat tiga pencabar lain dalam Kelayakan Kejuaraan Konfederasi Bolasepak Asia (AFC) B-23 di Mongolia hujung bulan ini apabila mencatat kemenangan kedua selepas membenam Kedah Darul Aman FC (KDA FC) 2-0 di Arena Majlis Bandaraya Subang Jaya (MBSJ), Subang Jaya, semalam.

Kejayaan menundukkan naib juara Liga Super itu

sememangnya mengejutkan apatah lagi ia kemenangan kedua berturut-turut skuad kendalian Brad Maloney dalam aksi persahabatan itu.

Sebelum ini, pemain negara berjaya meraih keputusan positif ke atas Penang FC dengan keputusan 2-1 pada Jumaat lalu.

Gol skuad muda negara dijanginkan tonggak pertahanan Ahmad Zikri Khalili pada minit ke-28 untuk mendahului lawan

dengan 1-0.

Anak buah Aidil Sharin Sahak cuba bangkit namun kekebalan benteng pertahanan negara cukup sukar untuk dibolosi, sekali gus keputusan itu kekal hingga tamat babak pertama. Bersambung separuh masa kedua, skuad negara yang diundi dalam Kumpulan bersama Laos, Mongolia dan Thailand itu, diasak bertubi-tubi oleh jentera serangan Kedah untuk memburu gol

penyamaan.

Bagaimanapun, anak didik Maloney terus melanjutkan pasukan Liga Super itu apabila berjaya menambah gol kedua pada masa kecederaan hasil sentuhan Azfar Fikri Azhar.

Kemenangan itu cukup bermakna buat barisan pemain muda negara yang menyasarkan slot automatik ke pusingan akhir Kejuaraan AFC yang dijadual berlangsung di Uzbekistan tahun depan.

Sultan Selangor sukacita 85 peratus rakyat lengkap vaksin

SHAH ALAM – Sultan Selangor, Sultan Sharafuddin Idris Shah menzahirkan rasa sukacita apabila 85 peratus rakyat negeri itu sudah divaksin sepenuhnya.

Perasaan itu dizahirkan baginda selepas berkenan menerima menghadap Menteri Kesihatan, Khairy Jamaluddin Abu Bakar di Istana Bukit Kayangan, di sini semalam.

Turut berangkat, Raja Muda Selangor, Tengku Amir Shah.

Menerusi kenyataan Facebook Selangor Royal Office, Sul-

tan Sharafuddin diberi taklimat mengenai perkembangan terkini penularan pandemik Covid-19 terutama di negeri ini.

"Baginda sukacita apabila dimaklumkan bahawa peratusan rakyat Selangor yang telah divaksin sepenuhnya kini mencecah 85 peratus.

"Pada pertemuan itu, YB (Yang Berhormat) Khairy Jamaluddin turut menyampaikan laporan terkini mengenai isu antivaksin dan tindakan yang sedang diambil pihak kementerian," katanya.

Dalam pada itu, Sultan Sharafuddin dan Khairy turut membincangkan mengenai kepentingan penambahan fasiliti Geriatrik di hospital bagi menampung peningkatan populasi warga emas.

"Baginda turut menyarankan agar tumpuan dan pelan jangka pendek diberikan kepada penyediaan perkhidmatan psikiatri dan kesihatan mental.

"Dua perkhidmatan itu perlu berkualiti dan lebih meluas khususnya di Selangor," katanya.

SULTAN SHARAFUDDIN (tengah) bersama Tengku Amir Shah (kanan) dan Khairy Jamaluddin di Istana Bukit Kayangan, Shah Alam semalam.

Tindakan pencemaran alam sekitar undang padah **Pemilik bakar kebun sawit disiasat JAS**

Oleh **AMREE AHMAD**

PUTRAJAYA – Tindakan tidak bertanggungjawab pemilik tanah yang membakar kebun sawit di Sepang, Selangor mengundang padah apabila bakal disiasat Jabatan Alam Sekitar (JAS).

JAS menerusi kenyataan berkata, suspek dipercayai sengaja membuat pembakaran terbuka di kawasan terbiar itu untuk dibersihkan bagi tanaman semula kelapa sawit baharu.

“Siasatan aduan insiden ini yang berlaku di Jalan Sijangkang Utama, Kebun Baru semalam (kelmarin) dijalankan setelah menerima aduan kes daripada pihak bomba,” katanya semalam.

Proses penyiasatan lanjut ke atas pemilik tanah kebun tersebut dilaksanakan JAS cawangan Sepang berdasarkan peruntukan Seksyen 29 (A) Akta Kualiti Alam Sekeliling 1974, jika disabitkan kesalahan boleh dihukum denda maksimum RM500,000 atau penjara maksimum lima tahun atau kedua-duanya sekali.

JAS turut memberi amaran tegas bahawa pelaku pembakaran terbuka seumpamanya boleh dikompaun maksimum RM2,000 bagi setiap kesalahan.

“Orang ramai diminta melaporkan segera kepada JAS untuk tindakan susulan jika melihat sebarang pencemaran

KEADAAN satu kawasan estet sawit terbiar yang sengaja dibakar secara terbuka sehingga mengakibatkan pencemaran di Jalan Sijangkang Utama, Kebun Baru, Sepang kelmarin. – IHSAN JAS

seumpama itu.

“Hubungi talian bebas tol **1-800-88-2727** atau e-mel kepada eaduan@doe.gov.my atau melaporkan kes pembakaran terbuka itu kepada bomba,” katanya.

Semalam, penguat kuasa JAS cawangan Sepang menjalankan rondaan di beberapa lokasi di daerah tersebut susulan bacaan Indeks Pencemaran Udara (IPU) yang berstatus sederhana termasuk kawasan Saujana Putra, Rimbayu, Kebun Baru, Telok

Panglima Garang, Batu 9, Telok Mengkuang, Sungai Manggis, Sijangkang, Dengkil, Kota Warisan dan Cyberjaya.

Kesemua stesen IPU di negeri itu merekodkan paras sederhana, namun stesen Johan Setia yang satu-satunya di negara ini berstatus tidak sihat, sudah kembali ke paras sederhana yang mencecah 159 dari pukul 10 pagi sehingga 8 malam kelmarin kemudian berjaya turun hingga bawah 100 menjelang 2 pagi semalam.

Tiada lagi istilah *The Sleeping Hollow*

Hulu Selangor kini ke arah perbandaran mampan untuk semua

Hulu Selangor merupakan daerah di utara negeri Selangor Darul Ehsan yang bersempadan dengan Kuala Selangor, Sabak Bernam dan Gombak. Berdasarkan kedudukan, Hulu Selangor merupakan daerah yang strategik dan pintu masuk utama ke Selangor, turut dihubungkan ke negeri di Utara dan Pantai Timur melalui jalan darat dan rel.

Hulu Selangor dengan keluasan 175,630.11 hektar merupakan daerah terbesar daripada sembilan daerah di Selangor, menyamai keluasan negeri Melaka.

Dibahagikan kepada 13 mukim dan Pusat Pentadbiran Hulu Selangor terletak di Kuala Kubu Bharu, ditadbir oleh Majlis Daerah Hulu Selangor (MDHS) selaku Pihak Berkuasa Tempatan (PBT) yang ditubuhkan sejak tahun 1975.

DAERAH KETINGGALAN

Walaupun Hulu Selangor adalah daerah terbesar namun 50 peratus daripada keluasan merupakan Banjaran Titiwangsa dan Hutan Simpan Kekal.

Ia merupakan kawasan tadahan air utama yang membekalkan air bersih ke Lembah Klang dan faktor ini merupakan antara cabaran dalam merencanakan pembangunan di daerah ini.

The Sleeping Hollow adalah gelaran yang diberikan kerana daerah ini agak ketinggalan arus pembangunan. Namun, ia mula berubah sekitar awal 1990-an apabila terdapat ura-ura beberapa projek mega akan dibangunkan di sini.

Ia melonjakkan kemajuan di kawasan Hulu Selangor dengan pembukaan bandar-bandar baru seperti Bukit Beruntung, Bukit Sentosa, Sungai Buaya, Antara Gapi, Bandar Utama Batang Kaili, Lembah Beringin dan Bernam Jaya iaitu antara kemajuan terancang dan lengkap dibangunkan bermula sekitar tahun 1992.

Daerah ini menjadi hab automotif apabila Perusahaan Automotif Kedua (Perodua) dan Tan Chong Motor Holding Berhad membuka kilang pemasangan kereta di Serendah.

KRISIS EKONOMI, ISU BROWNFIELD

Krisis Ekonomi Asia 1997 turut memberi kesan kepada pembangunan Hulu Selangor. Pembangunan yang sedang dijalankan terpaksa dirangka semula malah ada yang dihentikan antaranya Sungai Buaya dan Lembah Beringin.

Bagi Projek Bandar Bukit Beruntung dan Bukit Sentosa, majoritinya telah siap dibangunkan tetapi gagal dijual. Lebih memburukkan keadaan apabila premis-premis perniagaan dan kilang tidak dapat disewakan atau dijual semula.

K keadaan ini mewujudkan suasana bandar tinggal atau dalam istilah lain *brownfield*. Ini memberi imej yang amat buruk kepada Bandar Bukit Beruntung ketika itu sehingga digelar 'bandar tidak utung'.

Isu ini turut memberi kesan dan cabaran kepada pihak MDHS terutama dalam aspek menyelesaikan masalah infrastruktur, isu rumah tinggal dan tungkangan cukai taksiran.

Kemuncak pada 2007, pihak MDHS dan Pejabat Daerah & Tanah Hulu Selangor diberi 'Anugerah Penyapu' oleh kerajaan negeri ketika itu kerana gagal mengutip cukai yang disasarkan.

Kedudukan Hulu Selangor yang strategik berupaya menarik pelabur ke sini.

LONJAKAN PERTAMA

Bagi menyelesaikan isu *brownfield* dan projek terbengkalai, MDHS selaku Pihak Berkuasa Perancang Tempatan merangka strategi komprehensif melalui Rancangan Tempatan Daerah Hulu Selangor 2020.

MDHS turut bekerjasama dengan pihak Plan Malaysia menyediakan Pelan Tindakan Khas Kawasan *Brownfield* Bukit Beruntung dan Lembah Beringin.

Pembangunan di kawasan lain ditutup dengan menumpukan kawasan Bandar Bukit Beruntung dan Bukit Sentosa.

MDHS turut bekerjasama dengan kerajaan negeri dan Persekutuan bagi memajukan semula Bandar Bukit Beruntung untuk menarik pelabur dan orang ramai tinggal di sini.

Dari tahun 2010 hingga 2020, setelah berbincang dengan pelbagai agensi kerajaan, kemudahan pendidikan, rekreasi dan keselamatan berjaya dibina iaitu.

1. SK Bukit Beruntung II
2. SMK Bukit Sentosa II
3. SJKC Bukit Tangga (Bukit Beruntung)
4. SK Taman Bunga Raya II
5. Balai Bomba Bukit Sentosa
6. Masjid Saidina Ali
7. Taman Awam Seroja
8. Taman Awam Jenjarum

Melalui Invest Selangor, MDHS bekerjasama dengan kerajaan negeri dalam menarik pelabur ke Hulu Selangor.

Imej Hab Automotif diperkukuhkan dengan penjenamaan semula menjadi Hab Pembuatan Pengangkutan Negara.

Serendah juga dikenalpasti sebagai nukleus utama bagi hab ini dan tanah-tanah perindustrian sedia ada di Bandar Bukit Beruntung dan Bukit Sentosa dijadikan hab sokongan vendor.

Hasilnya, kawasan ini menerima pelaburan berimpak tinggi seperti pembukaan kilang pembuatan dan pemasangan kelongsong enjin kapal terbang oleh UMW Aerospace.

Kilang ini yang merupakan kilang Tier-1 bagi pengeluar komponen aeroangkasa sekali gus meletakkan Serendah di peta dunia sebagai lokasi pengeluar komponen kapal terbang.

Hulu Selangor juga menjadi pilihan kepada syarikat lokomotif SMH Rail Sdn Bhd untuk membuka kilang pemasangan dan pembaikan lokomotif.

Kilang di Kawasan Perindustrian Zurah, Rasa telah menjadi lokasi pemasangan gerabak bagi MRT, selain bengkel pemasangan dan pembaikan lokomotif tempatan dan antarabangsa.

Pemain industri sedia ada seperti

Perodua telah menambah pelaburannya di Hulu Selangor dengan pembukaan kilang pertama bagi pembuatan kenderaan cekap tenaga (Energy Efficient Vehicle -EEV) di Malaysia melalui Perodua Global Manufacturing (PGM) bernilai RM1.3 bilion.

Pihak UMW Holdings Berhad juga menambah pelaburannya di Taman Industri Bernilai Tinggi Serendah (Serendah HVM) dengan memindahkan ibu pejabat dan operasi perniagaannya dari Seksyen 15, Shah Alam.

Pembangunan ini dijangka memberi impak tinggi kepada Bukit Beruntung dan Serendah serta dijangka siap tahun 2022.

Kedudukan Hulu Selangor yang strategik dari aspek perhubungan telah menarik syarikat-syarikat membuka gudang dan pusat pengedaran di sini.

Tesco Distribution Centre di Bukit Beruntung yang dibuka pada 2012 menjadi hab pengedaran kepada semua Pasaraya Tesco di Malaysia dan pusat pengedaran terbesar di Asia Tenggara.

Dengan kemasukan pelaburan, ia sedikit sebanyak telah memulihkan semula Bandar Bukit Beruntung dan Bukit Sentosa dan menarik orang ramai membeli hartanah di sini.

3. Penerapan konsep pembangunan pintar.
4. Sistem perhubungan jalan raya dan infrastruktur yang efisien.
5. Penawaran pakej pelaburan yang menarik.
6. Pembangunan modal insan yang efektif dan berdaya saing.

Empat teras ini dibentuk agar semua isu pembangunan ditangani:

1 Teras 1: Pembangunan dan peluang ekonomi yang saksama.

2 Teras 2: Pengurusan sumber asli yang mampan.

3 Teras 3: Pembangunan komuniti sejahtera.

4 Teras 4: Urus tadbir efektif dan efisien.

Semasa tempoh perancangan ini, isu ketidakseimbangan pembangunan antara bahagian selatan dan utara Hulu Selangor akan diberi penekanan.

Pembangunan berimpak tinggi dirancang di kawasan utara Hulu Selangor bagi menjadi pemangkin kepada pembangunan keseluruhan bahagian itu.

Penyelesaian isu *brownfield* juga diteruskan selain usaha membangunkan semula kawasan Bukit Beruntung/Bukit Sentosa termasuk Sungai Buaya dan Lembah Beringin.

Selain pembangunan, pengelakan semula jadi dan kawalan kepada kawasan tadahan air juga diberi penekanan. 15 tahun ke hadapan, Hulu Selangor perlu memilih jenis industri dan pembangunan yang sesuai beroperasi dan dijalankan bagi menerapkan konsep pembangunan mampan dan mesra alam.

NILAI HARTANAH DI DUA BANDAR INI TELAH MELONJAK PADA 2019 BERBANDING TAHUN 2008

BIL	KATEGORI PENGGUNAAN TANAH	NILAI TANAH SEKAKI PERSEGI	
		2008	2019
1	Bangunan Kediaman	RM 8.00 - RM 12.00	RM 10.00 - RM 18.00
2	Bangunan Perniagaan	RM 8.00 - RM 12.00	RM 29.00 - RM 33.00
3	Perusahaan	RM 13.00 - RM 20.00	RM 60.00 - RM 70.00

Dengan pertambahan penduduk, kemudahan untuk kesihatan, rekreasi serta naik taraf keselamatan dan pendidikan akan dilakukan.

Bagi menepati masa hadapan, MDHS telah merangka pelan pembangunan 15 tahun bermula 2020 sehingga 2035 yang berorientasikan *People-Centric* dengan menetapkan sasaran 500,000 penduduk pada 2035.

Segala perancangan dan hala tuju pembangunan perlu memenuhi keperluan penduduk dari aspek penyediaan kemudahan awam dan peluang pekerjaan.

Bagi mencapai sasaran berkenaan, enam tema pembangunan di tetapkan iaitu:

1. Pembangunan sumber semula jadi dan warisan.
2. Persekitaran komuniti lestari.

DULU MDHS KINI MPHIS

Bermula dengan daerah kecil dari segi pembangunan kemudian membangun dengan rancang sebelum terhenti akibat masalah ekonomi, Hulu Selangor menepati masalah secara tenang dan berkesan.

Segala perancangan bagi pemulihan sehingga 2020 telah dilaksanakan dan menampakkan hasil yang memberangsangkan.

Penarafan MDHS kepada Majlis Perbandaran Hulu Selangor (MPHS) pada 21 Oktober 2021 adalah satu usaha yang membuktikan Hulu Selangor kini membangun menuju ke alaf bandar pintar yang terancang.

Hulu Selangor kini bersedia untuk menjadi Perbandaran Mampan untuk semua!

JAS kesan kebakaran terbuka di kebun kelapa sawit terbiar

JAS Cawangan Sepang menyiasat lokasi kebakaran di Jalan Sijangkang Utama, Kuala Langat berdasarkan aduan yang diterima daripada pihak JBPM Selangor.

KUALA LANGAT - Jabatan Alam Sekitar (JAS) Cawangan Sepang mengesan aktiviti pembakaran terbuka di sebuah kawasan kebun kelapa sawit terbiar di Jalan Sijangkang Utama, Jalan Kebun Baru, di sini pada Ahad.

JAS menerusi satu hantaran di Facebook menjelaskan, pihaknya menjalankan siasatan di kawasan tersebut setelah mendapat aduan daripada pihak Jabatan Bomba dan Penyelamat Malaysia (JBPM) ketika menjalankan rondaan di beberapa lokasi sekitar daerah tersebut.

Menurut hantaran tersebut, siasatan mendapati lokasi aduan adalah kawasan

kebun kelapa sawit terbiar yang sedang dibersihkan untuk ditanam semula tanaman tersebut.

Ujarnya, pemilik tanah akan disiasat oleh JAS Cawangan Sepang.

“JAS Selangor berharap orang ramai dapat melaporkan kes-kes pencemaran kepada JAS di talian bebas tol 1800-88-2727 atau melalui e-aduan di eaduan@doe.gov.my.

“Orang ramai juga boleh melaporkan kes melibatkan pembakaran terbuka kepada JBPM di talian 999 atau 1800-88-994 dan sistem pesanan ringkas (SMS) pada talian 03-88880964,” katanya pada Ahad.

LUAS buat semakan pencemaran Sungai Remuk

HULU SELANGOR

- Kerajaan negeri Selangor mengambil maklum berhubung aduan pencemaran di Sungai Remuk di sini.

Exco Pelancongan, Alam Sekitar, Teknologi Hijau dan Hal Ehwal Orang Asli Selangor, Hee Loy Sian berkata, Lembaga Urus Air Selangor (LUAS) sedang membuat semakan mengenai perkara tersebut.

"LUAS sedang buat semakan dan laporan berkaitan akan dikemukakan nanti," katanya ringkas menerusi WhatsApp pada Isnin.

Sinar Harian pada Ahad melaporkan gesaan Pertubuhan Kebajikan Warga Desa Hulu Selangor meminta kerajaan negeri menyiasat punca sebenar pencemaran yang berlaku di sungai berkenaan.

Ahli jawatankuasa pertubuhan terbabit, Amir Fairizat Sayuti berkata, masalah itu bertambah teruk setiap kali hujan lebat menyebabkan air sungai bertukar keruh.

Ketika ditanya kemungkinan pencemaran itu disebabkan pembangunan chalet di kawasan berkenaan, Loy Sian berkata, beliau perlu menunggu siasatan dijalankan terlebih dahulu bagi mengesahkan aduan tersebut.

Tambah beliau, aduan pencemaran di kawasan tersebut adalah kes baharu dan tiada laporan dibuat berhubung kejadian sebelum ini.

Laporan Sinar Harian pada Ahad.

Sultan Selangor terima menghadap Menteri Kesihatan

SHAH ALAM - Sultan Selangor, Sultan Sharafuddin Idris Shah berkenan menerima menghadap Menteri Kesihatan, Khairy Jamaluddin Abu Bakar di Istana Bukit Kayangan pada Isnin.

Menerusi kenyataan di Facebook Selangor Royal Office, Sultan Sharafuddin turut berkenan mendengar taklimat mengenai perkembangan terkini penularan wabak Covid-19 khususnya di Selangor.

"Baginda sukacita apabila di-

maklumkan bahawa peratusan rakyat Selangor yang telah divaksin sepenuhnya kini mencecah 85 peratus.

"YB (Yang Berhormat) Khairy turut menyampaikan laporan terkini mengenai isu anti vaksin dan tindakan yang sedang diambil oleh pihak kementerian," menurut kenyataan itu pada Isnin.

Turut berangkat pada pertemuan itu, Raja Muda Selangor, Tengku Amir Shah.

Tambah kenyataan itu, dalam

pertemuan sama, baginda dan Khairy turut membincangkan mengenai pentingnya penambahan fasiliti geriatrik di hospital bagi menampung peningkatan populasi warga emas.

"Baginda turut menyarankan agar tumpuan dan pelan jangka pendek diberikan kepada penyediaan perkhidmatan psikiatri dan kesihatan mental yang berkualiti dan lebih meluas khususnya di negeri Selangor," kata kenyataan itu.

H&R to invest RM200mil in speciality manufacturing plant in Lumut

KUALA LUMPUR: German-based speciality refiner H&R GmbH & Co KGaA will be investing RM200mil in a speciality manufacturing plant in Lumut, Perak.

The company planned to kickstart construction of facility by March next year, followed by commencement of production by early 2024.

The project is expected to be carried out in three phases, with a designed capacity of 150,000 tonnes per year, according to the company in a statement.

H&R announced its investment plan during its meeting between the trade and investment mission to Germany led by Senior Minister and International Trade and Industry Minister Datuk Seri Mohamed Azmin Ali.

Since 1990, the group has two facilities in Malaysia namely H&R Malaysia Sdn Bhd and H&R Malaysia Wax Sdn Bhd in Port Klang and Batu Caves respectively.

Azmin said the announcement by H&R reflects foreign investors' confidence in the country's business environment, adding that the group had indicated goals to reduce its dependency from fossil-based feedstock to renewable for more sustainable products.

Meanwhile, H&R said it would be setting up a new entity, H&R Chempharm Asia Sdn Bhd, focusing on the production of environment-friendly plasticisers for tyre and rubber applications as well as technical and medicinal white oils for food, pharmaceutical, cosmetics and polymer applications with the new introductory of bio-based products.

H&R is the leading global sustainable refiner and marketer of speciality plasticisers, extender oils, softeners and waxes based in Germany.

Selangor

Walkway damaged by fallen tree at Astaka Sports Complex field in Petaling Jaya, poses danger to joggers >4

Story and photos by AIDA AHMAD
 aidaahmad@thestar.com.my

THE field at Astaka Sports Complex in Petaling Jaya has always been a popular recreational and exercise site among residents in the city, especially those living nearby.

With the Covid-19 movement restrictions lifted and recreational activities allowed, locals have been visiting the field again for exercise, using the paved walkway for walking and jogging.

However, the side of the sports field that runs along the back of The Spastic Children's Association of Selangor and Federal Territories is marred by a huge tree uprooted during a thunderstorm in June. It has yet to be cleared.

The fallen tree has also damaged part of the walkway, with broken brick tiles strewn about and a big slab of cement blocking the path.

Unhappy residents are saying that this was dangerous as the spot was sunken and people could easily lose their footing and fall.

Lawyer Harbans Kaur, who lived nearby and goes for morning walks along the field, said the loose bricks along the walkway were dangerous, especially for elderly folk.

"We have many senior citizens walking here in the mornings and evenings. It is sad to see that the authorities have neglected to clear the uprooted tree for months now.

"If a person is not paying attention, he or she can easily trip and injure themselves because of the uneven walkway," she told *StarMetro*.

Petaling Jaya City Council (MBPJ)

Damaged paved path at Astaka field a risk to users

Huge uprooted tree on site yet to be cleared

had paved the walkway earlier this year.

Businessman R. Ganesan, 59, who often walked around the field in the evenings, urged MBPJ to quickly clear the uprooted tree for the community's safety.

"I cannot understand why they are taking so long to do this. The tree is rotting already.

"We have to be extra alert now when using the walkway because sometimes the bricks near the damaged spot are loose and strewn haphazardly.

"Undergrowth is beginning to appear too and this should be cleared," he said.

Another frequent jogger in the area SL Tan, 62, feared snakes could emerge from the rotting tree and the undergrowth.

"It is the rainy season now and mosquitoes are abundant in this part of the field because there are

pockets of uneven spaces where water can stagnate.

"The walkway was nice and paved but unfortunately, the tree fell and damaged the ground.

"The authorities should look into this quickly and not delay it," he said.

When alerted by *StarMetro*, MBPJ Corporate Communications Department spokesperson said the matter would be handled by the relevant department.

(Above) Harbans at the site of the uprooted tree along the Astaka recreational field near the sports complex.

The damaged spot is sunken.

By **EDWARD RAJENDRA**
 edward@thestar.com.my

KLANG, Kuala Langat, Sepang, Kuala Selangor and Sabak Bernam residents should be vigilant for another round of flash floods as their areas are expected to be affected by the high tide phenomenon on Nov 5, 6 and 7, with a higher risk if it coincides with heavy rain.

Klang District Fire and Rescue Department zone chief Hussin Ab Rahman said the National Hydrographic Centre in Port Klang forecasted high tide at 5.6m on Nov 5 at 6.02am and on Nov 6 at 6.40am, while on Nov 7, the tide will reach 5.5m at 7.18am.

"Stations in the district are prepared for any eventualities during

high tide.

"We have the manpower to tackle the possibility of flash floods expected in vulnerable areas," he added.

Hussin said all equipment needed for relief work were on standby, including boats and life jackets, while the Port Klang Fire and Rescue Station also had an amphibious boat that could be operated on land and water.

Klang district officer Mohd Zainal Mohd Nor said people living near rivers and coastal areas have been advised to be vigilant, especially during heavy rain.

"Based on the forecast, the level

of the high tide should not breach the bunds," he added.

Klang Municipal Council (MPK) president Ahmad Fadzli Ahmad Tajuddin said close-circuit television (CCTV) cameras used for traffic management in Klang would double up as an early warning tool to detect rising water levels in low areas during the high tide phenomenon.

"Out of the 76 camera locations, we have five cameras in low-lying areas or flooding hotspots," he added.

"Our enforcement CCTV Unit staff will have real-time images from cameras at sites across

Tanjung Harapan, Pulau Ketam jetty at Jalan Syahbandar (Jalan Foreshore), Jalan Jambatan Connaught, Jalan Tepi Sungai and Menara MPK," said Ahmad Fadzli, adding that the council's CCTV Unit staff would have dual tasks.

"Our enforcement staff will keep an eye out for traffic and monitor the occurrence of flash floods, if any," he added.

Ahmad Fadzli was glad that the CCTV Unit decided to turn a passive monitoring camera into a visual sensor that maximised the potential of the equipment.

Areas particularly vulnerable to

the high tide phenomenon in Klang are Taman Melawis, Kampung Delek, Sungai Udang, Pengkalan Tok Muda, Batu 4 at Jalan Kapar, Bund Sementa, Pelabuhan Klang, Jalan Pandamaran Banting and Taman Selat Damai in Pendamar, Port Klang.

For Kuala Langat, the areas are Pantai Kelanang and Persisir Pantai Tanjung Sepat while in Sepang, Persisir Pantai Bagan Lalang is vulnerable to the high tide phenomenon.

In Sabak Bernam, the areas are Tebuk Mendeling, Sungai Ayer Tawar and Sungai Panjang while in Kuala Selangor, the areas are Tanjung Karang, Kampung Kuantan, Pantai Remis and Pekan Sungai Buloh.

Stench from leaking sewerage upsetting residents of flats in Bandar Puncak Alam

By FARID WAHAB
 faridwahab@thestar.com.my

RESIDENTS of several blocks of flats in Bandar Puncak Alam are feeling uneasy about a stench that is permeating the area.

They blame it on overflowed sewage from a drain near the parking lot.

Those residing in Flat Saujana Mawar believe the muck — which began appearing behind Block E eight months ago — is leaking from the underground sewerage system.

They urge the authorities to step in and resolve the problem, which has raised hygiene and health concerns in the neighbourhood.

Father-of-four Razali Zahidin, 60, said he had reported the matter to Kuala Selangor Municipal Council (MPKS) last month.

“The stench gets even worse after downpours,” said the retiree, who bought his unit in 2010.

Another resident Mohd Arif Mat, 48, suspected objects in the sewerage pipes blocked the flow of sewage.

He said this has caused a backflow into the toilets inside the residents’ units.

“As a result, some residents have installed a pipe to divert the waste from their toilet into the surrounding drainage system,” he said.

This has caused another problem as the sewage now clogs up the drainage, causing the water to stagnate.

Razali said residents had no choice but to instal the additional pipes to prevent wastewater from gushing out of their toilets.

“Because of this, we have had to

go over to petrol stations or near-by supermarkets to use their toilets,” he added.

Resident Mohd Shamsul Helmi, 38, said the walls in his units would sometimes become damp, perhaps due to the backflow.

A notice displayed in a common area by the joint management body (JMB) said six clean-ups of the sewerage system had been conducted since late 2017.

It warned residents not to throw items into the toilet bowl, adding that sanitary pads and undergarments were among items commonly found clogging the sewerage system.

MPKS Commissioner of Building Unit chief Muhammad Zulfiqah Omar, when contacted, said the maintenance of stratified buildings fell under the JMB.

He said the council had for-

(From left) Residents Mohd Arif, Razali and Subariah Husin showing the sewage that now ends up in the surrounding drainage.

warded the issue at the flats to its JMB, after receiving several complaints from residents.

“But the JMB does not have sufficient funds to service the sewerage, due to the poor collection of maintenance fees.

“There are also many empty units there that has further affected fee collection,” he said, adding

that only 30% of residents have paid the maintenance fee.

The flats in Taman Alam Jaya comprised six blocks of five-storey buildings, each having between 60 and 70 units.

Residents also expressed concern about the overgrown grass in the area, fearing snakes among other creatures.

Helping unemployed to secure jobs

Selangor government's job fair to offer 25,000 opportunities

By GRACE CHEN
 gracechen@thestar.com.my

GROWING concerns over the 4.4% unemployment rate in Selangor has prompted the state government to continue with its *Jelajah Selangor Bekerja* job fair programme this year.

At a press conference to launch the event that will see 200 employers offering up to 25,000 job opportunities, Selangor youth generation, sports and human capital development committee chairman Mohd Khairuddin Othman said he hoped the platform would be of help to the 165,000 unemployed individuals, who were either fresh graduates or had lost their jobs due to the Covid-19 pandemic.

"If this platform is able to connect candidates to all the job opportunities offered by the participating companies, this will reduce the state's unemployment rate to 3.7%," said Khairuddin.

Quoting from English economist John Maynard Keynes, Khairuddin said an unemployment rate of high-

er than 4% was a sign of an unproductive economy.

In comparing the unemployment rate before the pandemic, he said in 2019, it was at 2.9% with 88,300 jobless.

"But by 2020, it had risen to 4.5% when the Covid-19 pandemic forced affected sectors to slow down or cease production altogether."

These figures were obtained from the Statistics Department and Social Security Organisation (Socso), he said, and that the number of layoffs were somewhat countered by an increase in self employment — in online businesses or e-hailing services.

Otherwise, the unemployment rate would have been higher, he added.

On the people's response to the job fair, Khairuddin said despite restrictions during the various movement control orders, last year's event recorded 15,000 online registrations.

"This year, we hope to see a rise in registration as employers and potential job candidates would be

Khairuddin (front row, middle) at the launch of this year's Jelajah Selangor Bekerja job fair in Dewan Jubli Perak at Selangor State Secretariat.

able to meet face to face. In 2019, for example, the fair helped secure some 1,200 jobs within two days," he said.

Just as in the previous series, the *Jelajah Selangor Bekerja* programme will offer positions ranging from rank and file up to middle management in various sectors such as services, construction, IT, technical and aerospace, the last that was made possible through a collaboration with Invest Selangor Bhd.

On whether the current economic landscape was now an employer's market, Invest Selangor chief executive officer Datuk Hasan Azhari Idris said with the current freeze on the intake of foreign workers, it was hoped that locals would be able to take advantage of the void.

On whether fresh graduates and those new to an industry would have a chance of landing jobs, Hasan Azhari said with the training programmes available, it

boiled down to how a job applicant was able to impress his prospective employer during an interview.

Confidence and attitude were some of the important criteria employers look out for, he said.

The job fair will be held in Shah Alam, Kuala Selangor, Kuala Kubu Baru, Hulu Langat and Petaling from Oct 23 until the end of December.

Mida forms partnership to deepen French connection

PETALING JAYA: The Malaysian Investment Development Authority (Mida) and French private business network, Medef International, have inked a strategic partnership to promote and facilitate potential investments and business cooperation between France and Malaysia.

The signing of the memorandum of understanding between Mida and Medef International was witnessed by Senior Minister and International Trade and Industry Minister Datuk Seri Mohamed Azmin Ali yesterday.

Given that France has had a long presence in Malaysia's manufacturing and services sectors, Azmin said he was confident that there would be more French investors undertaking investments in the high value and high technology fields in the country.

"This includes transport equipment (aerospace), information and communications technology (ICT), pharmaceutical, scientific and measuring equipment, electrical and electronics, food, chemical and chemical products, as well as machinery and equipment.

"Concurrently, we hope that these investments will spur more talent development programmes to future-proof our workforce, building upon our National Investment Aspirations and the 12th Malaysia Plan towards 2025," he said.

As of December 2020, a total of 126 manufacturing projects with French participation had been implemented in Malaysia, with total investments worth RM4.36bil, creating more than 10,900 jobs.

Meanwhile, Mida chief executive officer Arhan Abdul Rahman said the partnership would allow more Malaysian businesses and technology providers to better connect with the global supply chain.

This was because Medef International's global network was in more than 120 markets.

Malaysian sailing goes up a notch with SSL Gold Cup participation

PETALING JAYA: Malaysian sailing is set to reach new heights with the participation of the national team in the inaugural SSL (Star Sailors League) Gold Cup, which is equivalent to football's World Cup, next year.

The special event sanctioned by World Sailing (the International Federation of Sailing) is an international competition to decide the world's best sailing nation.

Each nation will compete in a high performance 47-foot long one-design monohulls supplied by the organisers to ensure there is no equipment advantage.

The event will see the world's top 56 ranked nations including Malaysia vying for the world title.

"The SSL Gold Cup is an international event that takes sailing to a new level and Malaysia is honoured to be part of this exciting initiative," said Malaysia skipper cum manager Megat Daniah Megat Najmuhammad.

"This first test event recently gave us the chance to pit our skills against higher-ranked teams. We were pleasantly surprised with the results and look forward to the full-blown

event next year.

"The team have been working well together and we will continue to strive to improve ourselves with further training and competitions such as the Raja Muda Selangor International Regatta in December."

In the test event last month, Malaysia got a podium finish at Lake Neuchatel in Grandson, Switzerland.

It was a tight race between Malaysia and Ukraine for third place but our crew managed to pip the Ukrainians to the finish line. South Africa emerged winners with Thailand coming in second.

The Malaysian team, also known as The Monsoon, are made up of the country's top 11 sailors where only nine will compete at any one time.

The crew are Khairulnizam Mohd Affendy, Nur Shazrin Latif, Nuraisyah Jamil, Juni Karimah Jamali, Mohd Saifullah Mohd Esa, Ahmad Faizul Aswad Mohamed, Ahmad Hakhimi Ahmad Shukri, Mohd Faizal Norizan, Mohd Akiyuddin Mat Zaki, Mohd Azhar Sa'don Zubir and Megat Daniah.

Working as a unit: Malaysia's The Monsoon team in action during the test event for the SSL Gold Cup.

German-based H&R to invest RM200m in speciality plant in Perak

Monday, 18 Oct 2021 04:02 PM MYT
 KUALA LUMPUR, Oct 18 — H&R GmbH & Co KGaA, a leading global sustainable refiner and marketer of speciality plasticisers, extender oils, softeners and waxes headquartered in Hamburg, Germany, is investing RM200 million in a speciality manufacturing plant in Lumut, Perak.

The investment plan was announced during a meeting between H&R and the Trade and Investment Mission (TIM) to Germany delegation led by the Senior Minister and Minister of International Trade and Industry (MITI) Datuk Seri Mohamed Azmin Ali.

It said the construction of the facility is planned to kickstart by March 2022 followed by the commencement of production in early 2024.

"The project will tentatively be carried out in three phases, with a designed capacity of 150,000 tonnes per annum," it is in a statement today.

It said Phase I and Phase II would be dedicated to the production of speciality plasticisers, white oils and wax emulsions from mineral, synthetic and renewable resources while Phase III would focus on the production of renewables through uniquely designed synthesising technologies.

H&R said the company would be establishing a new entity, H&R Chempharm Asia Sdn Bhd, to focus on the production of environmentally friendly plasticisers for tyre and rubber applications as well as technical and medicinal white oils for pharmaceutical, cosmetics and polymer applications with the new introduction of bio-based products.

"This investment is anticipated to create 70 new jobs in Malaysia," it said.

H&R said apart from H&R Chempharm Asia Sdn Bhd, it has two existing facilities in Malaysia, namely H&R Malaysia Sdn Bhd and H&R Malaysia Wax Sdn Bhd in Port Klang and Batu Caves, respectively.

It said these facilities have been in operations since 1990, producing wax speciality emulsions as well as undertaking marketing and distribution activities of various speciality oils and waxes.

Mohamed Azmin said H&R's investment announcement reflected foreign investors' confidence in Malaysia's business environment that remained conducive.

He said the company has indicated clear goals to reduce its dependency on fossil-based feedstock and more toward renewable or hybrid feedstock for more sustainable products and speciality applications to eventually reach carbon neutral operation by 2035.

"This is in line with Malaysia's commitment to drive reforms in achieving carbon net zero greenhouse gas (GHG) emissions by 2050.

"This strategic investment will further support and drive Malaysia's commitment towards environment, social and governance (ESG) values and advancing green growth as outlined in the 12th Malaysian Plan (12MP)," he said.

Meanwhile, the Malaysian Investment Development Authority (MIDA) chief executive officer (CEO) Arham Abdul Rahman said H&R's investment to enhance their venture towards bio-based products in Malaysia is a testament to the country's established chemical industry ecosystem that has been an important catalyst to other industries such as automotive, food, medical devices and pharmaceuticals.

"MIDA through our Project Acceleration and Coordination Unit (PACU) will work closely with H&R to provide end-to-end facilitation in ensuring the smooth implementation of their project in Malaysia," he said.

H&R CEO and executive board chairman Niels H Hansen said the strategic direction and vision of the Malaysian government for a carbon-neutral economy definitely strengthened the company's determination to further invest in the country.

"Our investment in Lumut, Perak aims to contribute to a more sustainable growth, focusing on defossilisation," he said.

He said Malaysia, centrally positioned in Southeast Asia, is a sustainable manufacturing hub with rich resources, in both mineral and renewable feedstock, to serve the Asean community.

"As an industry leader in the manufacture and marketing of speciality niche products, we intend to develop a hybrid business model in our project in Lumut to transition production of mineral-based products to renewable specialities locally sourced feedstock to supply to our global customers who are producing in the region," he added.

H&R has more than 100 years of experience operating speciality refineries in manufacturing plants around the world.

KUALA LUMPUR, Oct 18 — The latest trade and investment mission to France has successfully generated a total pote investment of RM2.6 billion and RM300 million worth of potential exports, according to the Ministry of International and Industry (Miti).

This validates the success of Malaysia's continuous efforts in attracting quality investment and in enhancing particip of local companies in high value global supply chain, the ministry said.

"The strong interest shown by French companies garnered during the mission serves as a major catalyst in expande bilateral trade and investment relations, most notably in areas that support the sustainable and green agenda advo by both nations," it said in a statement here today.

The mission to France, which took place from October 15-17, 2021, was led by Miti and Senior Minister Datuk Seri Mohamed Azmin Ali. Among others, the Malaysian delegation also had a series of one-to-one sessions with French companies, notably Airbus, Saint-Gobain, Adisseo Group, Prolaser, and Innovafeed.

During these sessions, the French enterprises showed great interest to continue making Malaysia their business par in the aerospace, biotechnology, advanced chemical, medical devices, halal products and the construction sectors, s the ministry.

According to the statement, Mohamed Azmin also had bilateral meeting with Minister Delegate for Foreign Trade and Economic Attractiveness, Franck Riester, in Paris.

During the meeting, Mohamed Azmin highlighted opportunities in Malaysia's growing green technology sector and Malaysian industry players' capabilities in this high-value sector.

Both ministers had an engaging discussion on topics of mutual interest, including economic recovery strategies in th endemic phase, advancing reforms at the World Trade Organisation (WTO), leveraging Malaysia's position in the meq Regional Comprehensive Economic Partnership (RCEP) agreement, and investment and commercial opportunities in renewable energy.

The Malaysian delegation also commended France's renewed interest in the Southeast Asian region, including Malay and saw this new development as a pathway to further strengthen ties between both nations.

The delegation welcomed France's growing interest in this region as the republic is set to assume the presidency of t Council of the European Union during the first half of 2022.

Mohamed Azmin also witnessed the signing of a memorandum of understanding (MOU) between the Malaysian Investment Development Authority (MIDA) and Mouvement des Entreprises de France (MEDEF) International.

The strategic partnership between MIDA and MEDEF International will complement Malaysia's National Investment Aspirations through expanded cooperation aiming to facilitate the nation's industrial ecosystem with the catalytic infrastructure and new technologies. — Bernama

東鐵計劃C段工程

雪政府堅持南部路線

(吉隆坡18日讯)雪州政府坚持东海岸铁路计划 (ECRL) 的C段工程，必须要经过雪州南部的乌鲁冷岳、雪邦和巴生西港的路线。

雪州大臣拿督里阿米鲁丁日前在鹅唛出席一项社区活动时说，虽然中央政府有意恢复东海岸铁路计划的北部路线，但雪州政府坚持南部路线才是首选。

他说，雪州政府已和交通部开会，也反映州政府要保持南部路线的立场。

他指出，截至目前，中央政府还没有针

对雪州叔府所选的路线做出回应。

交通部于今年4月宣布东海岸铁路计划将采用在2016至2017年建议的路线，雪州政府则在C段工程必须要采用经过南部的乌鲁冷岳、雪邦和巴生西港的路线。

中央政府从9月21日至10月19日公开展示东海岸铁路计划的北部路线的报告，有关报告分别在环境部在布城的总部、吉隆坡陆路交通局、雪州环境局、士拉央市议会、瓜雪市议会、巴生市议会及乌雪县议会。

仁嘉隆諾登路路邊 垃圾堆清不完

(仁嘉隆18日讯) 仁嘉隆诺登路 (Jalan Norton) 路边垃圾堆清了又出现, 草坪垃圾越积越多, 让居民饱受困扰, 不满闻臭度日。

瓜冷第九区市议员杨克勤接获居民投诉, 日前与仁嘉隆新村村长洪平基、助理陈文德, 市议会官员一同到现场巡视。

杨克勤指出, 仁嘉隆诺登路成了非法垃圾场, 产生难闻味道, 也影响市容美观。

“居民公民意识薄弱, 导致该处路边垃圾问题严重, 垃圾清了又丢, 这些垃圾虫自私行为, 垃圾飘恶臭味, 影响附近一带居民作息。”

楊克勤建議安電眼

他呼吁居民们协助杜绝非法乱丢垃圾行为, 当市议会线眼, 拍下乱丢垃圾者的照片并

提供给他举报, 让执法单位惩罚垃圾虫。

“这是破坏环境卫生的不文明举动, 希望垃圾虫不要在该处乱丢垃圾, 否则我会要求执法单位采取行动对付, 保护环境, 人人有责, 若大家有多一份责任心, 就可以保护环境清洁。”

他说, 在接获居民投诉后, 第一时间通知瓜冷市议会, 他感谢市议会及垃圾承包商, 出动罗厘和推泥机, 迅速清理垃圾。

杨克勤说, 他将向市议会建议, 在该处安装闭路摄影机, 把垃圾虫的丢垃圾过程摄录起来, 让当局采取行动对付, 确保解决该区垃圾问题。

洪平基说, 为了打造更好的生活环境, 希望大家一起互相照顾居住环境的整洁卫生。

雪州政府料下月啓動 青少年疫苗接種計劃

(莎阿南17日讯) 随著青少年全国冠病疫苗接种计划 (PICK) 已如火如荼展开中, 雪州政府料于11月启动“雪州青少年冠病疫苗接种计划” (Selvax Remaja), 支援卫生部为12至17岁的青少年接种疫苗!

据《当今雪州》报导, 雪州行政议员西蒂玛莉亚指出, 一旦雪州流动接种计划 (Selvax bergerak) 结束, 就会启动雪州青少年冠病疫苗接种计划, 估计将在11月展开, 并可提高接种

率。

她指出, 对于希望孩子接种科兴疫苗的家长, 可安排孩子参与雪州的接种计划, 一切免费。

公開給所有輟學學生

她说, 青少年全国冠病疫苗接种计划 (PICK) 主要提供辉瑞疫苗, 也有部分家长不愿孩子接种辉瑞, 所以他们可考虑参与雪州的青少年冠病疫苗接种计划, 不过一切交由家长决定。

她指出, 他们也得到马哈可兰经私立学校 (Maahad Tahfiz) 等私立学校的热烈响应, 这将加快学生接受免疫接种的速度。

“此计划也公开给所有辍学的学生, 他们可前来参与和接种疫苗。”

雪州大臣拿督斯里阿米鲁丁早前已宣布, 中央政府已与州政府达成共识, 即批准州政府准备15万剂疫苗, 以启动“雪州青少年冠病疫苗接种计划” (Selvax Remaja) 作为支援单位, 加快青少年接种新冠疫苗的速度。

雪州政府早前已率先推动雪州社区冠病疫苗接种计划 (Selvax Komuniti) 和雪州工业冠病疫苗接种计划 (Selvax Industri) 等。

Tajuk Berita	:	Selangor government insists on South route for ECRL to reduce effects for local residents and protecting the reservoir
Muka Surat	:	6

(鹅麦 18 日讯) 雪兰莪州政府坚持东海岸铁路计划 (ECRL) 工程采取南部路线, 即途经乌鲁冷岳、雪邦和巴生西港, 并已就此向中央政府反映, 惟后者至今仍未回复最终择定的路线。

雪兰莪州务大臣拿督斯里阿米鲁丁指出, 尽管中央政府有意恢复北部路线, 但州政府始终坚持南部路线才是首选。

“我们之前已正式与交通部开会探讨, 坚持涉及雪州的工程必须维持南部路线。”

阿米鲁丁 1 周日 (17 日) 出席鹅麦一项亲民活动后, 向《当今雪州》如是表示。

北线需迁移原住民村

交通部在今年 4 月 5 日宣布将完善及维持在 2016 年至 2017 年建议的东铁北部路线。不过, 雪州政府坚持该工程应采用途经乌冷、雪邦和巴生西港的南部路线, 以节省成本、不影响太多民宅和维护森林保留地及集水区。

一旦采用中央政府建议的

减影响民宅 捍卫集水区

雪政府坚持东铁南线

雪兰莪州政府坚持东海岸铁路计划工程采取南部路线, 以节省成本、不影响太多民宅和维护森林保留地及集水区。

北线路线将带来社会影响, 促使落在铁道线的传统甘榜和原住民村需迁移。

中央政府从 9 月 21 日至 10 月 19 日公开展示东海岸铁路北部路线报告, 展示地点包

括布城环境局总部、吉隆坡敦依斯迈大厦陆路交通机构、莎阿南 Sunwaymas 雪州环境局、士拉央市议会总部、瓜拉雪兰莪市议会总部、巴生市议会总部及乌鲁雪兰莪县议会总

部。

民众可通过线上 <https://bit.ly/ECRLC2EIA> 阅读报告, 以及反馈意见 https://bit.ly/ECRLC2_EIAFEEDBACK。

工作坊改造形象

新村好品40隊晉複賽

(沙亚南18日讯) 接著这共40组队伍将参与一连串的培训工作坊，为来自新村的产品进行蜕变式的改造，打造属于自己的品牌。

雪州新村发展行政议员黄思汉昨晚通过“新村

ing”脸书官宣40队入围名单时指出，这项大赛是由雪州新村发展事务委员会主办，PLab为策划单位，于9月8日开始收件至10月10日为止，共接获了65份报名。

他说：“雪州新村好品大赛”推介以来，收到很多询问和好评，反应相当热烈，团队下乡去解说大赛的细节时，热情的村民

推荐自己村子里，最好吃、最有历史、最创意的东西，大家尽力把卧虎藏龙的食品达人给找出来。

他坦言，在众多大家推荐的食物中，其实有很多都没有美丽的包装，有的采用透明密封塑料袋或用玻璃罐装，有的甚至只用塑料袋包装再绑旁边(ikattepi)，没有设计，也没有品牌。

黄思汉说，“我们最常听到的是，我的产品只是卖给新村人，没有华丽的包装，可以参加吗？”

他说，新村食品就是那么的朴实，正因为这些食品有古早味、有原创味，只要食品达人对自己的产品有信心，那雪州好品大赛就会可以帮助他们把产品加一件外衣，让它变得更好看，再协助通过网

销，把产品卖到外国去。

他恭喜一共40组入围半决赛的队伍，并希望他们好好把握上培训工作坊的机会，敢于表达自己产品的看法和勤于向导师发问。这次的培训工作坊是极其注重实务，所以工作坊结束后，参赛作品不论在设计力、故事力、文创力、营运力和销售力等方面都有提升。

黄思汉希望这些入围者好好享受这个学习的过程，并一起期待产品升级，让新村食品变成好品，最后让新村人引以为傲！

这些资深和新创组也将于11月5日起通过myStartr众筹平台预售升级版的产品，以争取晋级决赛的门票。(TSI)
